Go Like Hell Albert J. Baime, 2009 By the early 1960s, the Ford Motor Company, built to bring automobile transportation to the masses, was falling behind. Young Henry Ford II, who had taken the reins of his grandfather's company with little business experience to speak of, knew he had to do something to shake things up. Baby boomers were taking to the road in droves, looking for speed not safety, style not comfort. Meanwhile, Enzo Ferrari, whose cars epitomized style, lorded it over the European racing scene. He crafted beautiful sports cars, science fiction on wheels, but was also called the Assassin because so many drivers perished while racing them. Go Like Hell tells the remarkable story of how Henry Ford II, with the help of a young visionary named Lee Iacocca and a former racing champion turned engineer, Carroll Shelby, concocted a scheme to reinvent the Ford company. They would enter the high-stakes world of European car racing, where an adventurous few threw safety and sanity to the wind. They would design, build, and race a car that could beat Ferrari at his own game at the most prestigious and brutal race in the world, something no American car had ever done. Go Like Hell transports readers to a risk-filled, glorious time in this brilliant portrait of a rivalry between two industrialists, the cars they built, and the pilots who would drive them to victory, or doom.

**How To Be An F1 Driver** Jenson Button, 2019-10-17 AUTHOR OF SUNDAY TIMES BESTSELLER, **LIFE TO THE LIMIT** In his 17 years as a Formula 1 driver, Jenson Button has picked up a thing or two about how to do the job properly. Sure, you need to be able to drive a car fast - and Jenson is on hand to pass on a few tricks of the trade here - but you also need to know the real rules for making it to the top. Like, how to tell a multiple F1 champion they need to check their blind-spot. What the difference is between a helmet and a hat, and indeed a 'helmet-hat'. How to practise your champagne spray ahead of the big day. Why it is never, ever, under any circumstances a good idea to buy a yacht. And how to face down your team when you've just stacked their multi-million-pound car into a wall during practice. But 'JB' (nicknames in F1 run the full range from initials to, well, just using first names) doesn't stop there. **HTBAF1D** (catchy) lifts the lid on the people, the places, the weird rituals, the motorhomes, the media, the cars, the perks and the disasters. Join Jenson as he reveals how not to race a stupid big truck, why driving Le Mans is like having five shots of tequila before lunch, and what to do when you finally hang up your helmet-hat.

*The Chequered Past* David Anderson Charters, 2007-01-01 In the forty-year period between 1951 and 1991, Canadian sports car competition underwent a massive change, transforming itself from an amateur recreational pastime to a commercialized profession and from an individual sport to a spectacle for mass consumption. The Chequered Past is the story of the struggle over power and purpose within the Canadian auto sport that led to this transformation. The first comprehensive history of sports car racing and rallying in Canada, The Chequered Past traces the efforts of the national governing body - the Canadian Auto Sport Clubs (CASC) - to bring its sports car competition up to a 'world class' level, and to manage the consequences of those efforts in the second half of the twentieth century. David Charters traces the social origins of the sport and the major trends that shaped it: professionalism, technological change, rising costs, and the influence of commercial sponsors. Charters argues that while early enthusiasts set the sport on a course toward professionalism that would eventually produce world-class Canadian events and racers, that course would also ultimately change the purpose of the sport: from personal recreation to mass entertainment. As technological innovations drove up the costs of competing at the top ranks, racers were forced to rely on sponsors, who commercialized and ultimately gained control of the sport. The end result, Charters argues, was the marginalization of the amateur competitor and of the CASC itself. Based on extensive research into the

CASC's records and dozens of interviews with former competitors and officials, *The Chequered Past* opens a window into the rich but virtually unknown history of the auto sport, and claims for it a place in Canadian sports history.

*The AUTO UNION-DKW Guide* Keith Ayling, 2016-06-17 "Tell me its pedigree and I'll tell you what kind of car it is!" According to legend, this pungent comment was made by the great Tazio Nuvolari when a manufacturer asked him to drive a new car in the German Grand Prix. West Germany's Auto Union products—the front-wheel-drive DKW 750 and the larger Auto Union S-1000 series—are direct descendants of the famous Auto Union racing cars that Nuvolari was later to drive to victory in the British and German Grand Prix races, and which literally cleaned up on the racing tracks of Europe before World War II ended peaceful competition between great automobile marques. These were the cars that would do 205 mph, weighed a mere 2,508 pounds, and were constructed with what one writer describes as an "unearthly kind of superior craftsmanship ..." (1961 - Keith Ayling)

Racing to the Finish Dale Earnhardt Jr., 2018-10-16 Dale Earnhardt Jr.'s only authorized book revealing the inside track on his final year of racing and retirement from the driver's seat. "Time was running out on my charade... My secrets were about to be exposed to the world." It was a seemingly minor crash at Michigan International Speedway in June 2016 that ended the day early for Dale Earnhardt Jr. What he didn't know was that it would also end his driving for the year. He'd dealt with concussions before, but concussions are like snowflakes, no two are the same. And recovery can be brutal, and lengthy. When NASCAR star Dale Earnhardt Jr. retired from professional stock car racing in 2017, he walked away from his career as a healthy man. But for years, he had worried that the worsening effects of multiple racing-related concussions would end not only his time on the track but his ability to live a full and happy life. Torn between a race-at-all-costs culture and the fear that something was terribly wrong, Earnhardt tried to pretend that everything was fine, but the private notes about his escalating symptoms that he kept on his phone reveal a vicious cycle: suffering injuries on Sunday, struggling through the week, then recovering in time to race again the following weekend. For the first time, he shares these notes and fully reveals the physical and emotional struggles he faced as he fought to close out his

career on his own terms. In this candid reflection, Earnhardt opens up about his frustration with the slow recovery, his admiration for the woman who stood by him through it all, and his determination to share his own experience so that others don't have to suffer in silence. Steering his way to the final checkered flag of his storied career proved to be the most challenging race and most rewarding finish of his life.
