Making Michael: Inside the Career of Michael Jackson Mike Smallcombe,2015-10-20 MAKING MICHAEL delves deep inside the career of one of the most successful, enigmatic and controversial entertainers of all time: Michael Jackson. Side-stepping sensationalism, journalist Mike Smallcombe enters uncharted territory as he takes you behind the scenes to reveal the real Jackson, a man few people ever got to know. Interviewing over sixty of Jackson's associates including managers, lawyers, music executives, producers, musicians and engineers - many of whom are speaking about their experiences publicly for the first time - he provides exclusive access to one of the biggest-selling recording artists in history. Featuring a foreword by Matt Forger, one of Jackson's longest serving and most loyal collaborators, MAKING MICHAEL takes readers into the studio with the King of Pop, charting the creation of record-breaking albums including Thriller, Bad, Dangerous and HIStory and the twists and turns that occurred along the way. Untold stories, revelations and secrets finally see the light of day as Jackson's career outside the studio is also examined. Smallcombe remains objective and doesn't shy away from exploring Jackson's ruthless traits, his addictions, his fall outs, the relentless pursuit of perfectionism, the financial chaos and those shocking final weeks. MIKE SMALLCOMBE is a British journalist living and working in the UK. [www.makingmichael.co.uk](http://www.makingmichael.co.uk) Twitter: @mikesmallcombe1

*The Prize* Daniel Yergin,2012-09-11 The Prize recounts the panoramic history of oil -- and the struggle for wealth power that has always surrounded oil. This struggle has shaken the world economy, dictated the outcome of wars, and transformed the destiny of men and nations. The Prize is as much a history of the twentieth century as of the oil industry itself. The canvas of this history is enormous -- from the drilling of the first well in Pennsylvania through two great world wars to the Iraqi invasion of Kuwait and Operation Desert Storm. The cast extends from wildcatters and rogues to oil tycoons, and from Winston Churchill and Ibn Saud to George Bush and Saddam Hussein. The definitive work on the subject of oil and a major contribution to understanding our century, The Prize is a book of extraordinary breadth, riveting excitement -- and great importance.

The food we eat today, high in sugar and easily digestible carbohydrates, is not only making us fat, but is putting us at risk of type 2 diabetes, strokes, dementia, cancer and a lifetime on medication. More than a third of adults in the UK now have raised blood sugar levels and most don't know it. In this timely book, Dr Mosley explains why we pile on dangerous abdominal fat and shows us how to shed it, fast. He demolishes common myths, such as the claim that steady weight loss is always better than rapid weight loss and that those who lose weight rapidly will inevitably put it back on. Slides for Students Gary D. Fisk, 2018-10-16 300 million powerpoint presentations are given daily, yet there is a disconnect between the amazing technology of powerpoint and a mediocre student learning experience. To unleash the full potential of powerpoint presentations, we must do a better job of creating presentations that fit the educational needs of students. Slides for Students does just that. Slides for Students is an open and honest discussion about powerpoint in the classroom. A need exists for thoughtfully designed and implemented classroom instruction that focuses on the learner rather than on the technology. This book was written to translate academic research findings into practical suggestions about powerpoint that educators can use. Divided into two parts, Slides for Students discusses the history of powerpoint, explores academic studies on the topic, and demonstrates how to design slides to best suit educational needs and engage with students to avoid the dreaded death by powerpoint.
