Longitudinal Integrated Clerkships Alliance for Clinical Education,2016-10-06 Dr. Poncelet and Dr. Hirsh eagerly developed an encyclopedic chapter for the 4th edition of the Guidebook for Clerkship Directors, and it seemed logical and proper to grow that chapter, which had been truncated for the Guidebook, into this book. They have assembled the leading international experts in the field of the medical school longitudinal integrated curriculum, who in turn have generated what we are sure will be considered the ultimate resource for these experiences. This book fills a significant void in the medical education literature.

Drag Me Out Like a Lady Jentri Anders,2022-12-18 She was arrested in the Berkeley Free Speech Movement. She was at the Be-In when Timothy Leary told us to drop out. She was in the battle of People's Park when James Rector was killed. She was tear-gassed on campus at UC Berkeley. She was at Altamont when a Hell's Angel murdered a concertgoer. Now she has written her autobiography, describing her unusual trajectory through an unusual era. In the spirit of Howard Zinn, Jentri Anders presents her life as an activist and anthropologist. A Southerner with deep roots in Georgia and Arkansas, she went to high school in Groveland, Florida, one of the most notorious locations in black history. Expelled from both a Georgia Bible college and Florida State University for political reasons, she moved to California, participated in the antiwar movement there, then was sexually and politically harrassed out of UC Berkeley. She dropped out of mainstream culture to become a back-to-the-land hippie in what is now called the Emerald Triangle in Humboldt County, California, then dropped back in, wrote the definitive ethnography of back-to-the-land hippies, and was featured in the Academy Award-nominated documentary film, Berkeley in the Sixties. A fascinating writer, Anders is also a scholar. Drag Me Out Like a Lady is thoroughly researched, indexed, referenced, and documented, including historical material from her personal files. Cultural historians, anthropologists, activists, feminists, literate hippies, as well as people who just like weird stories, will all love this book

Handbook on Medical Student Evaluation and Assessment Alliance for Clinical Education,2015-07-17 The Alliance for Clinical Education (ACE) is proud to announce its newest text, the Handbook on Medical Student Evaluation and Assessment. This comprehensive book derives from some chapters in the indispensable fourth edition of the Guidebook for Clerkship Directors, but expands upon those chapters and contains critical new information about milestones, professionalism, and program evaluation. It is useful not only for clerkship directors, but also for preclinical educators, teachers of electives and subinternships, the dean's office, the student affairs office, residency and fellowship program directors, and anyone who teaches, advises, or mentors medical students. It discusses all aspects of assessing learners, with well-referenced presentations starting from basic definitions, progressing through various assessment methods, and including reviews of the legal aspects of assessments.

Biomedical Ethics and Decision-Making Matthew A. Butkus,2022-02-11 Drawing from clinical experience, philosophy, psychology, and current health law and policy, Biomedical Ethics and Decision-Making is a detailed survey of persistent issues in health care ethics, emphasizing the complexities and nuances of practical decision-making and yielding a multifaceted and systematic approach to solving problems. As a useful resource for both students and clinicians, it includes references for further exploration of ethical issues as well as provocative questions for discussion in classroom and clinical settings. As a textbook, it stands alongside such standard works as Beauchamp's and Childress's Principles of Biomedical Ethics; DeGrazia's, Mappes's, and Ballard's Biomedical Ethics; Munson's Intervention and Reflection; and Vaughn's Bioethics. Besides presenting current dilemmas in health care, it reviews elements of cognitive psychology, describes common errors in critical thinking, offers techniques for evaluating and integrating evidence into ethical reasoning, assesses professionals and professionalism, invites readers to dissect philosophical analyses to bolster their critical thinking skills, and provides opportunities to engage in self-reflection on contemporary challenges in health care policy and delivery.

Yoga for Fools Eric v.d. Luft,2015-10-23 A ridiculous parody of yoga instruction books! What appears on the even-numbered, left-side pages is genuine information about yoga; but what appears on the odd-numbered, right-side pages is parody. Please don't mix them up! Neither the author, the publisher, nor even Lord Krishna himself, will assume any responsibility for any consequences if you do.

Poetic Imagination and Insanity Wilhelm Dilthey,2023-12-14 In 1886, in a speech to a group of military physicians, the prominent German philosopher Wilhelm Dilthey (1833-1911) rejected the traditional connection between artistic genius and inspired insanity. Here is an English translation of this speech, together with an extensive commentary, by Eric v.d. Luft.

Maybe It's Too Early Eric v.d. Luft,2022-10-16 Of the 64 poems in my first book of poetry, eleven had been previously published. In response to my impatience to go to press with this second book before achieving at least that level of validation, my wife counselled, Maybe it's too early.
