**Volume III: U.S. Navy, U.S. Marine Corps and U.S. Coast Guard Aircraft Lost During World War II – Listed by Aircraft Type** Campbell,Ph. D. Douglas E. Campbell,2011-07 During World War II, the U.S. military lost some 35,000 aircraft to enemy action, training incidents, typhoons, aircraft carrier deck mishaps, mechanical failures or just normal wear-and-tear where aircraft were scrapped and used for parts to keep others flying. Many just failed to return from their missions. To date, the 15,069 aircraft represented in this 3-volume set is information initially transferred from hand-written Aircraft History Cards and are the total number of U.S. Navy, Marine Corps and Coast Guard aircraft lost between 7 December 1941 and 15 August 1945, and lost outside the continental United States (CONUS). Volume III represents the total number of aircraft lost by their 176 different types and variants and represents the entire database to date. Given the thousands of hours that went into this effort, the author hopes that, as a 3-volume set of reference books, it provides assistance to others who are researching ship, squadron and aircraft histories.

Saturday Millionaires Kristi Dosh, 2013-07-31 Last year Football Bowl Subdivision college football programs produced over \$1 billion in net revenue. Record-breaking television contracts were announced. Despite the enormous revenue, college football is in upheaval. Schools are accused of throwing their academic mission aside to fund their football teams. The media and fans are beating the drum for athletes to be paid. And the conferences are being radically revised as schools search for TV money. Saturday Millionaires shows that schools are right to fund their football teams first; that athletes will never be paid like employees; how the media skews the financial facts; and why the TV deals are so important. It follows the money to the heart of college football and shows the real game being played, covering such areas as: Myth #1: All Athletic Departments Are Created Equal Myth #2: Supporting Football Means Degrading Academics Myth #3: College Football Players Could Be Paid Like Employees Myth #4: Football Coaches Are Overpaid Myth #5: A Playoff Will Bring Equality to College Football Myth #6: Only a Handful of Athletic Departments Are Self-Sustaining The business of college football is unlike any other business. Saturday Millionaires takes you behind the scenes and teaches you how to understand the industry from the inside out, touching on such subjects as conference realignment, pay-for-play, conference television networks and where all those millions go at the end of the day.
