Kalam,2007 Inspiring Quotations by Indian President Dr. APJ Abdul Kalam

Turning Points A.P.J. Abdul Kalam,2017-08-16 It was like any other day on the Anna University campus in Chennai. As I was returning to my room in the evening, the vice-chancellor, Prof. A. Kalanidhi, fell in step with me. Someone had been frantically trying to get in touch with me through the day, he said. Indeed, the phone was ringing when I entered the room. When I answered, a voice at the other end said, 'The prime minister wants to talk with you.' Some months earlier, I had left my post as Principal Scientific Adviser to the Government of India to return to teaching. Now, as I spoke to the PM, Atal Bihari Vajpayee, my life was set for an unexpected change. *Turning Points* takes up the incredible Kalam story from where *Wings of Fire* left off. It brings together details from his career and presidency that are not generally known as he speaks out for the first time on certain points of controversy. It is a continuing saga, above all, of a journey - individual and collective - that will take India to 2020 and beyond as a developed nation.

You Are Born to Blossom A.P.J. Abdul Kalam/ Arun Tiwari,2010-01-01 This book is an account of how Dr. Kalam visualizes information and Communication technology mining the rural talent. Here, Dr. Kalam presents his dream of schools in India at 2020 as symbiotic nerve centres connecting teachers, students and community; personifying knowledge that exists in the world. He also makes a clarion call to accelerate the process of societal transformation. This would involve

raising the standards of governance and safeguarding the sanctity of public institutions. The book uses the metaphor of a tree to describe the process of knowledge bearing fruits of prosperity in the contemporary globalised world where different phases, formative, adult working life, and post-50 experienced senior citizens, call for different kinds of learning. The book refers to a contextual contribution of a large number of Indian scientists and artists and proves that there is no age bar to blossom. He advocates creation of conditions that favour growth of diverse individual talents akin to a garden and calls for a scientific mind-set guided by conscience, consensus and by actions that take our social and moral values into account in building our own systems. The book extensively draws from the world literature making an essential inspirational reading.

Dr. A.P.J. Abdul Kalam: Biography Of A Saintly Scientist A.K. Gandhi, 2021-01-01 Dr. Kalam was born and brought up in a multi-religious, multi-ethnic community, and this type of milieu had a profound effect on his personality. He gave equal respect to all faiths and religions; and he did not pay only lip-service to different religions. During his life, he visited the saints and seers of all faiths, discussed with them and learnt from them. He learnt what divinity and spirituality actually meant, and brought out a blended form. For him, religion is a connecting thread. He was quite at ease when he quoted from the Gita or the Hadith, or for that matter, from the holy texts of other faiths. In this book, we have made a solemn endeavour to read his mind, how he thought at every turn of his life; and this will help the readers to understand the intricacies of his thinking and how he was guided for a mission in his life. To understand him well, we have also narrated a number of incidents, accidents and events of his life, that would contribute to holistic understanding about him. He took up the challenges and worked on them wholeheartedly; whenever he failed, he overcame his negativity and came out a stronger man than ever. This is the beauty of his character, and this makes him one of

the most popular public figures of all times. May his soul rest in peace! –K. Senthil Kumar, IAS
