#### Dietary assessment Food and Agriculture Organization of the United Nations, 2018-06-11

FAO provides countries with technical support to conduct nutrition assessments, in particular to build the evidence base required for countries to achieve commitments made at the Second International Conference on Nutrition (ICN2) and under the 2016-2025 UN Decade of Action on Nutrition. Such concrete evidence can only derive from precise and valid measures of what people eat and drink. There is a wide range of dietary assessment methods available to measure food and nutrient intakes (expressed as energy insufficiency, diet quality and food patterns etc.) in diet and nutrition surveys, in impact surveys, and in monitoring and evaluation. Different indicators can be selected according to a study's objectives, sample population, costs and required precision. In low capacity settings, a number of other issues should be considered (e.g. availability of food composition tables, cultural and community specific issues, such as intra-household distribution of foods and eating from shared plates, etc.). This manual aims to signpost for the users the best way to measure food and nutrient intakes and to enhance their understanding of the key features, strengths and limitations of various methods. It also

highlights a number of common methodological considerations involved in the selection process. Target audience comprises of individuals (policy-makers, programme managers, educators, health professionals including dietitians and nutritionists, field workers and researchers) involved in national surveys, programme planning and monitoring and evaluation in low capacity settings, as well as those in charge of knowledge brokering for policy-making.

**Born a Crime** Trevor Noah, 2016-11-15 #1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A “brilliant” (Lupita Nyong’o, Time), “poignant” (Entertainment Weekly), “soul-nourishing” (USA Today) memoir about coming of age during the twilight of apartheid “Noah’s childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa’s history that must never be forgotten.”—Esquire Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Time, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah’s unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents’ indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa’s tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man’s relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave

together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.

*Musician's Survival Guide to a Killer Record* Mixerman, 2018-10-10 Musician's Record It takes many years to excel at recording (whether at home or in a commercial facility), and if you desire to become a professional recordist then that's what's required. But if you're a musician who wants to garner a reaction to your song, then you don't have time for that. You need to make a Killer Record right now. But how? First, stop thinking like a recordist. If you're a musician, and you record, this book will prove an invaluable resource (I encourage you to read the reviews. People love this book). I explain all the things that I've learned as a high-level professional recordist, mixer, and producer over the course of decades, but as they relate to you as a musician, your songs, and the long view of your recording career. The Goal The stated goal of this book is to convert recording decisions into musical ones, and technical decisions into practical ones. Not only do I explain the musical strategies for making a Killer Record, I also break the technical information down to its core so that you can strategize based on your recording reality. So long as you have what you need to make a record, I can help you make it a Killer Record. This is the only additional gear you'll require to greatly improve the quality of your records. Who am I? I'm Mixerman, a gold and multi-platinum award winning producer, mixer, and recordist. I was in precisely your position at the early stages of my career. I was a musician, frustrated that I could write a good song, only to feel the record itself fell short of it's potential. Over the course of my decades recording, I noticed that the performance and arrangement had a far greater impact on the sound than anything I did on the engineering side. The more musical my decisions, the better my results. What You Can Expect This Studio Field Manual is chock full of recording, mixing, and producing strategies designed to keep recording a fun and focused process. You will return to this manual time and time again to help you overcome any impediment--technical or musical--that might prevent you from achieving the results you seek, regardless of your recording environment, regardless of what equipment you're using, and regardless of your current skillset. You can make a Killer Record under nearly any circumstance. It just requires the right mindset.

**Check the Technique** Brian Coleman, 2009-03-12 A Tribe Called Quest • Beastie Boys • De La Soul • Eric B. & Rakim • The Fugees • KRS-One • Pete Rock & CL Smooth • Public Enemy • The Roots • Run-DMC • Wu-Tang Clan • and twenty-five more hip-hop immortals It's a sad fact: hip-hop album liners have always been reduced to a list of producer and sample credits, a publicity photo or two, and some hastily composed shout-outs. That's a damn shame, because few outside the game know about the true creative forces behind influential masterpieces like PE's It Takes a Nation of Millions. . . , De La's 3 Feet High and

Rising, and Wu-Tang's Enter the Wu-Tang (36 Chambers). A longtime scribe for the hip-hop nation, Brian Coleman fills this void, and delivers a thrilling, knockout oral history of the albums that define this dynamic and iconoclastic art form. The format: One chapter, one artist, one album, blow-by-blow and track-by-track, delivered straight from the original sources. Performers, producers, DJs, and b-boys—including Big Daddy Kane, Muggs and B-Real, Biz Markie, RZA, Ice-T, and Wyclef—step to the mic to talk about the influences, environment, equipment, samples, beats, beefs, and surprises that went into making each classic record. Studio craft and street smarts, sonic inspiration and skate ramps, triumph, tragedy, and take-out food—all played their part in creating these essential albums of the hip-hop canon. Insightful, raucous, and addictive, *Check the Technique* transports you back to hip-hop's golden age with the greatest artists of the '80s and '90s. This is the book that belongs on the stacks next to your wax. "Brian Coleman's writing is a lot like the albums he covers: direct, uproarious, and more than six-fifths genius." —Jeff Chang, author of *Can't Stop Won't Stop* "All producers and hip-hop fans must read this book. It really shows how these albums were made and touches the music fiend in everyone." —DJ Evil Dee of Black Moon and Da Beatminerz "A rarity in mainstream publishing: a truly essential rap history." —Ronin Ro, author of *Have Gun Will Travel*
