Alan Trachtenberg

*American Photography* Vicki Goldberg, Robert Silberman, 1999 This beautiful and informative photographic history includes images from 1900 to 1999. Many are often seen (bullet piercing the apple, splashing crown of milk, Sophia Loren looking askance at Jayne Mansfield's plunging decollete, and Dorothea Lange's Migrant Mother); but most are probably unknown, because the photos were selected not only for their visual and cognitive qualities but also for their importance to the history and development of photographic technique and usage. The century is divided into thirds for explanation's sake, and there is at least one photograph for every year. While this is a picture book, the accompanying text provides informative introductions to the uses and abuses of perhaps the century's most important medium. The book is companion to the PBS series. **Reading American Photographs** Alan Trachtenberg, 1990-11 Considers five documentary sequences or narratives: the antebellum portraits of Mathew Brady and others; the Civil War albums of Alexander Gardner, George Barnard and A.J. Russell; the Western survey and landscape photographs of Timothy O'Sullivan, A.J. Russell, and Carleton Watkins; and social photographs and texts by Alfred Stieglitz and Lewis Hine; as well as documentaries inspired by the Depression, esp. Walker Evans's American Photographs.

American Photographs Walker Evans, 1975 'American Photographs' is regarded as one of the most important photobooks ever published. It was originally an exhibition catalogue of his one-man show at the Museum of Modern Art, New York in 1938, the first solo show MoMA had given to a photographer. It documents the lives of the poor and dispossessed in 1930s, depression era America.

**The American Photo-text, 1930-1960** Caroline Blinder, 2019 This critical study of the American photo-text focuses on the interaction between text and images in twentieth-century American photography as well as the discourse surrounding image-text collaboration on a wider level. In looking at books designed as collaborative efforts between writers and photographers and by photographer/writers adding their own narrative text, it establishes the photo-text as a genre related to and yet distinct from other documentary efforts. Ranging from documentary studies in the 1930s to post-war examinations of the American landscape, urban and rural, from Dorothea Lange's photographs of dispossessed migrants in American Exodus (1939), Weegee's small time hoodlums on the streets of New York in Naked City (1945), to Robert Frank's Cold War landscapes, this survey constitutes an invaluable entry into how we read the politics of twentieth-century American photography.--

In Sight of America Dr. Anna Pegler-Gordon, 2023-04-28 When restrictive immigration laws were introduced in the late-nineteenth and early-twentieth centuries, they involved new requirements for photographing and documenting immigrants--regulations for visually inspecting race and health. This work is the first to take a comprehensive look at the history of immigration policy in the United States through the prism of visual culture. Including many previously unpublished images, and taking a new look at Lewis Hine's photographs, Anna Pegler-Gordon considers the role and uses of visual documentation at Angel Island for Chinese immigrants, at Ellis Island for European immigrants, and on the U.S.-Mexico border. Including fascinating close visual analysis and detailed histories of immigrants in addition to the perspectives of officials, this richly illustrated book traces how visual regulations became central in the early development of U.S. immigration policy and in the introduction of racial immigration restrictions. In so doing, it provides the historical context for understanding more recent developments in immigration policy and, at the same time, sheds new light on the cultural history of American photography.

**Weegee and Naked City** Anthony W. Lee, Richard Meyer, 2008-04-02 "While Berenice Abbott, Margaret Bourke-White, and Alfred Steiglitz photographed New York's sleek skyscrapers, Arthur Fellig (called Weegee) documented the seamy underside of depression-era New York. In this extraordinary book, Richard Meyer and Anthony Lee tell a gripping tale, filled with historical detail about Weegee's transformation from freelance newspaper photographer to fine artist with the publication of his enormously successful book Naked City, in 1945."—Cécile Whiting, author of Pop L.A.: Art and the City in the 1960s "Lee and Meyer return Weegee to his 'working world' by exploring the multiple contexts of his production—the Photo League, the tabloids, the exhibition galleries, and the book market. The volume adds an important dimension to our understanding of how Weegee straddled the worlds of popular culture, photojournalism, and left politics.—Miles Orvell, author of American Photography and John Vachon's America: Photographs and Letters from the Depression to World War II (UC Press) "Groundbreaking. Anthony Lee and Richard Meyer delve deeply into a rich archive of media and exhibition history, criticism, and biography to arrive at original interpretations of the most enigmatic photographer in modern visual and print culture."—Jordana Mendelson, author of Documenting Spain: Artists, Exhibition Culture, and the Modern Nation, 1929-1939

**Dear Friends** David Deitcher, 2001 This groundbreaking book presents rarely seen photos that provide an entirely fresh perspective on male friendship in the 19th century. Deitcher's provocative

text combines history, social observation, pictorial analysis, and personal reflection. 108 full-color photos.

**Folk Photography** Luc Sante,2009 A penetrating analysis of the real-photo postcard phenomenon of the early 1900s. These cards depict the now vanished world of small-town America, but also represent a pivotal stage in the evolution of photography. Their head-on style inherits something of the plain aesthetic of the Civil War photographers, while anticipating the great 1930s documentary artists such as Walker Evans. Fusing his skills as a chronicler of early 20th-century America, a historian of photography and a keen critic, Sante shows how these postcards offer a revealing 'self-portrait of the American nation'.
