*Lorca's Drawings and Poems* Cecelia J. Cavanaugh, 1995 *Lorca's Drawings and Poems* focuses on the act of reading Lorca's drawn or written texts and how the reading of one genre can inform the reading of another. Throughout the study, poetry and drawings from every period of Lorca's career are examined. Selected drawings are interpreted; next, poems contemporary to those drawings are analyzed in their light. In chapter 1, a common poetics is extracted from Lorca's comments about his drawings and writing and placed in the context of the literary and artistic movements of his day. The evolution of the literary criticism that examines Lorca's drawings is traced and reviewed. Lorca's texts are examined from varying perspectives in the chapters that follow. In chapter 2, drawings and poems from 1927 to 1928 are analyzed in light of Lorca's participations in artistic and literary movements during those years. Texts from each period of Lorca's work are read in chapter 3 in a study of Lorca's employment of space and his depiction of setting and subject in his drawings and poems. Such a chronological approach allows the reading of Lorca's texts to reveal the evolution of his aesthetics as well as to identify the imagery and techniques that remained consistent throughout his

career.

*Of Anagrams; A Monograph Treating of Their History From the Earliest Ages to the Present Time* Henry Benjamin Wheatley, 2017-11-26 Excerpt from *Of Anagrams; A Monograph Treating of Their History From the Earliest Ages to the Present Time: With an Introduction, Containing Numerous Specimens of Macaronic Poetry, Punning Mottoes, Rhopalic, Shaped, Equivocal, Lyon, and Echo Verses Alliteration The Anagrams, and other verbal and literary curiosities* Of a kindred nature, contained in the following pages, I have drawn from various sources, and, amongst Others, several of the works mentioned in the Catalogue of Books relating to Anagrams, given in the Appendix, to which I am largely indebted. In making extracts I have always endeavoured to consult the original authors, and to trace the anagrams, which have come down to us through many divergent Streams, to their fountain head. Whilst seeking thus for the original authorities of the best known anagrams which we possess, and which each succeeding writer has been. About the

Ounce Hervé Martijn, Sven Vanderstichelen, 2015 Hervé Martijn's years of experience as a painter drive him to the extremes of his technical ability and question the nature of the true-to-life reality that he allows to appear on the canvas. Giving shape to a painted reality forces him to constantly make artistic choices. Martijn's lifelike translation consists of a painted diversity of reproductive possibilities with an inexhaustible and multipliable creative interpretation of an emotionally charged reality. His world, consisting mostly of women, is subtly manipulated on canvas by means of creative reinterpretation. Hervé Martijn's muses shrink from the viewer's gaze, or are stripped of their ability to look. A feeling of shame dominates the visible reality of those portrayed. In every painting the face is hidden or averted from the viewer's judgment. It is as if the outside world can only observe fragments of a reality that has been made fragile. A visible,

emotionally suppressed pain is sublimated in the reproduction of long, vulnerable suffering. As if recording it on canvas would bear witness to a painted conviction that acceptance is the only way to deal with wounds in life. A way of being marked for life in paint. A merciless Ounce upon a time in a fragile reality.

### **Cerebral Control of Speech and Limb Movements** G.R. Hammond,1990-12-06

Discussed in this book is the association between speech and movements, especially those of the preferred hand. Both are skilled motor activities that appear to depend upon a similar neural organization that is available in the left hemisphere of the brain. The nature of this association of the cerebral control of speech and skilled manual performance is discussed in four sections: 1. Motor control and speech examines speech as a motor activity 2. Language and gesture examines the correspondence between spoken language and manual gesture 3. Motor performance and aphasia examines the motor impairments associated with aphasias 4. Interactions of speech and manual performance examines the interactions that occur between concurrent verbal and manual activities

### Romanesque Architecture and its Sculptural in Christian Spain, 1000-1120

Janice Mann,2009-04-08 The decades following the year 1000 marked a watershed in the history of the Iberian Peninsula when the balance of power shifted from Muslims to Christians. During this crucial period of religious and political change, Romanesque churches were constructed for the first time in Spain. Romanesque Architecture and Its Sculptural Decoration in Christian Spain, 1000-1120 examines how the financial patronage of newly empowered local rulers allowed Romanesque architecture and sculptural decoration to significantly redefine the cultural identities of those who lived in the frontier kingdoms of Christian Spain. Proceeding chronologically, Janice Mann

studies the earliest Romanesque monuments constructed by Sancho el Mayor (r.1004-1035) and his wife, daughters, and granddaughters, as well as those that were built by Sancho Ramírez, king of Aragon (1064-1094). Mann examines groups of buildings constructed by particular patrons against the backdrop of changing social conditions and attitudes that resulted from increased influence from beyond the Pyrenees, the consolidation of royal power, and intensified aggression against Muslims. An in-depth study of the rise of an architectural style, this is the first book to examine early Romanesque architecture and sculpture of the Iberian Peninsula as it relates to frontier culture.

**The Artificial Body in Fashion and Art** Adam Geczy, 2016-11-03 Artificial bodies constructed in human likeness, from uncanny automatons to mechanical dolls, have long played a complex and subtle role in human identity and culture. This book takes a range of these bodies, from antiquity to the present day, to explore how we seek out echoes, caricatures and replications of ourselves in order to make sense of the complex world in which we live. Packed with case studies, from the commedia del'arte to Hans Bellmer and the 1980s supermodel, this volume explores the divide between the "real" and the constructed. Arguing that the body "other" plays a crucial role in the formation of the self physically and psychologically, leading scholar Adam Geczy contends that the "natural" body has been replaced by a series of imaginary archetypes in our post-modern world, central to which is the figure

of the doll. *The Artificial Body in Fashion and Art* provides a much-needed synthesis of constructed bodies across time and place, drawing on fashion theory, theatre studies and material culture, to explore what the body means in the realms of identity, gender, performance and art.

*Of Anagrams* H. B. Wheatley, 2017-07-24 Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles

receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

**Mediated Nostalgia** Ryan Lizardi, 2014-11-06 Considering the current rash of film remakes, vintage video game downloads, and box sets of bygone television shows, media today is obsessed with nostalgia. Instead of presenting a past that functions as an adaptive mirror with which we can compare our contemporary situation, the past is instead presented as an individualized version that transfixes us as uncritical citizens of our own culture.

**Mediated Nostalgia: Individual Memory and Contemporary Mass Media** argues that the cultural implication of a cross-media eternal return to nostalgia is an increasing reliance on defining who we are as people and societies by what media we consumed as children. The unblinking eye toward the past knows no progress, or at the very least, does not employ the past to compare and adaptively engage with the present or future. Examining film, literature, television, and video games, Ryan Lizardi tackles the idea of why that strong sense of nostalgia is such a popular tactic for the media industry, and why it is problematic.

Call TV quiz shows Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee, 2007-01-25 Call TV quiz shows are an example of television programmes provided by commercial broadcasters in order to increase their revenue. The viewer watches the live broadcast, then sends a text message or makes a premium rate telephone call in order to take part, with the broadcaster keeping a proportion of the call revenue. The Culture Committee has decided to examine this development, and whether some form of regulation is required since the programmes seem to be another means of gambling, with some members of the public complaining about them. This report therefore has set out a number of recommendations as to how broadcasters and regulators should address this. The Committee states that there seems to be a lack of fairness and transparency throughout the process. For example, players are generally not told that it is a matter of luck whether a call is connected to the studio and that the chances of getting through are very slim. Also the cost of calling is not always made as clear as it might be, or the amount players might have to spend to win a prize. Primary responsibility for maintaining confidence in the Call TV quiz show format rests with the operating companies and the broadcasters. The Committee believes that the guidance drawn up by the two main regulators, Ofcom and ICSTIS does not go far enough; the Committee also states that Call TV quiz shows should constitute gaming under the Gambling Act 2005, and the Culture Department and the Gambling Commission should consider this as a matter of urgency;

operators should have voluntarily introduced practices intended to help viewers who make repeated premium rate calls appreciate how much they are spending; also some assessment of the addiction to participation in such shows should be undertaken; viewers should be made aware that puzzles on Call TV quiz shows have a cryptic element, and that Ofcom should make it obligatory to have games verified with a third party and solutions lodged with them to prevent underhand changes being made while the show is on air; Ofcom should also publish periodic reports on its monitoring of Call TV quiz programmes; any practice of misleading viewers about call volumes or of blocking of calls would be unfair and fraudulent and should be punished under criminal law; the Committee recommends that broadcasters should be required to display some recent historical information about volume of incoming calls, and the odds of being connected to the studio; also that a single body, Ofcom, take responsibility for registering all complaints.

**Early Modern Women and Transnational Communities of Letters** Julie D. Campbell, Anne R. Larsen, 2016-12-05 An important contribution to growing scholarship on women's participation in literary cultures, this essay collection concentrates on cross-national communities of letters to offer a comparative and international approach to early modern women's writing. The essays gathered here focus on multiple literatures from several countries, ranging from Italy and France to the Low Countries and England. Individual essays investigate women in diverse social classes and life stages, ranging

from siblings and mothers to nuns to celebrated writers; the collection overall is invested in crossing geographic, linguistic, political, and religious borders and exploring familial, political, and religious communities. Taken together, these essays offer fresh ways of reading early modern women's writing that consider such issues as the changing cultural geographies of the early modern world, women's bilingualism and multilingualism, and women's sense of identity mediated by local, regional, national, and transnational affiliations and conflicts.
