The First Farmers of Central Europe Penny Bickle,Alasdair Whittle,2013-07-09 From about 5500 cal BC to soon after 5000 cal BC, the lifeways of the first farmers of central Europe, the LBK culture (Linearbandkeramik), are seen in distinctive practices of longhouse use, settlement forms, landscape choice, subsistence, material culture and mortuary rites. Within the five or more centuries of LBK existence a dynamic sequence of changes can be seen in, for instance, the expansion and increasing density of settlement, progressive regionalisation in pottery decoration, and at the end some signs of stress or even localised crisis. Although showing many features in common across its very broad distribution, however, the LBK phenomenon was not everywhere the same, and there is a complicated mixture of uniformity and diversity. This major study takes a strikingly large regional sample, from northern Hungary westwards along the Danube to Alsace in the upper Rhine valley, and addresses the question of the extent of diversity in the lifeways of developed and late LBK communities, through a wide-ranging study of diet, lifetime mobility, health and physical condition, the presentation of the bodies of the deceased in mortuary ritual. It uses an innovative combination of isotopic (principally carbon, nitrogen and strontium, with some oxygen), osteological and archaeological analysis to address difference and change across the LBK, and to reflect on cultural change in general.

Repertorium Bibliographicum Ludwig Hain,Giovanni B. Lamperti,2010-11 2010 Reprint of 1931 Edition. Giovanni Battista Lamperti (1839 -1910) was an Italian singing teacher and son of the singing teacher Francesco Lamperti. He is source for Vocal Wisdom: Maxims of Giovanni Battista Lamperti (1931). His preferred teaching arrangement was having three or four students present at each lesson: each would get their turn while the others observed and learned thereby. He was said to be a strict, exacting instructor not given to flattery, but who enthusiastically praised his students upon exceptional achievement. Many of Giovanni's students became international opera stars including Irene Abendroth, Marcella Sembrich, Ernestine Schumann-Heink, Paul Bulss, Roberto Stagno, David Bispham and Franz Nachbaur. The Technics of Bel Canto is the only book (other than the maxims recalled and published posthumously by his pupil William E. Brown) that Giovanni ever wrote on his method.
