1177 B.C. Eric H. Cline, 2015-09-22 A bold reassessment of what caused the Late Bronze Age collapse In 1177 B.C., marauding groups known only as the Sea Peoples invaded Egypt. The pharaoh's army and navy managed to defeat them, but the victory so weakened Egypt that it soon slid into decline, as did most of the surrounding civilizations. After centuries of brilliance, the civilized world of the Bronze Age came to an abrupt and cataclysmic end. Kingdoms fell like dominoes over the course of just a few decades. No more Minoans or Mycenaeans. No more Trojans, Hittites, or Babylonians. The thriving economy and cultures of the late second millennium B.C., which had stretched from Greece to Egypt and Mesopotamia, suddenly ceased to exist, along with writing systems, technology, and monumental architecture. But the Sea Peoples alone could not have caused such widespread breakdown. How did it happen? In this major new account of the causes of this First Dark Ages, Eric Cline tells the gripping story of how the end was brought about by multiple interconnected failures, ranging from invasion and revolt to earthquakes, drought, and the cutting of international trade routes. Bringing to life the vibrant multicultural world of these great

civilizations, he draws a sweeping panorama of the empires and globalized peoples of the Late Bronze Age and shows that it was their very interdependence that hastened their dramatic collapse and ushered in a dark age that lasted centuries. A compelling combination of narrative and the latest scholarship, *1177 B.C.* sheds new light on the complex ties that gave rise to, and ultimately destroyed, the flourishing civilizations of the Late Bronze Age—and that set the stage for the emergence of classical Greece.

*1177 B.C.* Eric Cline, Glynnis Fawkes, 2024-04-16 A beautiful, full-color graphic version of Eric Cline's bestselling *1177 B.C.*, adapted by award-winning author-illustrator Glynnis Fawkes Eric Cline's *1177 B.C.* tells the story of one of history's greatest mysteries: what caused the ancient civilizations of the Aegean and Eastern Mediterranean to collapse more than three thousand years ago, bringing the Late Bronze Age to an abrupt end? In this vivid and captivating full-color graphic adaptation of the landmark book, author-illustrator Glynnis Fawkes invites us to follow two young friends living in the aftermath of the cataclysm as they unravel why it happened—and reveal important lessons for today's interconnected and vulnerable world. Pel, a member of the marauding Sea Peoples, and Shesha, an Egyptian scribe, visit the

kingdoms of the Minoans, Mycenaeans, Hittites, Canaanites, Assyrians, and Egyptians to explore the calamities that brought them down. This graphic history depicts the people, events, art, architecture, and lands that Pel and Shesha encounter. We witness the Sea Peoples' battles on land and sea, earthquakes on the Greek mainland, droughts and famine in Anatolia, invasions in north Syria, and possible rebellions in Canaan. Along the way, we also learn about the assassination of a Hittite prince traveling to marry an Egyptian queen, the sinking of a merchant ship laden with international goods, and the return of a pair of sandals to Crete by the Babylonian king Hammurabi. An entertaining adventure story, this dazzling comic is also historically accurate and enlightening, inviting readers of all ages to think about the surprising factors and theories that explain why societies, whether ancient or modern, die or survive when struck by catastrophes.

**Old Yeller** Fred Gipson,2009-08-18 A timeless American classic and one of the most beloved children’s books ever written, Old Yeller is a Newbery Honor Book that explores the poignant and unforgettable bond between a boy and the stray dog who becomes his loyal friend. When his father sets out on a cattle drive toward Kansas for the summer, fourteen-year-old Travis Coates is left to take care of his family and their farm. Living in Texas Hill Country during the 1860s, Travis comes to face new, unanticipated, and often perilous responsibilities in the frontier wilderness. A particular nuisance is a stray yellow dog that shows up one day and steals food from the family. But the big canine who Travis calls “Old Yeller” proves his worth by defending the family from danger. And Travis ultimately finds help and comfort in the courage and unwavering love of the dog who comes to be his very best friend.

Fred Gipson's novel is an eloquently simple story that is both exciting and deeply moving. It stands alongside works like *The Adventures of Huckleberry Finn*, *Where The Red Fern Grows*, and *Shiloh* as a beloved and enduring classic of literature. Originally published in 1956 to instant acclaim, *Old Yeller* later inspired a hit film from Walt Disney. Just as *Old Yeller* inevitably makes his way into the Coates family's hearts, this book will find its own special place in readers' hearts.

1177 Charkes Chaketha Nesbitt, 2016-03-30 From the day she was born, Charkes was in the midst of her purpose. She was the first of her parents' 9 children and eventually became the only mother her siblings knew. In a conscious but unconscious manner, she moved about life with intention, despite dire circumstances. As a child she was an adult-- guiding, caring, loving and parenting. She never complained or stumbled, she just focused on the

moment, understanding that her God-given courage, and audaciousness was not only necessary for her future but also for the future of those akin to her.
