Fundamental Amharic Exercise / Teaching Book Sehine Gizaw,2018-07-30 Fundamental Amharic Exercise / Teaching BookEthiopia, the land of vast riches and cultures, is also home to people who speak more than 80 different languages. Amharic is the most widely & commonly used language. Unlike much of languages spoken in Africa, Amharic has its own writing system called Feedel making it one of the most unique language in the world. My initial motivation for preparing this book was my daughter growing up outside of Ethiopia. I wanted her to speak and write Amharic to help her maintain a bond with her ancestral land of Ethiopia, its rich heritage and history. While doing an extensive research and compiling materials for this book, I found out that this book will serve many like my daughter. Children who are born outside of Ethiopia and adoptees, growing up in the diaspora; by helping them maintain some degree of relationship with their Ethiopian heritage. The book is also an invaluable resource for non-Ethiopians who possess some sort of ties to Ethiopia & Ethiopians, academicians, historians, researchers etc. It will help them better understand the mysteries of Ethiopia, Ethiopians, society and the culture; whether it's through the vast array of Amharic literature available or direct communication with the people.The teaching methodology used in the book is simple and easy to understand. The approach is based on the ancient way of teaching the language starting from Feedel or the Amharic characters; familiarizing the student with sounds and pronunciations, then grammar and vocabulary along with writing and penmanship. An Amharic language student of can benefit greatly by starting to learn Feedel at the same time he or she starts to learn the language. Once students master Feedel, they will recognize all the sounds of the Amharic language. Learning grammar and vocabulary, even for speaking, will be easier and faster, with the help of written materials. This book is designed exactly to do that.

Ethiopian literature (in amharic) G.A. Balashova,2016-10-06 The Reader includes sample works of modern writers starting with the first story by Afewerk Ghebre Jesus written in 1908 up to the writings of the early 2000s, which continue Amharic literature in various genres. The Chrestomathy is supplemented with linguistic and cultural comments of lexical, grammatical and ethno-cultural nature. Short biographies of the writers are included. Ethiopian literature is justly considered young, though it is based on a very old cultural foundation. Its major benefit is the focus on an individual person displaying moral integrity and unity with the environment.
