Steve Metzger

Home Education Charlotte Mason, Home Education is a groundbreaking exploration into the art of cultivating a rich and vibrant learning environment within the confines of one's home. Mason, a visionary educator, lays out a compelling philosophy that transcends traditional schooling methods, focusing on the holistic development of a child's mind, character, and habits. Through the lens of living books, nature study, and a thoughtful approach to discipline, Mason offers a refreshing perspective that empowers parents to provide an education that is not only intellectually rigorous but also fosters a love for learning. In this timeless work, Mason provides practical insights into the daily rhythms of home education, emphasizing the importance of cultivating an atmosphere of curiosity and wonder. She advocates for the use of living books—engaging and narrative-rich texts that ignite a child's imagination and create a genuine connection to the subjects studied. Additionally, Mason encourages the integration of nature into the learning experience, promoting outdoor exploration and observation as essential elements of a well-rounded education. Home Education serves as a guide for parents seeking an alternative, more personalized approach to education that goes beyond rote memorization and standardized testing. Charlotte Mason's philosophy, outlined with clarity and conviction, resonates with those who aspire to nurture not only academically proficient individuals but also compassionate, well-rounded human beings. This book is a compelling resource for anyone looking to embark on a transformative journey in home-based learning.

When You Learn the Alphabet Kendra Allen,2019-04-15 Kendra Allen's first collection of essays—at its core—is a bunch of mad stories about things she never learned to let go of. Unifying personal narrative and cultural commentary, this collection grapples with the lessons that have been stored between parent and daughter. These parental relationships expose the conditioning that subconsciously informed her ideas on social issues such as colorism, feminism, war-induced PTSD, homophobia, marriage, and “the n-word,” among other things. These dynamics strive for some semblance of accountability, and the essays within this collection are used as displays of deep unlearning and restoring—balancing trauma and humor, poetics and reality, forgiveness and resentment. When You Learn the Alphabet allots space for large moments of tenderness and empathy for all black bodies—but especially all black woman bodies—space for the underrepresented humanity and uncared for pain of black girls, and space to have the opportunity to be listened to in order to evolve past it.

This book will make the task of learning an alphabet an exciting and enlightening adventure for your child. Teach your preschool child the ABC's and encourage learning while reading.

Alphabet Handwriting 4+ Alphabet Books,2021-01-16 Are you looking for a book that will help you teach your child to write? Then you have found what you are looking for! Embark on an exciting journey through the entire ABCs together with your child. Writing is one of the first skills that school children learn. The time of wild scribbling has come to an end and suddenly clear lines are to be formed into letters and words. This is not easy for everyone: learning the letters is a great challenge, also on a motor level. While some children eagerly get started and soon develop a certain feel for the pencil, others need a little more assistance and time to get there. It's perfectly normal that some letters are easier to transcribe than others. After all, an I is much simpler than a G or an M, for example. As your child learns with each letter - whether child's play or challenging - he or she will gradually develop the skills necessary to write even tricky letters with confidence. To keep your child motivated to learn, the learning process must be lined with as many successes as possible. This book therefore takes a step-by-step approach. The individual lowercase and uppercase letters - from Aa to Zz - are introduced one after the other. Ideally, the next letter is not started until the previous one has already been memorized well. For this reason, learning each letter is divided into three simple steps that are clearly separated from each other: Tracing In order to become familiar with the movement that must be made with the pencil, each letter is first simply traced. If your child still has difficulty after the first pass, the process can easily be repeated with a pencil of a different color. Completing the word This is followed by a word that contains the letter just learned. Your child is learning to put the letter into a word. Encourage your child to read the word aloud - this way the corresponding sound is practiced directly. Writing independently In the third step, the time has finally come: Your child learns to write the letter freely and without pre-drawn lines. Of course, auxiliary lines are provided to help the child place the letter at the correct height. In this way, your child learns the entire alphabet in an encouraging but not overwhelming way, always practicing the uppercase letter first and only then the lowercase letter. By looking at each letter three times, your child is exposed to a set, reliable structure that they can follow at their own pace. The most important facts in a nutshell: Child-friendly writing exercises on just under 60 pages Plenty of space for free practice Lovely design Sensible structure that optimally accompanies learning Suitable for school and preschool children from 4 years of age Choose Learn letters from 4 years and start teaching your child to write as early as tomorrow!

ABC Writing Lesson CHARAN. LANGTON,2021-08 The ABC Writing Lesson is your child's first step to handwriting. By now, your child can hold a pencil and draw short straight lines, triangles, squares, and circles. Great! It's time to learn letters. After writing letters becomes automatic, your child will combine them effortlessly into words. Next, she will write words as they pop into her mind, not thinking about the individual letters. She will focus on the content and not on the hand movement. Handwriting and reading go together. Developing handwriting skills will speed up learning to read. The ABC Writing Lesson follows the alphabet and provides practice pages for lower and uppercase letters, and numbers. Have your child use a soft lead pencil, perhaps with a pencil grip. Remind her not to hold the pencil too tightly and not to press it too hard on the page. For younger children with less developed fine motor control, consider a crayon; using a regular pencil or pen might be too difficult. You will find the upper and lowercase letters are similar in size. At this point only the shape is

important; understanding of scale comes later. Ask your child to trace the letters and copy them in the blank areas with lines. Encourage your child to stay within the lines when tracing letters but not be too strict about how she forms them. Only practice and repetition matter at this point. Every child has a unique writing style and follows their own path of motor development. Be patient, and practice will work its magic. There is a dotted line around the main picture; have your child trace it. The dotted pictures are also for the child to trace and color for better fine motor control. If you need additional practice pages, go to the expanded version of this book in printable PDF format on our website, www.readinglesson.com. When ready, move on to the Teach Me Handwriting book in this series. Happy writing from the Gigggle Bunny and the Reading Lesson team.
