M.M Sury,Vibha Mathur

*Five Year Plans of India* M. M. Sury, Vibha Mathur, 2013-07-31 Economic planning is concerned with the effective and optimal utilisation of the potential resources of an economy. This is particularly so in the context of underdeveloped countries which are striving to raise the standard of living of the masses. In fact, planning is a process aiming not merely at the best utilisation of material resources but also at the development of human faculties and institutional framework suitable to the needs and aspirations of the people. The establishment of Planning Commission in 1950 heralded a new era in the economic history of India. It makes an assessment of the material, capital and human resources of the country, including technical personnel, and investigates the possibilities of augmenting such of these resources as are found to be deficient in relation to the requirements of the country. It, then, formulates a Plan for the most effective and balanced utilisation of these resources. Indias First Five Year Plan was launched on 1 April 1951. Since then, eleven Five Year Plans have been completed and the Twelfth Five Year Plan (2012-13 to 2016-17) is underway. This book provides a comprehensive account of various aspects of economic planning in India. It traces the structural changes which have transformed India from a traditional agricultural economy to a technologically strong, industrially diversified and militarily powerful country. Part I of the book contains two chapters: Chapter 1 explains the determinants and constraints of economic development. Chapter 2 describes the principles of economic planning. Part II comprises of five chapters: Chapter 3 deals with human and natural resources of India. Chapter 4 discusses the problems and issues in Indias development efforts. Chapter 5 explains the institutional framework for economic planning in India. Chapter 6 records achievements of Five Year Plans. Chapter 7 highlights the areas of concern and makes an overall assessment of the planning experience. Part III contains two chapters: Chapter 8 provides sector-wise account of economic reforms in India (1991 to 2013). Chapter 9 discusses future prospects and challenges before the Indian Economy. Parts IV to XV provide sector-wise summary of and sector-wise edited extracts from each of the Five Year Plans (I to XII) under the following 12 common theme headings: 1. Agriculture and Rural Development. 2. Industrial Policy and Public Sector. 3. Mineral Resources. 4. Electricity and Other Renewable Energy Sources. 5. Urban Development and Housing. 6. Transport and Communications. 7. Employment and Labour Welfare. 8. Health, Family Planning and Nutrition. 9. Education, Training and Skill Development. 10. Science and Technology. 11. Social Welfare. 12. Balanced Regional Development. The 12 theme headings cover almost all the sectors of the Indian economy. Reader will find it easy to comprehend how a particular sector of the Indian

economy was treated in terms of priority, strategy, and allocation of resources in the successive Plans. Part XVI contains sector-wise time-series data on the Indian economy from 1950-51 to 2011-12. The book would be useful for a cross-section of academic community and researchers, both in India and abroad. It will also serve the needs of legislators, business executives, entrepreneurs and investors, and others interested in the developments in the Indian economy.

**India's Five Year Plans**, 2003 For the benefit of the readers & researchers, Academic Foundation has brought out this publication bringing at one source all the ten documents of Five Year Plans (Planning Commission, Govt. of India). While Volume I of the Tenth Five Year Plan, covering: Perspective, Objectives and Strategies, Macro-economic Dimensions, Employment Perspective, Governance and Implementation, Disaster Management, Policy Imperatives and Programmatic Initiatives - is included in this book, the complete Tenth Plan document (in 3 volumes) along with the other nine documents of the earlier Five Year Plans (around 10,000 pages) are given in the accompanying CD-Rom, in order to make the publication handy. Needless to say, the user-friendly CD-Rom offers inbuilt search facility, easy print-out option, along with other usual advantages associated with the digital media.

*India's Five Year Plans* M. M. Sury, Vibha Mathur, Niti Bhasin, 2008 ABOUT THE BOOK Part I of this work explains the processes and procedures of economic planning in India, focusing on institutional framework, mechanism of transferring resources from the Centre to the States for plan purposes, objectives of planning and an assessment of achievements. Parts II to XIII of the book contain edited extracts from Final Plan Documents from First Five Year Plan (1951-52 to 1955-56) to Eleventh Five Year Plan (2007-08 to 2011-12). These have been categorised into the following 12 theme headings: ? Agriculture, Land Reforms, Co-operatives and Allied Sectors ? Industry, Infrastructure, Public Sector and Small Industries ? Development and Management of Extractive Industries (Mineral Resources) ? Electricity, Coal, Petroleum and other Energy Sources ? Urban Development and Housing ? Transport and Communications ? Employment and Labour Welfare ? Health and Family Welfare ? Education and Training ? Science and Technology ? Social Welfare ? Development of North Eastern States, Hill Areas, Tribal Areas and Other Measures for Balanced Regional Development Editorial comments are given at the beginning of each theme heading. Reader will find it easy to comprehend how a particular sector of the Indian economy was treated in terms of priority, strategy, and allocation of resources in the successive Plans. The 12 theme headings cover almost all the sectors of the

Indian economy. Part XIV contains sector-wise statistical data on the Indian economy (1950-51 to 2006-07) which would be useful for a cross-section of academic community and researchers, both in India and abroad. This work, it is hoped, would prove useful for the students of economics, commerce, public administration and business management. An understanding of the mechanics of economic planning will also serve the needs of legislators, administrators and those in industry and trade.
