Grant D. Taylor

Art Appreciation Dave Plouffe, 2017-07-12 Written for those who are new to the study of art, *Art Appreciation: An Introduction to the Formal Elements and Mediums* familiarizes readers with foundational concepts of art appreciation and teaches them all they need to know in order to consider and discuss what artists create. The book concentrates on the formal elements and mediums, and introduces art-related vocabulary commonly used by artists and art historians. The accessible content is organized into four primary units. In the first section, students begin with an introduction and learn how art functions within the public sphere. The second section discusses the formal elements of art including line, space, color, motion, and pattern and texture. It also addresses balance, emphasis and focal point, and scale, repetition, and unity. The third section explores various art mediums such as drawing, printmaking, painting, photography, sculpture, and architecture. In the final section students are introduced to specific time periods of the renaissance and modern art era as well as a chapter devoted exclusively to Vincent van Gogh. Featuring an extensive glossary for easy reference and devoted to necessary fundamentals in the discipline, *Art Appreciation* is ideal for art survey courses, art history, and introductory art appreciation. Dave Plouffe holds a master's degree in art with a specialization in art history from California State University, Fullerton where he is now a faculty member. He has also taught at the University of La Verne and Chaffey College. His areas of interest are modern and contemporary art and art history. He has taught courses in art appreciation, the history of modern art, contemporary art, and survey classes: prehistory through the middle ages and renaissance to contemporary. In addition to teaching, he served as an exhibition

technician and a collections administrator for the Los Angeles County Museum of Art.

Approaches to Art Ferdinanda Florence, 2016-08-16 Written to engage and inspire students with little or no previous experience in studio art or art history, *Approaches to Art: A Journey in Art Appreciation* builds the case for art's meaning and value. The book presents all the essential parts of an introductory art history course --visual elements, principles of design, style, media, and art history--in a compelling format that invites critical thinking and teaches multicultural visual literacy. Students will not only learn the parts of art, they will develop, step by step, a deeper understanding of art's power to communicate on multiple levels--universal, cultural, and personal. Each chapter includes an art history exercise, a studio exercise, and discussion questions. The assignments can easily be customized to focus on art history or studio art, as appropriate for specific courses and modalities. *Approaches to Art* empowers students to approach any work of art with the ability to see and appreciate far more than they could before. Developed and class-tested over a period of years, it is an ideal textbook for general education courses in introductory art history and art appreciation.

Art Appreciation Deborah Gustlin, 2017-08-18 *Creative Art: Methods and Materials* educates readers about a variety of art methods and the ways different civilizations have used them in artistic expression. Each of the fourteen chapters is designed around a specific art method and material, and includes examples of art works and the artists who created them. Students learn about bronze casting, stone carving, clay sculpture, woodcuts and posters, glass work, and installation art. Each method is matched to artists

both ancient and modern. Rather than adhering to a standard approach that focuses on white, male, European artists, the book broadens the student's perspective by including often overlooked female artists. Global in approach and comprehensive in coverage of arts forms, representations, and styles throughout history, Creative Art has been developed for sixteen-week courses in art appreciation, or introductory survey courses in art history.

When the Machine Made Art Grant D. Taylor, 2014-04-10 Considering how culturally indispensable digital technology is today, it is ironic that computer-generated art was attacked when it burst onto the scene in the early 1960s. In fact, no other twentieth-century art form has elicited such a negative and hostile response. When the Machine Made Art examines the cultural and critical response to computer art, or what we refer to today as digital art. Tracing the heated debates between art and science, the societal anxiety over nascent computer technology, and the myths and philosophies surrounding digital computation, Taylor is able to identify the destabilizing forces that shape and eventually fragment the computer art movement.

The Painted Word Tom Wolfe, 2008-10-14 America's nerviest journalist (Newsweek) trains his satirical eye on Modern Art in this masterpiece (The Washington Post) Wolfe's style has never been more dazzling, his wit never more keen. He addresses the scope of Modern Art, from its founding days as Abstract Expressionism through its transformations to Pop, Op, Minimal, and Conceptual. The Painted Word is Tom Wolfe at his most clever, amusing, and irreverent (San Francisco Chronicle).

Immaterial Sherri Irvin, 2022 Contemporary art can seem chaotic: it may be made of toilet paper, or candies you can eat, or meat that is thrown out after each exhibition. Some works fill a room with obsessively fabricated objects, while others purport to include only concepts, thoughts or language. I argue, through many examples, that disparate developments in installation art, conceptual art, time-based media art, and participatory art can be understood in terms of custom rules. Many artists articulate custom rules governing artwork display, preservation of material elements, and interactivity or audience participation. Rules are established through the artist's sanction: the creative act of designating the material elements and rules that constitute the work's structure. Rules serve as medium: they are part of the work's structure and help to constitute its meanings. Rules are meaningful in themselves, and they help to activate the expressive potential of material objects. Museum practice should include providing information about the rules; otherwise, audiences can't fully appreciate the work.

Contemporary art conservation involves preserving information: loss of information about the rules, like loss of a chunk of marble, can seriously damage the work. Rules are trickier to pin down than material objects and are subject to violation, so we'll examine the effects on the work's integrity and authenticity when things go wrong in various ways. Is the emergence of custom rules a positive development? Some artists have used rules to powerful effect. But rules aren't always used well: bad art can take any form--

The Art of Appreciation Kate Guthrie, 2021-07-13 From the BBC Proms to Bernstein's Young People's Concerts, initiatives to promote classical music have been a pervasive feature of twentieth-century musical life. The goal of these initiatives was rarely just to reach a larger and more diverse audience but to teach a particular way of listening that would help the public appreciate music. This book examines for the first time how and why music appreciation has had such a defining and long-lasting impact--well beyond its roots in late-Victorian liberalism. It traces the networks of music educators, philanthropists, policy makers, critics, composers, and musicians who, rather than resisting new mass media, sought to harness their pedagogic potential. The book explores how listening became embroiled in a nexus of modern problems around citizenship, leisure, and education. In so doing, it ultimately reveals how a new cultural milieu--the middlebrow--emerged at the heart of Britain's experience of modernity.

Why is that Art? Terry Barrett, 2012 Why is that art? Why is it in an art museum? Who says it's art? Why is it good? Author Terry Barrett addresses these questions about contemporary art using four key sources: a broad, diverse, and engaging sampling of works, the artists who created the works, philosophers of art, and art critics. *Why Is That Art?* introduces students to

established theories of art through the presentation of contemporary works that include abstract and representational painting, monumental sculpture, performance art, video installations, films, and photographs. Ideal for courses in aesthetics, art theory, art criticism, and the philosophy of art, this unique book provides students with a newfound appreciation for contemporary art, scholarship, and reasoned argumentation. FEATURES *

- * Explores a variety of established theories of art, including Realism, Expressionism, Cognitivism, Formalism, and Postmodernist Pluralism
- * Applies each theory to contemporary works of art, discussing strengths and limitations of each mode of interpretation
- * Brings abstract ideas together in an accessible way through extended examples, giving students the understanding and vocabulary to confidently enter critical dialogue about art
- * Includes Questions for Further Reflection at the end of each chapter
- * Includes seventy illustrations, twenty-five of which are in full color

NEW TO THIS EDITION *

- * Includes a new glossary of key terms
- * Expands the treatment of postmodernism, incorporating strategies of postmodernist art-making
- * Provides updated discussions of artists Jeff Koons, Kiki Smith, Paul McCarthy, and Andy Goldsworthy, as well as images of their new works

Painting Outside the Lines David W. Galenson, 2001 In a work that brings new insights, and new dimensions, to the history of modern art, David Galenson examines the careers of more than 100 modern painters to disclose a fascinating relationship between age and artistic creativity.

Art Matters Pamela Gordon (Lecturer in art), 2019 An art appreciation text that makes students want to Explore art--

Introduction to Art: Design, Context, and Meaning Pamela Sachant, Peggy Blood, Jeffery LeMieux, Rita Tekippe, 2023-11-27 Introduction to Art: Design,

Why is that Art? Terry Barrett, 2017 Why is that art? Why is it in an art museum? Who says it's art? Why is it good? Why Is That Art?, Third Edition, introduces students to theories of art through the presentation of contemporary works that include abstract and representational painting, animated film, monumental sculpture, performance art, photographs, relational art, and video installations. Ideal for courses in aesthetics, art theory, art criticism, and the philosophy of art, this unique book provides students with a newfound appreciation for contemporary art, scholarship, and reasoned argumentation.

The Art of Looking Lance Esplund, 2018-11-27 A veteran art critic helps us make sense of modern and contemporary art The landscape of contemporary art has changed dramatically during the last hundred years: from Malevich's 1915 painting of a single black square and Duchamp's 1917 signed porcelain urinal to Jackson Pollock's midcentury drip paintings; Chris Burden's Shoot (1971), in which the artist was voluntarily shot in the arm with a rifle; Urs Fischer's You (2007), a giant hole dug in the floor of a New York gallery; and the conceptual and performance art of today's Ai Weiwei and Marina Abramovic. The shifts have left the art-viewing public (understandably) perplexed. In The Art of Looking, renowned art critic Lance Esplund

demonstrates that works of modern and contemporary art are not as indecipherable as they might seem. With patience, insight, and wit, Esplund guides us through the last century of art and empowers us to approach and appreciate it with new eyes. Eager to democratize genres that can feel inaccessible, Esplund encourages viewers to trust their own taste, guts, and common sense. The Art of Looking will open the eyes of viewers who think that recent art is obtuse, nonsensical, and irrelevant, as well as the eyes of those who believe that the art of the past has nothing to say to our present.

The Big Picture Matthew Israel, 2017-09-08 Discover the compelling story of the evolution of contemporary art, its state today, and where it's headed, through a sample of ten artworks created by ten artists over a span of fifteen years. Written in an engaging, straightforward style by prominent art historian Matthew Israel, this book presents ten outstanding examples of contemporary art, each with significant historical or cultural relevance to contemporary art's big picture. Drawn from the fields of photography, painting, performance, installation, video, film, and public art, the works featured here combine to create a bigger picture of the state of contemporary art today. From Andreas Gurskys large-scale color photograph "Rhine II" to Kara Walkers acclaimed installation in the Domino Sugar Factory in Brooklyn, each work is carefully explored within the larger perspective of its social and artistic milieu. Articulate and insightful, this book offers readers the ability to consider each work in-depth, while also providing an easily digestible foundation from which to study the often challenging but continually fascinating world of 21st-century art.

Drawing Upon Art LG Williams, 1995-09-01 Drawing Upon Art is a supplemental drawing workbook, whose roughly 400 assignments' address the fundamental,

historic questions in Visual Art This workbook challenges students, with simple and direct exercises, to experience for themselves history's most advanced and creative visual art problems and developments. As a supplemental workbook, Drawing Upon Art uniquely addresses the most pressing paradox that currently exists in every college' and university Art Appreciation and Introductory Art History classroom in the United States. Namely, the seminal visual principals, theories, and concepts in Art's history are still delivered solely through .the same old, textual approach. This antiquated methodology remains to this very day, as distant, passive, and ineffectual as it was since its conception, After all, one cannot and should not' expect the major achievements of the visual arts to be fully understood, grasped or appreciated by any means other than a direct, hands-on approach. Themes of Contemporary Art Jean Robertson, Craig McDaniel, 2017 Themes of Contemporary Art: Visual Art after 1980 (Fourth Edition) is a unique introduction to eight important themes that have recurred in art over the past few decades-identity, the body, time, memory, place, language, science, and spirituality. Jean Robertson and Craig McDaniel provide an intriguing and accessible guide that will stimulate students, gallery goers, and other readers to think actively and critically about visual art from 1980 to the present. The opening chapter provides a concise overview of the period, analyzing how key changes (the rise of digital media, a growing awareness of globalization, the influence of theory, the use of the Internet, and interactions with everyday culture) have resulted in an art world with dramatically expanded boundaries. Each of the remaining eight chapters

features an introduction to one theme; a brief look at historical precedents and influences; a detailed analysis of how contemporary artists have responded to and embodied aspects of the theme in specific works; and two in-depth and fascinating profiles of artists who have extensively explored aspects of the theme in his or her work. Generously illustrated in full color, *Themes of Contemporary Art: Visual Art after 1980* (Fourth Edition) covers an international array of artists working with an immense variety of materials, techniques, subjects, and forms. A timeline that situates contemporary art in the context of major events in world history, art, and popular culture enhances the engaging, readable text.
