**2Up and Overloaded** Tim Notier,2020-02-20 Maiden Voyage: The Prequel to The Adventure of a Lifetime introduced the characters, 2Up and Overloaded sets them free into the world. Join Tim and his fiancée Marisa as they take a leap of faith and quit their jobs to circumnavigate the globe on their KTM 1190 Adventure motorcycle. You'll feel the wind in your hair as they make their way across the United States, and head south through Mexico and Central America. You'll be holding your breath as you ride along with them behind smog-extruding trucks in Tijuana, shouting at intrusive bears in the backcountry of Colorado, and pondering how to repair a bike that lies exhausted on the side of a deserted road. 2Up and Overloaded is an inspiring, witty, sometimes-harrowing, and always gripping story, in which two people prepare extensively to explore the world on their motorcycle, only to discover that their most powerful resource can't be packed in a bag.

**Stand Up That Mountain** Jay Erskine Leutze,2013-07-30 Traces the author's life-changing experiences while defending a small Belview Mountain community and a fragile section of the Appalachian Trail from the illegal mining practices of the Clark Stone Company, a case that eventually pitted several national conservation groups against the state of North Carolina.

*Untamed* Will Harlan,2014-05-06 The inspiring biography of the adventuresome naturalist Carol Ruckdeschel and her crusade to save her island home from environmental disaster. In a “moving homage . . . that artfully articulates the ferocities of nature and humanity,” biographer Will Harlan captures the larger-than-life story of biologist, naturalist, and ecological activist Carol Ruckdeschel, known to many as the wildest woman in America. She wrestles alligators, eats roadkill, rides horses bareback, and lives in a ramshackle cabin that she built by hand in an island wilderness. A combination of Henry David Thoreau and Jane Goodall, Carol is a self-taught scientist who has become a tireless defender of sea turtles on Cumberland Island, a national park off the coast of Georgia (Kirkus Reviews). Cumberland, the country’s largest and most biologically diverse barrier island, is celebrated for its windswept dunes and feral horses. Steel magnate Thomas Carnegie once owned much of the island, and in recent years, Carnegie heirs and the National Park Service have clashed with Carol over the island’s future. What happens when a dirt-poor naturalist with only a high school diploma becomes an outspoken advocate on a celebrated but divisive island? Untamed is the story of an American original who fights for what she believes in, no matter the cost, “an environmental classic that belongs on the shelf alongside Carson, Leopold, Muir, and Thoreau” (Thomas Rain Crowe, author of Zoro’s Field: My Life in the Appalachian Woods). “Vivid. . . . Ms. Ruckdeschel’s biography, and the way this wandering soul came to settle for so many decades on Cumberland Island, is big enough on its own, but Mr. Harlan hints at bigger questions.” —The Wall Street Journal “Wild country produces wild people, who sometimes are just what’s needed to keep that wild cycle going. This is a memorable portrait.” —Bill McKibben, author of The End of Nature “Deliciously engrossing. . . . Readers are in for a wild ride.” —The Citizen-Times

*The Backyard Adventurer* Beau Miles,2021-05-05 After years of adventuring around the globe - running, kayaking, hitchhiking, exploring - Beau Miles came back to his block in country Victoria. Staying put for the first time in years, Beau developed a new kind of lifestyle as the Backyard Adventurer. Whether it was walking 90km to work with no provisions, building a canoe paddle out of scavenged scrap or running a disused railway line through properties, blackberry thickets and past inquiring police officers, Beau has been finding ways to satisfy his adventurous spirit close to home. This book is about conscious experimentation with adventure, making meaning and inspiration out of tins of beans, bits of rubbish and elbow grease. Beau’s Backyard exploits are funny, authentic, insightful and being copied all over the world by everyday people. YouTuber, new dad, and self-described oddball who needs to shower more, Beau is what happens when you cross Bear Grylls with Bush Tucker Man. With a PhD in Outdoor Education, a string of successful short films under his belt and a boundless passion for discovery, Beau is the real deal.

**World of Women: A Novel of Adventure and Discovery** Bob McClure V,2010-06 WORLD OF WOMEN is an action story that realistically describes the discovery of the next step in human evolution. Biology, Anthropology, and Paleontology all teach that whenever a species is presented with a deadly stress, it must overcome it, evolve around it, or go extinct. At this point in history, mankind is an endangered species, headed for sure extinction unless a truly effective cure or prevention for AIDS is discovered and then distributed world-wide. At the same time, genetic experiments and gene therapies are probing deeper into medical realms once reserved to Providence. The likelihood of an artificial genetic change to the human race grows greater every day. It is very possible, almost probable, that a genetically distinct race of human beings, defined by Biology as a new species, may appear among us at any time.

Even if this means getting into danger and worrying his mother to no end. Exploring the boundaries of the forest, Jasper understands that there is more to the world around him.
