Merchant Banking in ASEAN Michael T. Skully,1986 This book provides a regional view of the merchant banking industries of Indonesia, Malaysia, the Philippines, Singapore, and Thailand. The names, addresses and institutional shareholders of the merchant bank styled institutions in each country are provided in the appendices, as is a select biography on ASEAN financial matters which has been revised and updated for this edition.

Building Social Capital in Thailand Danny Unger,1998-09-28 Between 1984 and 1994 Thailand had the most rapid economic expansion in the world. This 1998 book offers an explanation of this successful record of economic growth in Thailand, and in Southeast Asia more generally. The book explains why Thai leaders adopted a market-driven strategy from the late 1950s, and also shows how the overseas Chinese in Thailand built on their community's social capital to overcome the market failures common to all developing countries. Unger takes an interdisciplinary approach, building on the literatures of social capital and embedded autonomy. He considers the unique organization of Thai society, and the impact this has had on the country's institutions, and their political and economic outcomes. The book includes detailed analysis of the financial and textile sectors, as well as the development of heavy industries and transportation infrastructure.

Financial Institutions and Markets in Southeast Asia Michael T. Skully,1984-06-18

Money and Power in Provincial Thailand Ruth McVey,2001-01-01 Most studies of Southeast Asian economic change focus on the phenomenal growth experienced by a few large cities, such as Jakarta, Bangkok, Hong Kong, Kuala Lumpur, and Singapore. Big business has been viewed as the economic engine fueling the region's growth and prosperity. Studies of the rural areas have concerned themselves with the social and environmental impact of metropolitan growth--villages emptied by migration to the big cities, cultures crushed by tourist development, and agribusiness and lush landscapes destroyed by the devastation of natural resources. The literature reveals that few analysts have examined the middle distance between metropolis and countryside. The contributors to this book have addressed the issue by concentrating on the intermediate level of economic, political, and social life--the world of Thailand's provincial cities and market towns. In the past decade the rise of frequently violent competition for business and political leadership in the Thai provinces, and the growing importance of provincial support for national powerholders, has drawn attention to the way in which these town and village centers are being transformed by capitalist development. This volume brings together some of the research inspired by this, drawing on a variety of disciplinary approaches, national backgrounds, and sites of study. Contributors: Daniel Arghiros, Chris Baker, Sombat Chantornvong, Kevin Hewison, Jim LoGerfo, Ruth McVey, Michael J. Montesano, James Ockey, Pasuk Phongpaichit, Maniemai Thongyou, Yoko Ueda.

Recapitalizing Banking Systems Patrick Honohan,2001 After a banking crisis, when authorities have decided to use budgetary funds to help restructure a large failed bank or banking system, apparent conflicts between various goals (involving incentives for the new bank management, for the government's budget, and for monetary stability) can be resolved by suitably designing financial instruments and appropriately allocating responsibility between different arms of government.

Finance and Development in Thailand Alek Aron Rozental,1970 Description and analysis of the financial structure in Thailand. The author recommends modifications and reforms therein, stressing that in the future greater emphasis must be placed on developing a viable Thai manufacturing base with less stress on the financing of trade.

ASEAN Regional Financial Cooperation Developments in Banking and Finance Michael T. Skully,1979 Though political and trade matters have generally received the greatest attention in ASEAN related discussions, cooperation in ASEAN banking and financial matters is increasingly cited as a major goal. A variety of regional efforts having been made at both government and private sector levels, this paper examines some of these developments to date, surveying not only the government and industry or professional association activities but also the efforts of foreign and local owned firms as well as the importance of the Asian Dollar Market in this development. Finally, from the comparison of the individual ASEAN members' financial sectors, some of the difficulties that lie ahead in the area of ASEAN financial cooperation are discussed.

ASEAN Financial Co-Operation Michael T. Skully,1985-06-18

Corporate Governance of Banks in Asia: A study of Indonesia, Republic of Korea, Malaysia and Thailand Sang-Woo Nam,Chee Soon Lum,2006

Thailand:Financial Sector Reform and the East Asian Crises Tull Traisaorat,2000-02-23 This book takes as its focus the current supervisory and regulatory framework for bank supervision in Thailand and the Thai authorities' efforts to modernise and restructure the Thai banking system. It examines the obstacles to this restructuring, which include the current economic difficulties in Thailand and the East Asia region as well as more fundamental historical, cultural and socio-economic factors that underpin Thai society. The book looks at the numerous banking statutes put in place in Thailand in the past sixty years, including legislation of the 1980s in response to problems involving fraud, insider dealing and solvency concerns. It examines how historically ambiguous structures of governmental responsibility and power, and a heavy emphasis on government discretion in regulation, have so far inhibited the effectiveness of this extensive body of legislation in developing a sound modern banking system. There follows an in-depth analysis of the 1997-1998 Thai Banking Crisis and ways in which lessons can be learned to avoid similar crises in future. The author argues for a greater degree of transparency in the regulatory process to bring it into line with internationally accepted standards, for increased supervisory implementation and enforcement by Thai governmental authorities, and for the ultimate depoliticisation of the bank regulatory and supervisory processes.

Thailand, Economy and Politics Pasuk Phongpaichit,Christopher John Baker,2002 The original edition of this book, published in 1995, was the first full-length study of Thailand's modern economy and politics. This edition is a major revision, incorporating new research, and bringing the account up to the start of the millennium. The focus is on recent decades, set in a deeper historical context of Siam in the Bangkok era.
