The Self-Aware Parent Fran Walfish, 2010-12-07 A healthy relationship based on mutual trust is every parent's wish. The bond between infant and parent is a natural phenomenon, but as children reach their preteens and form their own personalities, fireworks between the child and parent can ensue. Drawing on 20 years of clinical experience and new theories on attachment, family therapist and consultant to Parents magazine Dr. Fran Walfish argues that parents need to distinguish their own personality types in order to make more informed decisions about how they interact and raise their own children. This step-by-step guide shows parents: * how to recognize the strength and weaknesses of your parenting style and how it affects your child; * the ways your style might clash with your child's nature, and how to negotiate a common ground; * the vital importance of establishing trust with a preteen to better prepare for turbulent teen years. Written with warmth, authority, and wit, Dr. Walfish holds a gentle mirror up to parents and helps them understand themselves in order to create a closer relationship with their child.

Unfortunately, parents often have trouble understanding their children's school attendance issues and are uncertain about how to help. *Getting Your Child Back to School* is intended for parents grappling with school attendance problems at the elementary, middle, and high school levels. Covering a wide variety of attendance problems and special circumstances, the book offers practical, step-by-step strategies parents can use themselves, including asking the right questions, evaluating the severity of the problem, and knowing whom to consult. Parents will learn to change a child's negative thoughts around school, establish a clear and predictable morning routine, and set up a system of rewards for going to school. New to this edition is material on very severe and chronic cases, including discussion of educational alternatives; mindfulness approaches and parent involvement strategies; teletherapy and other options for young people who have been out of school for an extended period; and more extensive guidance on working with school officials. The College Conversation Eric J. Furda, Jacques Steinberg, 2021-09-21 From an Ivy League dean and a college admissions expert, a guide to help parents support their children as they navigate their way to college. The College Conversation is a comprehensive resource for mapping the path through the college application process that provides practical advice and reassurance to keep both anxious parents and confused children sane and grounded. Rather than adding to the existing canon of How to Get In college guides or rankings, Eric Furda and Jacques Steinberg provide a step-by-step approach to having the tough conversations on this topic with less stress and more success. The book is organized around key discussions and themes that trace the chronological arc of admissions and financial aid--beginning before the assembly of a list of potential colleges and continuing through the receipt of decisions--with a final section that includes advice on the first year of college. The topics include preliminary conversations about the search, and specifically how parents can think about their children's interests and what kind of college would best suit them; choosing a college (based on its curriculum, culture, and community); writing the most effective essays; assessing acceptances, including considerations of finances and aid; and making the transition from high school to college life. The College Conversation will provide parents, students, and counselors with the credible, level-headed information often missing in this process, as well as a much-needed dash of perspective borne of experience.

Growing Up with the Impressionists Julie Manet,2017-08-24 Julie Manet, the niece of Edouard Manet and the daughter of the most famous female Impressionist artist, Berthe Morisot, was born in Paris on 14 November 1878 into a wealthy and cultured milieu at the height of the Impressionist era. Many young girls still confide their inner thoughts to diaries and it is hardly surprising that, with her mother giving all her encouragement, Julie would prove to be no exception to the rule. At the age of ten, Julie began writing her 'memoirs' but it wasn't until August 1893, at fourteen, that Julie began her diary in earnest: no neat leather-bound volume with lock and key but just untidy notes scribbled in old exercise books, often in pencil, the presentation as spontaneous as its contents. Her extraordinary diary - newly translated here by an expert on Impressionism - reveals a vivid depiction of a vital period in France's cultural history seen through the youthful and precocious eyes of the youngest member of what was surely the most prominent artistic family of the time.
