The West Yorkshire Regiment in the War 1914-1918 Vol 1
Everard Wyrall,2013-02-25 Another weighty regimental history, two
volumes, 820 pages in all covering the record of twenty-two battalions
in France, Flanders, Italy and Gallipoli (all of them served on the
Western Front). When war broke out the regiment consisted of two
Regular battalions (1st and 2nd), two Special Reserve (3rd and 4th)
and four Territorial battalions (5th to 8th); the 1st Battalion went to
France with 6th Division in September 1914, the 2nd Battalion came
home from Malta to join the newly formed 8th Division (Regular) and
went to France in November 1914. Both battalions remained in the
same brigades (18th and 23rd) and divisions throughout the war. The
four Territorial battalions each formed a 2nd and a 3rd line battalion;
the four original battalions made up the 146th Brigade, 49th (West
Riding) Division, arriving in France in April 1915, the second line
battalions combined to make the 185th Brigade, 62nd (2nd West
Riding) Division which arrived in France in January 1917.
Kitchener's call to arms resulted in eleven Service battalions being
raised, 9th to 18th (the 17th was formed as a Bantam battalion) and
21st; of these only 13th and 14th did not go on active service. The 21st
Battalion became a Pioneer battalion in 4th Division and the 22nd was
a Labour battalion which also went to France. This history records
events in chronological order, the dates of the operations being

described are shown in the margin as are the identities of the battalions involved. Volume 1 (x + 355pp with 18 maps and 15 b/w photos) covers the period from the outbreak of war to the end of 1916, the close of the Somme offensive and includes the Dardanelles campaign where the 9th Battalion was in action with the 11th (Northern) Division. On 1st July 1916, the first day of the Somme, the 10th Battalion attacked at Fricourt and incurred the heaviest casualties of any battalion - 710, of whom 307 were killed including the CO, 2IC, adjutant and two company commanders. More than half of them are in in Fricourt New Military Cemetery which is in the No Man's Land across which they attacked and where they died. The CO (Lt Col Dickson) and his adjutant (Capt Shann) lie side by side. There is a Roll of Honour for the period covered in which the other ranks are listed alphabetically by battalions as are the Territorial battalion officers; the other officers are shown in one group in alphabetical order with the battalion number in front of the name. Although the note at the head of the officer casualty list states that the theatre in which death occurred is France and Flanders unless otherwise indicated, nonetheless 'Gallipoli' is not shown against the names of the officers of the 9th Battalion who died there, and so one is left with the wrong impression they died on the Western front.

Experiments in Personality: Volume 1 (Psychology Revivals) H.J. Eysenck, 2013-10-01 Originally published in 1960, the two volumes of Experiments in Personality report a number of experiments in psychogenetics, psychopharmacology, psychodiagnostics, psychometrics and psychodynamics, all of which formed part of the programme of research which had been developing from the late 1940s at the Maudsley Hospital. Presenting the studies together in a book, rather than the more usual route of journal articles, was itself

felt to be an experiment at the time, especially given the wide area covered. The decision was deliberate because all the studies reported formed part of a larger whole, which would have been lost if published separately. Volume I looks at psychogenetics and psychopharmacology.

Surveys on Surgery Theory (AM-145), Volume 1 Sylvain Cappell,Andrew Ranicki,Jonathan Rosenberg,2014-09-08 Surgery theory, the basis for the classification theory of manifolds, is now about forty years old. There have been some extraordinary accomplishments in that time, which have led to enormously varied interactions with algebra, analysis, and geometry. Workers in many of these areas have often lamented the lack of a single source that surveys surgery theory and its applications. Indeed, no one person could write such a survey. The sixtieth birthday of C. T. C. Wall, one of the leaders of the founding generation of surgery theory, provided an opportunity to rectify the situation and produce a comprehensive book on the subject. Experts have written state-of-the-art reports that will be of broad

interest to all those interested in topology, not only graduate students and mathematicians, but mathematical physicists as well. Contributors include J. Milnor, S. Novikov, W. Browder, T. Lance, E. Brown, M. Kreck, J. Klein, M. Davis, J. Davis, I. Hambleton, L. Taylor, C. Stark, E. Pedersen, W. Mio, J. Levine, K. Orr, J. Roe, J. Milgram, and C. Thomas.

Reports of United States Tax Court, V. 141, July 1, 2013, to December 31, 2013 Government Publications Office, 2015-02-15 Volume of the United States Tax Court Reports containing case abstracts and opinions of the court regarding cases between July 1, 2013 December 31, 2013. Cases in each volume are listed in the prefatory table. The United States Tax Court is a federal trial court of

record established by Congress under Article I of the U.S. Constitution, section 8 providing (in part) that Congress has the power to constitute Tribunals inferior to the Supreme Court. “The Tax Court specializes in adjudicating disputes over federal income tax, generally prior to the time at which formal tax assessments are made by the Internal Revenue Service. Though taxpayers may choose to litigate tax matters in a variety of legal settings, outside of bankruptcy, the Tax Court is the only forum in which taxpayers may do so without having first paid the disputed tax in full. Parties who contest the imposition of a tax may also bring an action in any United States District Court, or in the United States Court of Federal Claims; however these venues require that the tax be paid first, and that the party then file a lawsuit to recover the contested amount paid (the full payment rule).” Contents 8 Findings of Fact 8 Background 8 John Hancock’s History9 Investment Process and Review10 Leasing10 LILO and SILO Transactions 10 Basic Structure 15 History 17 Due Diligence 18 The Hoosier Transaction 19 The LILO Test Transactions 20 OBB LILO20 Lease and Sublease23 End of Sublease Term25 SNCB 2 and SNCB 5 Lot 1 LILO Transactions25 Lease and Sublease28 End of Sublease Term 28 The SILO Test Transactions 29 TIWAG29 Lease and Sublease33 End of Sublease Term35 Two Dortmund Transactions35 Lease and Sublease38 End of Sublease39 SNCB SILO39 Grant and Subgrant42 End of Subgrant Term 43 Tax Returns, Notices of Deficiency, and Trial 43 Procedural History48 Trial 53 Opinion 53 Burden of Proof53 Principal Place of Business54 Leveraged Lease Transactions54 Frank Lyon58 LILO and SILO Litigation 77 The Test Transactions 78 Economic Substance79 Objective Inquiry88 Subjective Inquiry89 Substance Over Form91 OBB and SNCB LILO Transactions110 SILO Test Transactions 145 Interest Deductions 147
