**Falling for Hamlet** Michelle Ray,2011-07-05 Passion, romance, drama, humor, and tragedy intertwine in this compulsively readable Hamlet retelling, from the perspective of a strong-willed, modern-day Ophelia. Meet Ophelia, high school senior, daughter of the Danish king's most trusted adviser, and longtime girlfriend of Prince Hamlet of Denmark. She lives a glamorous life and has a royal social circle, and her beautiful face is splashed across magazines and television screens. But it comes with a price--her life is ruled not only by Hamlet's fame and his overbearing royal family but also by the paparazzi who hound them wherever they go. After the sudden and suspicious death of his father, the king, the devastatingly handsome Hamlet spirals dangerously toward madness, and Ophelia finds herself torn, with no one to turn to. All Ophelia wants is to live a normal life. But when you date a prince, you have to play your part. Ophelia rides out this crazy roller coaster life, and lives to tell her story in live television interviews.

The First Farmers of Central Europe Penny Bickle,Alasdair Whittle,2013-07-09 From about 5500 cal BC to soon after 5000 cal BC, the lifeways of the first farmers of central Europe, the LBK culture (Linearbandkeramik), are seen in distinctive practices of longhouse use, settlement forms, landscape choice, subsistence, material culture and mortuary rites. Within the five or more centuries of LBK existence a dynamic sequence of changes can be seen in, for instance, the expansion and increasing density of settlement, progressive regionalisation in pottery decoration, and at the end some signs of stress or even localised crisis. Although showing many features in common across its very broad distribution, however, the LBK phenomenon was not everywhere the same, and there is a complicated mixture of uniformity and diversity. This major study takes a strikingly large regional sample, from northern Hungary westwards along the Danube to Alsace in the upper Rhine valley, and addresses the question of the extent of diversity in the lifeways of developed and late LBK communities, through a wide-ranging study of diet, lifetime mobility, health and physical condition, the presentation of the bodies of the deceased in mortuary ritual. It uses an innovative combination of isotopic (principally carbon, nitrogen and strontium, with some oxygen), osteological and archaeological analysis to address difference and change across the LBK, and to reflect on cultural change in general.
