While most famously used to introduce kids to programming, Scratch can make computer science approachable for people of any age. Rather than type countless lines of code in a cryptic programming language, why not use colorful command blocks and cartoon sprites to create powerful scripts? In *Learn to Program with Scratch*, author Majed Marji uses Scratch to explain the concepts essential to solving real-world programming problems. The labeled, color-coded blocks plainly show each logical step in a given script, and with a single click, you can even test any part of your script to check your logic. You'll learn how to: -Harness the power of repeat loops and recursion -Use if/else statements and logical operators to make decisions -Store data in variables and lists to use later in your program -Read, store, and manipulate user input -Implement key computer science algorithms like a linear search and bubble sort Hands-on projects will challenge you to create an Ohm's law simulator, draw intricate patterns, program sprites to mimic line-following robots, create arcade-style games, and more! Each chapter is packed with detailed explanations, annotated illustrations, guided examples, lots of color, and plenty of exercises to help the lessons stick. *Learn to Program with Scratch* is the perfect place to start your computer science journey, painlessly. *Uses Scratch 2*

Party Crashers Jonathan Roth,2018-03-13 Beep and his best friend Bob get blamed for a robbery on a fancy spaceship in this second book in the hilarious, action-packed Beep and Bob series! It's Bob's friend Lani's birthday, and she's having her party on a super luxury space cruiser called the Starship Titanic, whose motto is "The 100% safest ship in the galaxy." The Titanic boasts three water parks, sixteen amusement parks, and twelve-million hyper-show channels on TV! Beep and Bob pack their favorite swimsuits and their favorite TV watching gear. When Beep and Bob arrive on the ship, however, they realize they forgot the most important item: a birthday gift for Lani. Not only that, but Lani's parents are super rich and expect everyone to wear a suit to dinner (not the bathing suit that Bob wore by mistake). But that's not their biggest problem. No, that happens when the lights dim and guests' jewelry is stolen from right under their noses—and Beep and Bob get blamed for the crime! Things go from bad to worse when Beep and Bob discover that their "indestructible" ship is headed right for the ice rings of Neptune—and then starts plummeting toward the planet below! Can Beep and his squishy alien buddy save the Starship Titanic? Or will this be their last party ever?
