JFK and the Unspeakable James W. Douglass,2010-10-19 THE ACCLAIMED BOOK, NOW IN PAPERBACK, with a reading group guide and a new afterword by the author. At the height of the Cold War, JFK risked committing the greatest crime in human history: starting a nuclear war. Horrified by the specter of nuclear annihilation, Kennedy gradually turned away from his long-held Cold Warrior beliefs and toward a policy of lasting peace. But to the military and intelligence agencies in the United States, who were committed to winning the Cold War at any cost, Kennedy’s change of heart was a direct threat to their power and influence. Once these dark Unspeakable forces recognized that Kennedy’s interests were in direct opposition to their own, they tagged him as a dangerous traitor, plotted his assassination, and orchestrated the subsequent cover-up. Douglass takes readers into the Oval Office during the tense days of the Cuban Missile Crisis, along on the strange journey of Lee Harvey Oswald and his shadowy handlers, and to the winding road in Dallas where an ambush awaited the President’s motorcade. As Douglass convincingly documents, at every step along the way these forces of the Unspeakable were present, moving people like pawns on a chessboard to promote a dangerous and deadly agenda.

Rocket Men Robert Kurson, 2018-04-03 NEW YORK TIMES BESTSELLER • The riveting inside story of three heroic astronauts who took on the challenge of mankind's historic first mission to the Moon, from the bestselling author of *Shadow Divers*. “Robert Kurson tells the tale of Apollo 8 with novelistic detail and immediacy.”—Andy Weir, #1 New York Times bestselling author of *The Martian* and *Artemis* By August 1968, the American space program was in danger of failing in its two most important objectives: to land a man on the Moon by President Kennedy's end-of-decade deadline, and to triumph over the Soviets in space. With its back against the wall, NASA made an almost unimaginable leap: It would scrap its usual methodical approach and risk everything on a sudden launch, sending the first men in history to the Moon—in just four months. And it would all happen at Christmas. In a year of historic violence and discord—the Tet Offensive, the assassinations of Martin Luther King, Jr., and Robert Kennedy, the riots at the Democratic National Convention in Chicago—the Apollo 8 mission would be the boldest, riskiest test of America's greatness under pressure. In this gripping insider account, Robert Kurson puts the focus on the three astronauts and their families: the commander, Frank Borman, a conflicted man on his final mission; idealistic Jim Lovell, who'd dreamed since boyhood of riding a rocket to the Moon; and Bill Anders, a young nuclear engineer and hotshot fighter pilot making his first space flight. Drawn from hundreds of hours of one-on-one interviews with the astronauts, their loved ones, NASA personnel, and myriad experts, and filled with vivid and unforgettable detail, *Rocket Men* is the definitive account of one of America's finest hours. In this real-life thriller, Kurson reveals the epic dangers involved, and the singular bravery it took, for mankind to leave Earth for the first time—and arrive at a new world. “*Rocket Men* is a riveting introduction to the [Apollo 8] flight. . . . Kurson details the mission in crisp, suspenseful scenes. . . . [A] gripping book.”—The New York Times Book Review

Assessment and Teaching of 21st Century Skills Patrick Griffin, Esther Care, 2014-10-21 This second volume of papers from the ATC21STM project deals with the development of an assessment and teaching system of

21st century skills. Readers are guided through a detailed description of the methods used in this process. The first volume was published by Springer in 2012 (Griffin, P., McGaw, B. & Care, E., Eds., Assessment and Teaching of 21st Century Skills, Dordrecht: Springer). The major elements of this new volume are the identification and description of two 21st century skills that are amenable to teaching and learning: collaborative problem solving, and learning in digital networks. Features of the skills that need to be mirrored in their assessment are identified so that they can be reflected in assessment tasks. The tasks are formulated so that reporting of student performance can guide implementation in the classroom for use in teaching and learning. How simple tasks can act as platforms for development of 21st century skills is demonstrated, with the concurrent technical infrastructure required for its support. How countries with different languages and cultures participated and contributed to the development process is described. The psychometric qualities of the online tasks developed are reported, in the context of the robustness of the automated scoring processes. Finally, technical and educational issues to be resolved in global projects of this nature are outlined.

The Honey Bus Meredith May, 2019-04-02 An extraordinary story of a girl, her grandfather and one of nature's most mysterious and beguiling creatures: the honeybee. Meredith May recalls the first time a honeybee crawled on her arm. She was five years old, her parents had recently split and suddenly she found herself in the care of her grandfather, an eccentric beekeeper who made honey in a rusty old military bus in the yard. That first close encounter was at once terrifying and exhilarating for May, and in that moment she discovered that everything she needed to know about life and family was right before her eyes, in the secret world of bees. May turned to her grandfather and the art of beekeeping as an escape from her troubled reality. Her mother had receded into a volatile cycle of neurosis and despair and spent most days locked away in the bedroom. It was during this pivotal time in May's childhood that she learned to take care of herself, forged an unbreakable bond with her grandfather and opened her eyes to the magic and wisdom of nature. The bees became a guiding force in May's life, teaching her about family and community, loyalty and survival and the unequivocal relationship between a mother and her child. Part memoir, part beekeeping odyssey, *The Honey Bus* is an unforgettable story about finding home in the most unusual of places, and how a tiny, little-understood insect could save a life.

The Dressmakers of Auschwitz Lucy Adlington,2021-09-14 A powerful chronicle of the women who used their sewing skills to survive the Holocaust, stitching beautiful clothes at an extraordinary fashion workshop created within one of the most notorious WWII death camps. At the height of the Holocaust twenty-five young inmates of the infamous Auschwitz-Birkenau concentration camp—mainly Jewish women and girls—were selected to design, cut, and sew beautiful fashions for elite Nazi women in a dedicated salon. It was work that they hoped would spare them from the gas chambers. This fashion workshop—called the Upper Tailoring Studio—was established by Hedwig Höss, the camp commandant’s wife, and patronized by the wives of SS guards and officers. Here, the dressmakers produced high-quality garments for SS social functions in Auschwitz, and for ladies from Nazi Berlin’s upper crust. Drawing on diverse sources—including interviews with the last surviving seamstress—*The Dressmakers of Auschwitz* follows the fates of these brave women. Their bonds of family and friendship not only helped them endure persecution, but also to play their part in camp resistance. Weaving the dressmakers’ remarkable experiences within the context of Nazi policies for plunder and exploitation, historian Lucy Adlington exposes the greed, cruelty, and hypocrisy of the Third Reich and offers a fresh look at a little-known chapter of World War II and the Holocaust.
