(From planning to playback, this book covers it all! With focused attention on the workflow and integration between the components of Production Premium, readers will learn to take their project from concept all the way through the production and post-production pipelines using the all the tools necessary. 2 Chapters cover planning and organizing projects, editing in Premiere Pro, creating motion graphics and visual effects using After Effects, working with audio, color correcting in SpeedGrade (a new product in the suite), finishing and rendering compositions, and authoring for DVDs, Blu-ray Discs, and the Web. Readers will also discover how easy it is to use Adobe Media Encoder and Dynamic Link across the

suite for easy-to-manage workflow processes as well. ¿ The companion DVD includes lesson files so readers can work step-by-step along with the book. ¿ “The Classroom in a Book series is by far the best training material on the market. Everything you need to master the software is included: clear explanations of each lesson, step-by-step instructions, and the project files for the students.” –Barbara Binder, Adobe Certified Instructor, Rocky Mountain Training Classroom in a Book®, the best-selling series of hands-on software training workbooks, helps you learn the features of Adobe software quickly and easily. Classroom in a Book offers what no other book or training program does—an official training series from Adobe Systems Incorporated, developed with the support of Adobe product experts. ¿ All of Peachpit's eBooks contain the same content as the print edition. You will find a link in the last few pages of your eBook that directs you to the media files. Helpful tips: If you are able to search the book, search for Where are the lesson files? Go to the very last page of the book and scroll backwards. You will need a web-enabled device or computer in order to access the media files that accompany this ebook. Entering the URL supplied into a computer with web access will allow you to get to the files. Depending on your device, it is possible that your display settings will cut off part of the URL. To make sure this is not the case, try reducing your font size and turning your device to a landscape view. This should cause the full URL to appear.

The Education of a Modern Poker Player John Billingham, Thomas Tiroch, Emanuel Cinca, How hard are you prepared to work to improve your No Limit Hold'em? The Education of a Modern Poker Player documents the efforts of a serious amateur as he pursues his ambition of rising through the stakes from NL10 (\$10 game) to NL100 (\$100 game) and beyond. John Billingham is an English maths professor, and a keen player of games. In the summer of 2009 he discovered online poker and was

hooked. A year later he decided to trick a couple of impressionable young poker pros, Austrian Thomas Tiroch (TwiceT) and Romanian Emanuel Cinca (EmanuelC16), into teaching him how to play poker on the promise of writing a book with them. Little did he know what he was letting himself in for. The Education of a Modern Poker Player is the product of JB's cunning plan, and documents his progress from being unable to beat NL10 to establishing himself on NL100. Over the course of this entertaining book, TT and Manu explain how to beat these small stakes games, aided and abetted by JB, and illustrate all the important concepts with real example hands. There is a particular focus on Fast Fold Games, such as Rush and Zoom, in which JB eventually became a specialist, and practical explanations of how to take advantage of weak players in this format. The Education of a Modern Poker Player includes: An extensive set of real example hands Practical advice on strategies to beat 6max No Limit Hold'em A basic strategy for Fixed Limit Five Card Draw Clear explanations of the Mathematics of No Limit Hold'em Specialist advice on Fast Fold Games (e.g. Rush and Zoom)

The Language of New Media Design Radan Martinec, Theo van Leeuwen, 2020-10-28 The Language of New Media Design is an innovative new textbook presenting methods on the design and analysis of a variety of non-linear texts, from websites to CD-Roms. Integrating theory and practice, the book explores a range of models for analyzing and constructing multimedia products. For each model the authors outline the theoretical background and demonstrate usage from students' coursework, commonly available websites and other multimedia

products. Assuming no prior knowledge, the book adopts an accessible approach to the subject which has been trialled and tested on MA students at the London College of Communication. Written by experienced authors, this textbook will be an invaluable resource for students and teachers of new media design, information technology, linguistics and semiotics.

Zoom Bob Berman,2014-06-24 From the speed of light to moving mountains--and everything in between--ZOOM explores how the universe and its objects move. If you sit as still as you can in a quiet room, you might be able to convince yourself that nothing is moving. But air currents are still wafting around you. Blood rushes through your veins. The atoms in your chair jiggle furiously. In fact, the planet you are sitting on is whizzing through space thirty-five times faster than the speed of sound. Natural motion dominates our lives and the intricate mechanics of the world around us. In ZOOM, Bob Berman explores how motion shapes every aspect of the universe, literally from the ground up. With an entertaining style and a gift for distilling the wondrous, Berman spans astronomy, geology, biology, meteorology, and the history of science, uncovering how clouds stay

aloft, how the Earth's rotation curves a home run's flight, and why a mosquito's familiar whine resembles a telephone's dial tone. For readers who love to get smarter without realizing it, ZOOM bursts with science writing at its best.

Teaching and Learning History Online Stephen K. Stein, Maureen MacLeod, 2023-04-17 Teaching and Learning History Online: A Guide for College Instructors offers everything a new online history instructor needs in one package, including how to structure courses, integrate multimedia, and manage and grade discussions, as well as advice for department chairs on curriculum management, student advising, and more. In today's technological society, online courses are quickly becoming the new normal in terms of collegiate instruction, providing the ideal environment to flip the classroom and encourage students to hone critical thinking skills by engaging deeply with historical sources. While much of the attention in online teaching focuses on STEM, business, and education courses, online history courses have also proven consistently popular. However, due to the COVID-19 pandemic, new history instructors are rushed into online teaching with little or no training or experience, creating a need for a guide to ease the transition from classroom to online course development and teaching. A timely text, this book aims to provide both new and experienced college history teachers the information they need to develop dynamic online

courses.
