This book sheds new light on how the Olympic experience has been shaped by television and expanded across multiple platforms and formats. Combining a multitude of approaches ranging from interviews to content analyses to audience surveys, the book explores the production, influence, and significance of Olympic media in contemporary society. Built on a central case study of NBC's coverage of the Rio Games in 2016, which is then placed within 20 years of content analyses, the book focuses on the entire Olympic television process from production to content to effects. Touching on key themes such as race, gender, history, consumerism, identity, nationalism, and storytelling, *Olympic Television: Broadcasting the Biggest Show on Earth* is fascinating reading for any student or scholar with an interest in sport, media, and the global impact of mega-events.

The notes following the quotes give a potted history of the Games and its cast of characters. 'These are the Olympics; you die before you quit.'
