The First Century of the Detroit Auto Show

Robert Szudarek, 2000-01-15 This book looks at the first century of the Detroit Auto Show, the largest auto show in the world for many years. From the first show at the Detroit Light Guard Armory in 1899 to the January 1999 show at Cobo Hall, this fascinating book details the show's evolution over 100 years, and how it became the industry's most prominent event. The First Century of the Detroit Auto Show introduces pioneers such as William Metzger, who was instrumental in organizing the first show and played a prominent role in many shows of the early 1900s. Each year's show is covered in a chapter which includes information on the major players of the show, products featured, size, exhibitors, decor, opening ceremonies, admission fares, and entertainment. The book features over 100 historical and nostalgic photos to bring the reader in touch with the culture of the automotive industry and society at the time. A captivating account of the history of the industry's showcase event, this book belongs on the bookshelves of every automotive historian, enthusiast, and engineer.

Motorama David Temple, 2015-01-15 In an age of unbridled American enthusiasm and towering industrial might, the GM Motorama was a dazzling and elegant show that was unlike any automotive event before it or since. General Motors staged extravagant and elaborate Motorama shows that rivaled some fashion shows. It showcased some of the most revolutionary and innovative prototype

and dream cars ever built. And it captured the imagination of the car-buying public from 1950 to 1961. Motorama expert and experienced author David Temple has comprehensively researched the show, the cars, and the personalities to create a fascinating new story with many new photos of these magnificent cars. Because television was in its infancy, GM's President Alfred Sloan believed that the Motorama was the most effective way to market GM products and design prowess. Legendary stylist Harley Earl led a talented group of designers and engineers to dream up, style, and develop some of the most remarkable prototype cars of all time. While current production Buick, Chevy, Cadillac, and Pontiac cars were showcased, the bold, radical, awe-inspiring prototype and dream cars stole the show. These included the GM Le Sabre, replete with aerospace design and an aluminum engine; the fiberglass-bodied Corvette dream car, which went into production after overwhelmingly positive response; and the jet engine-powered Firebird. Temple goes into fascinating detail on the body, frame, engine, drivetrain, and all the special features of each model. He has also retraced the ownership histories of some of these cars. Within the pages of this volume, you get to relive this glorious era of automotive history and revisit the advanced show cars that inspired so many new models. This book features fascinating period photography of Motorama cars at the show, in development, and at different locales. No other automotive show rivaled the Motorama for stunning productions and awe-inspiring cars, which makes this a must-have

book.

Flammang, Mitch Frumkin, 1998 Since its debut at the turn of the century, the Chicago Auto Show has combined automotive innovation, excitement, and enough pageantry to captivate millions of car lovers. Now you can experience it all, from the days of horseless carriages to the age of futuristic dream cars. Join the authors on the definitive tour of the world's longest running auto show. Features: 1,000 dazzling and rare photographs; a bonanza of beautiful cars; celebrities, beauty queens and glitz; a complete and compelling history of the show.

The Car Show Nicolae Sfetcu, 2014-04-27 This e-book details the most interesting and important characteristics of the automobiles, car maintenance, styling features, car body style, the standard classification of the cars, an history of the automobiles, introduction in the automotive industry, and the traffic code, rules and signs. An automobile, usually called a car (an old word for carriage) or a truck, is a wheeled vehicle that carries its own engine. Older terms include horseless carriage and motor car, with "motor" referring to what is now usually called the engine. It has seats for the driver and, almost

without exception, for at least one passenger. The automobile was hailed as an environmental improvement over horses when it was first introduced. Before its introduction, in New York City, over 10,000 tons of manure had to be removed from the streets daily. However, in 2006 the automobile is one of the primary sources of worldwide air pollution and cause of substantial noise and health effects.

Larry Broadfellow is a world-renowned televangelist whose charisma has built The Church of God's Love into a multi-million-dollar empire. When Larry parades across the stage before the camera, exhorting his devotees to follow him on the glory path to salvation, they assume he knows the way. In fact, he is floundering, doubting the very words that pour effortlessly from his mouth.

Though Larry is the star of the church, Reverend Patrick Brannigan and his wife, Gillian, are its foundation. Larry lost his family to a fire when he was just five years old. The Brannigans have become his surrogate parents, and Larry is in love with their daughter, Fiona. Gillian Brannigan's pending death prompts her to write Larry a letter saying she suspects that his performances are less than genuine. She asks Larry if he is a charlatan. Already insecure and shocked that Gillian would suspect that of him, Larry is plunged into a spiral of self-doubt and depression. Thousands upon thousands of times he has preached the significance of sacrifice, devotion and trust in God, but he must now learn what those words truly mean.

Car Show Journal Car Journals, 2019-11-22 Car Show Journal: Notebook for Recording Year, Make, Model, and Modifications, Great Gift for Automobile Enthusiasts This journal has space for you to write down the show (date and location) where you saw the car, as well as the make, model, and color of the car. Then you have space to get to the real point of the show-- the modifications and condition of the car. Did the owner totally rebuild the mechanical system to be identical to original condition, or did they trick it out with a totally new engine to make it a street rod? What is the attention to detail in the restoration? What was the reasoning behind the modification (a question you can ask yourself, but would never dream of asking the owner). On the other side, you have a Notes section where you can write things like contact information (if you get it), what you think the value of the car is, the overall quality, and if any of the parts used interest you for your own restoration work. What's the point of going to an amazing car show if you don't record and log your favorite parts? The cover of this particular journal features a flashy red Porsche,

The Cars of Harley Earl David W

Temple, 2016-05-16 At 6-foot, 3-inches tall, Harley Earl was an imposing figure, but his true stature lies in his towering talent for automotive design and styling. Over his 50-year career, he created as well as collaborated on the most innovative, bold, technologically advanced cars made by General Motors. As a titan of American auto design, the cars he helped create are still celebrated today. And as an enduring legacy, he inspired a generation of engineers, designers, and stylists. Veteran automotive historian David W. Temple has researched and unearthed the complete story of Harley Earl's cars, his notable design achievements, and many accolades. Working as a coachbuilder at his father's Earl Automotive Works in Hollywood, California, the young Earl learned his trade. After styling the 1927 LaSalle for GM president Alfred P. Sloan, Earl rose to prominence and ran the newly created department of Art and Color. Automobile design stagnated during the Depression and World War II, but the number of his contributions to the automotive world in the 1950s is staggering. When the jet age hit, he fully embraced aviation design and infused it into GM cars. The Buick Y-Job and GM Le Sabre featured many firsts in automotive design and hardware. The Y-Job's fender extensions trailing over the doors, disappearing headlamps, flush door handles, a

metal cover over the convertible top were a few innovations. When General Motors needed to show off its cars and technology, Harley Earl-designed cars were the stars of the Motorama show that toured the country from 1949 to 1961. He led the team that created the 1953 Corvette, and this iconic American sports car is still going strong today. He was involved in the creation of the 1955-1957 Chevy Bel Air, otherwise known as the Tri-Five Chevy. Harley Earl's drive toward bold and innovative design spurred American car design during the mid-twentieth century. His distinctive designs defined the 1950s finned cars and set American automotive design on the path it has followed into the modern era. With this in-depth examination, you learn the inside story of these remarkable cars and the man behind them. It's an essential addition to any automotive library.

The History of Lamborghinis Seth

Kingston, 2018-12-15 Readers will learn that Lamborghinis are some of the sportiest luxury vehicles on the market. They combine innovative design with high-end performance to become one of the most sought-after vehicles money can buy. Readers will be introduced to Ferruccio Lamborghini, who began his automobile company, Automobili Ferruccio Lamborghini, as a powerful and very wealthy man. His goal was to build a sports car capable of competing with Ferrari. In 1963, he purchased a large plot of land just outside of Bologna, Italy, on which he built a large, ultramodern factory. The first model, the 350 GTV, debuted at the Turin Auto Show in November 1963 and it was very well received.

National Automobile Show ,1956

St. Ignace Car Culture Ed Reavie,2010-05-17 St. Ignace hosted its first car show in 1976 as part of the bicentennial celebration. Over the years, the annual gathering has grown into one of the largest collector-vehicle events in the country. This lakeside community overlooking the mighty Mackinac Bridge and historic Mackinac Island boasts a spectacular waterfront—the perfect backdrop for a stunning array of eye-catching vehicles. In the early years, media referred to this show as “dessert.” As the numbers of participants and attendees grew, it became known as the “main course.” For teenagers growing up in the 1950s it was all new—cruisin’, drive-ins, drag strips, the country’s intense love affair with the automobile, and the birth of rock ‘n roll. Over 34 years, the St. Ignace Car Show has brought hundreds of automotive legends to town, and car-show traffic set crossing records on the Mackinac Bridge that are unlikely ever to be broken. So fire up the hot rod and cruise back to a simpler time . . . all these cars and still no traffic light!
