Access to History: Crisis in the Middle East: Israel and the Arab States

1945-2007 Michael Scott-Baumann, 2009-04-24 This book is a brand new title in the Access to History series which explores and analyses the history of conflict in the Middle East from British rule in the early twentieth century to the Iraq war in the twenty-first century. The Arab-Israeli conflict is the main focus of this book but it also examines: Arab nationalism, especially in Egypt and Syria; the Islamic revolution in Iran in 1979; the causes and consequences of three wars involving Iraq; the growth of political Islam and Islamic fundamentalism in the Middle East. Throughout the book, key dates, terms and issues are highlighted, and historical interpretations of key debates are outlined. Summary diagrams are included to consolidate knowledge and understanding of the period, and exam-style questions and tips written by examiners provide the opportunity to develop exam skills.

Financial Access and Stability The World Bank, 2011-09-21 The countries of the Middle East and North Africa (MENA) have been recovering from the global financial crisis, but the recent political turmoil has interrupted the pace of credit and output recovery in many countries. The political turmoil in the MENA region reveals deep-seated frustrations and a sense of political, social, and economic exclusion, especially among the youth. The relatively weak growth performance reflects a combination of insufficient reforms and weak reform implementation, including financial sector reforms. The structural weaknesses of financial sectors imply that access to finance may remain restricted even with a full recovery of credit activity. Therefore, the region's countries face an ambitious reform agenda to revert two decades of relatively poor performance of output and employment growth. Financial development should be a central component of the region's growth agenda. This study reviews the region's financial systems, the severity of the limitations on access to finance, and the main factors behind such limitations. It goes on to provide a road map for expanding access and preserving financial stability.

The Post-American Middle East Laurent A. Lambert, Moosa Elayah, 2023-06-17 After two decades of War on Terror, it is particularly important, for both academic and policy purposes, to clearly understand why the US formidable mobilization of means and might has transformed into a such a blatant geostrategic defeat of the US and its allies in the broad Middle East. This is all the more paradoxical that the WOT achieved a series of tactical victories – such as the toppling of hostile regimes in Afghanistan, Iraq and Libya; the crippling of the national economies of enemy states by sanctions; the successful targeted killing of lead terrorist Usama Bin Laden, ISIS cult leaders Abu Bakr Al-Baghdadi and his successor, etc. So, why have these tactical victories not led to what was supposed to become, according to the US government, a 'Greater Middle East'? With most authors being from or living in the Middle East, this book is unique as it brings perspectives and answers from the region. This is crucially important as we are entering, we argue, the era of a Post-American Middle East. Chapters 1 and 10 are available open access under a Creative

Gelvanovska, Michel Rogy, Carlo Maria Rossotto, 2014-02-11 The existing telecommunications infrastructure in the Middle East and North Africa MENA suffers from various regulatory and market bottlenecks that are hampering the growth of the Internet in most countries and related access to information and to potential new job sources.

Society, Law, and Culture in the Middle East Dror Ze'evi, Ehud R.

Toledano, 2015-10-29 Society, Law, and Culture in the Middle East: "Modernities" in the Making is an edited volume that seeks to deepen and broaden our understanding of various forms of change in Middle Eastern and North African societies during the Ottoman period. It offers an in-depth analysis of reforms and gradual change in the *longue durée*, challenging the current discourse on the relationship between society, culture, and law. The focus of the discussion shifts from an external to an internal perspective, as agency transitions from "the West" to local actors in the region. Highlighting the ongoing interaction between internal processes and external stimuli, and using primary sources in Arabic and Ottoman Turkish, the authors and editors bring out the variety of modernities that shaped south-eastern Mediterranean history. The first part of the volume interrogates the urban elite household, the main social, political, and economic unit of networking in Ottoman societies. The second part addresses the complex relationship between law and culture, looking at how the legal system, conceptually and practically, undergirded the socio-cultural aspects of life in the Middle East. Society, Law, and Culture in the Middle East consists of eleven chapters, written by well-established and younger scholars working in the field of Middle East and Islamic Studies. The editors, Dror Ze'evi and Ehud R. Toledano, are both leading historians, who have published extensively on Middle Eastern societies in the Ottoman and post-Ottoman periods.

Rebuilding Syria Eugenio Dacrema, Valeria Talbot, 2019-09-21 Over the last eight

years the Syrian conflict has developed into one of the worst humanitarian tragedies of modern times. More than half a million victims, 5 million refugees abroad and 6 million internally displaced: the figures only capture part of Syria's catastrophe. In addition, there is the less quantifiable damage to the country's social fabric. Against this dramatic

backdrop, this ISPI Report aims to answer a few crucial questions: how can a country whose society has gone through such traumas and destruction reimagine itself and its future? What conditions would allow those Syrians who were forced to leave their homes to return? And what are the regional and international dynamics and interests that will shape Syria's future? The Report provides the reader with key tools to understand where Syria is headed and what can be done to avoid the worst scenarios.

Superpower Intervention in the Middle East (Routledge Revivals) Peter

Mangold, 2013-10-14 Strategically placed on the global chess board, as well as controlling vast oil resources, the Middle East was one of the main theatres of Cold War. In the 1950s the Soviet Union had taken advantage of Arab Nationalists' disillusion with British and French Imperialism, along with the emerging Arab-Israeli conflict, to establish relations with Egypt, Syria and Iraq. The United States responded by moving in to shore up the Western position. Confrontation was inevitable. Superpower Intervention in the Middle East was written in 1978, when this confrontation was at its height. The book's main theme focuses on how the superpowers became competitively involved in local Middle East conflicts over which they could exercise only limited control, and the risks of nuclear confrontation of the kind which occurred at the end of the 1973 Arab-Israeli war. The threat to Western oil supplies is also examined. This is a fascinating work, of great relevance to scholars and students of Middle Eastern history and political diplomacy, as well as those with an interest in the relationship between the Western superpowers and this volatile region.

The international politics of the Middle East Raymond Hinnebusch, 2013-07-19 This electronic version has been made available under a Creative Commons (BY-NC-ND) open access license. This text aims to fill a gap in the field of Middle Eastern political studies by combining international relations theory with concrete case studies. It begins with an overview of the rules and features of the Middle East regional system—the arena in which the local states, including Egypt, Turkey, Iran, Israel and the Arab states of Syria, Jordan and Iraq, operate. The book goes on to analyse foreign-policy-making in key states, illustrating how systemic determinants constrain this policy-making, and how these constraints are dealt with in distinctive ways depending on the particular domestic features of the individual states. Finally, it goes on to look at the outcomes of state policies by examining several major conflicts including the Arab-Israeli conflict and the Gulf War, and the system of regional alignment. The study assesses the impact of international penetration in the region, including the historic reasons behind the formation of the regional state system. It also analyses the continued role of external great powers, such as the United States and the former Soviet Union, and explains the process by which the region has become incorporated into the global capitalist market.

Women's Rights in the Middle East and North Africa Freedom House, 2005-07-21

Freedom House has launched a new, comprehensive study titled Women's Rights in the Middle East and North Africa: Citizenship and Justice. The overarching goal of this survey is to facilitate and support national and international efforts to empower women in the Middle East and North Africa. The study presents a comparative evaluation of women's rights in 17 selected countries and territories through a set of numerical scores, analytical narrative reports, and vital statistics.

Turkish-Iranian Relations in a Changing Middle East F. Stephen Larrabee, Alireza

Nader, 2013-08-26 Turkey and Iran tend to be rivals rather than close partners, despite sharing certain economic and security interests. For instance, Turkey supports the opposition in Syria, while Iran supports the regime. Turkey is further concerned about a possible nuclear arms race in the Middle East. U.S. and Turkish interests in the region closely overlap, but the United States should not expect Turkey to follow its policy toward Iran unconditionally.

From Privilege to Competition World Bank, 2009-11-04 'From Privilege to Competition: Unlocking Private-Led Growth in the Middle East and North Africa' sheds new light on the difficult quest for stronger and more diversified growth in a region of unquestionable potential. It underlines the need to strengthen reforms in many areas specifically, by reducing policy uncertainty and improving credit and real estate markets. It also highlights other important issues that restrain the credibility and impact of reforms in many parts of the region: conflicts of interest between politicians and businesses, an investment climate that favors a few privileged firms, and a dominant private sector that often opposes reforms. The book recommends that countries in the Middle East and North Africa (MENA) engage in more credible reform agendas by improving the implementation of policies in a manner that will reduce discretion and privileges. This renewed commitment to stronger growth would entail several developments. First, governments will need to reduce opportunities for rent-seeking and foster competition. Second, they will need to work to reform institutions: private sector development policies will need to be systematically anchored in elements of institutional and public sector reforms in order to reduce discretion and opacity and improve the quality of services to firms. Third, they will need to mobilize all stakeholders, including larger representations from the private sector, around dedicated long-term growth strategies. Short of such a fundamental shift in the way private sector policies are formulated and implemented, investor expectations that governments are committed to reform will be limited. It will take political will and time to support sustained reforms that credibly convince investors and the public that changes are real, deep, and set to last. MENA countries are endowed with strong human capital, good infrastructure, immense resources, and a great deal of untapped creativity and entrepreneurship. The economic and social payoff of embarking on a more ambitious private-led growth agenda could thus be immense for all.

Mobile Disruptions in the Middle East John V Pavlik, Everette E Dennis, Rachel Davis Mersey, Justin Gengler, 2018-05-08 *Mobile Disruptions in the Middle East* identifies trends in mobile media use in Qatar and the United Arab Emirates and, more broadly, explores their impact on the nature of digital journalism. Mobility has long been an important aspect of life in the Middle East; therefore a study of this region presents a unique opportunity to examine the role of mobile media and its future directions. Basing its analysis on original research, including multiyear surveys and case studies, the book reveals patterns of audience engagement with mobile media in the Gulf area, with particular emphasis on online journalism. The research also illustrates how and to what extent media organizations are developing and delivering content uniquely designed for mobile media and consumption. Drawing on these findings, the authors look at possible developments in mobile media content strategies, including those for news content, as wearable and other emerging media forms enter the marketplace. *Mobile Disruptions in the Middle East* provides an important insight into a region that is both globally active and mobile-first, yet whose use of digital media is historically under-researched. As a result, the book helps to advance understanding of consumer preference for content types on mobile media, especially in relation to the transformation of journalism.

Routledge Handbook on Women in the Middle East Suad Joseph, Zeina Zaatar, 2022-12-30 The *Routledge Handbook on Women in the Middle East* provides an overview of the key historical, social, economic, political, religious, and cultural issues which have shaped the conditions and status of women in the region. The book is divided

into eleven thematic sections, providing a comprehensive guide to understanding the current and historical contexts of women in the Middle East, each giving ground-breaking insights into various aspects of women's movements: The importance of historical context, including pre-Islamic through post-colonial histories The importance of politics and the state in understanding women in the ME Women's roles in political and social movements The impacts of the formal and informal economies and education on women of the region Women's spaces and the creation of publics and counterpublics The effects of war, displacement, and other forms of gendered violence Women, family, and the state Discourses and practices of religion Women and health practices Bodies and sexualities Women and sites of cultural production A unique overview of cutting-edge research in the key arenas of pre-Islamic to post-colonial histories, this Handbook will affect the way future generations of scholars engage with and add to the vast repository of socio-political studies of the Middle East. It will thus be of interest to researchers in gender studies, women's studies, pre-Islamic and post-colonial studies, feminist studies, and socio-political and socio-economic studies.
