The BBC David Hendy, 2022-03-29 The first in-depth history of the iconic radio and TV network that has shaped our past and present. Doctor Who; tennis from Wimbledon; the Beatles and the Stones; the coronation of Queen Elizabeth and the funeral of Diana, Princess of Wales: for one hundred years, the British Broadcasting Corporation has been the preeminent broadcaster in the UK and around the world, a constant source of information, comfort, and entertainment through both war and peace, feast and famine. The BBC has broadcast to over two hundred countries and in more than forty languages. Its history is a broad cultural panorama of the twentieth century itself, often, although not always, delivered in a mellifluous Oxford accent. With special access to the BBC's archives, historian David Hendy presents a dazzling portrait of a unique institution whose cultural influence is greater than any other media organization. Mixing politics, espionage, the arts, social change, and everyday life, *The BBC* is a vivid social history of the organization that has provided both background commentary and screen-grabbing headlines—woven so deeply into the culture and politics of the past century that almost none of us has been left untouched by it.

Beethoven John Suchet, 2013-12-02 “An ideal ‘first book’ on Beethoven” from one of the world's most eminent classical music aficionados (Booklist). Beethoven scholar and classical radio host John Suchet has had a lifelong, ardent interest in the man and his music. Here, in his first full-length biography, Suchet illuminates the composer's difficult childhood, his struggle to maintain friendships and romances, his ungovernable temper, his obsessive efforts to control his nephew's life, and the excruciating decline of his hearing. This absorbing narrative provides a comprehensive account of a momentous life, as it takes the reader on a journey from the composer's birth in Bonn to his death in Vienna. Chronicling the landmark events in Beethoven's career—from his competitive encounters with Mozart to the circumstances surrounding the creation of the well-known “Für Elise” and Moonlight Sonata—this book enhances understanding of the composer's character, inspiring a deeper appreciation for his work. Beethoven scholarship is constantly evolving, and Suchet draws on the latest research, using rare source material (some of which has never before been published in English) to paint a complete and vivid portrait of the legendary prodigy. “A gripping and thought-provoking read.” —Howard Shelley, pianist and conductor “By exercising a genuine authority in identifying how Beethoven, the man, manifests himself in our appreciation of the music, Suchet brings an incisive freshness to an extraordinary life.” —Jonathan Freeman-Attwood, Principal of the Royal Academy of Music

Breaking News Jeremy Thompson, 2017-11-14 Until his retirement at the end of 2016, Jeremy Thompson was one of the longest-serving journalists and news anchors in the UK. During a forty-year career in television news, Thompson gained a reputation as the consummate broadcaster, latterly as the anchor of Sky News' early evening programme, though as frequently broadcasting on location from the heart of the story. Thompson worked for all the major news broadcasters in the UK: the BBC, ITV and finally Sky, where he started as a foreign correspondent in 1993. He covered many of the most important news events of our time and reported from all over the world, picking up countless awards for his work. The first TV journalist to broadcast live as British peacekeeping forces arrived in Kosovo, he also covered the first Gulf War

and, in 2003, anchored Sky News' coverage of the second Gulf War from Iraq. There he presented every night for a month on the front line and was the first anchor to present from inside Baghdad. He was also in South Africa to cover the death of Nelson Mandela and the murder trial of Oscar Pistorius. This extraordinary book tells the life story of one of the nation's most popular broadcasters.

The Uncommon Reader Alan Bennett, 2007-09-18 From one of England's most celebrated writers, a funny and superbly observed novella about the Queen of England and the subversive power of reading. When her corgis stray into a mobile library parked near Buckingham Palace, the Queen feels duty-bound to borrow a book. Discovering the joy of reading widely (from J. R. Ackerley, Jean Genet, and Ivy Compton-Burnett to the classics) and intelligently, she finds that her view of the world changes dramatically. Abetted in her newfound obsession by Norman, a young man from the royal kitchens, the Queen comes to question the prescribed order of the world and loses patience with the routines of her role as monarch. Her new passion for reading initially alarms the palace staff and soon leads to surprising and very funny consequences for the country at large. With the poignant and mischievous wit of *The History Boys*, England's best loved author Alan Bennett revels in the power of literature to change even the most uncommon reader's life.

Should appeal to readers who enjoy the *Captain Underpants* and *Wimpy Kid* series.†? - School Library Connection When Murph Cooper begins his new school several weeks into the year, he can't help but feel a bit out of his depth. And it's not because he's worried about where to sit, making friends, and fitting in. It's because his mom has accidentally enrolled him at a school for superheroes. And unlike his fellow students, who can control the weather or fly or conjure tiny horses from thin air, Murph has no special abilities whatsoever. But Murph's totally normal abilities might just be what the world needs. Because not far away is a great big bad guy who is half man and half wasp, and his mind is abuzz with evil plans . . . and when he comes after the best and the brightest, it's up to Murph to be the real hero. With black-and-white illustrations throughout, this laugh-out-loud story proves that heroes come

in all shapes and sizes.

The Burning Land George Alagiah, 2019-08-29 'Gripping' Guardian 'Pacy and stylish' Jeremy Vine 'It was never meant to be like this. Sabotage, yes. Propaganda, yes. All of that and more - but not this. Not murder.' South Africa has become a powder keg. Its precious land is being sold off to the highest bidders while the country's corrupt elite pocket the profits. As the dreams and hopes of its people are threatened, frustration turns to violence. With the shocking murder of one of the country's bright young hopes, the fuse is well and truly lit. Conflict mediator Lindi and her childhood friend Kagiso find themselves in the heart of the chaos, fighting to save themselves and their country as events are set in motion that no one - least of all they - can control.

The Teacher Who Couldn't Read John Corcoran, 2017-12-29 The Teacher Who Couldn't Read is John Corcoran's life story of how he struggled through school without the basic skills of how to read or write and went on to become a college graduate and a high school teacher, still without these basic skills. National literacy advocate John Corcoran continues to help bring illiteracy out of the shadows with this autobiography, The Teacher Who Couldn't Read. It is the amazing true story of a man who triumphed over his illiteracy and who has become one of the nation's leading literacy advocates. His shocking and emotionally moving story - from being a child who was failed by the system, to an angry adolescent, a desperate college student, and finally an emerging adult reader - touched audiences of such national television shows as the Oprah Winfrey Show, 20/20, the Phil Donahue Show, and Larry King Live. His story was also featured in national magazines such as Esquire, Biography, Reader's Digest, and People. The Teacher Who Couldn't Read is a gripping tale of triumph over America's national literacy crisis -- a story you'll thoroughly enjoy while being enlightened to a national tragedy.

The Almighty Dollar Dharshini David, 2018-08 The dollar is the lifeblood of globalisation: China holds billions in reserve for good reason. Greenbacks, singles, bucks or dead presidents, call them what you will, \$1.2 trillion worth are floating around right now - and half the dollars in circulation are actually outside of the USA. But what is really happening as these billions of dollars go around the world every day? By following \$1 from a shopping trip in suburban Texas, via China's Central Bank, Nigerian railroads, the oil fields of Iraq and beyond, The Almighty Dollar answers questions such as: why is China the world's biggest manufacturer - and the US its biggest customer? Is free trade really a good thing? Why would a nation build a bridge on the other side of the globe? In lively and entertaining prose Dharshini David lays bare these complex interrelationships through the simple story of one dollar as it moves through the opaque international system. This is essential reading that gets to the heart of how our new globalised world really works.

The style of writing engages the reader from the introduction and the experience and insight of the author occasionally makes it difficult to put down, a rare feature of a textbook. Barry Turner, Nottingham Trent University 'Rick Thompson's guidance manual is packed with advice to would-be writers for this medium. He's someone with years of experience at the top level of the national and international profession, and he's smack up to date with his references. The Voice, the Face Martin Muncaster,2021-11-30 This is a quite extraordinary story. Martin Muncaster describes his life experiences in a way which has surprises in every chapter. He writes in detail, often with very personal and emotional descriptions, about many aspects of his family. The book starts with a life-threatening road accident followed by even more challenging incidents. He goes on to describe how, as a young man from a somewhat aristocratic family background, he had to adjust himself to life on the 'lower deck' for part of his National Service in the Royal Navy, but eventually, after much hard work and perseverance, acquired the coveted commission (and cap badge!). And it was this same determination and personal strength which carried him through the ups and downs of his life and his career in broadcasting. Along the way, there are many lighter anecdotes, starting from his early days at stage school, then working as an actor in Canada before returning to pursue his career in television and radio. As a well-known presenter, he had an insight into the world of both commercial television and the BBC, and he describes his encounters with many well-known people including Sir Laurence Olivier and Richard Dimbleby. In the background throughout the book is the inspiration provided by his father, the renowned marine and landscape artist, Claude Muncaster. There are also vivid descriptions of travel experiences in South Africa, Canada and Scotland, but it is all interspersed with family and personal tragedies which remind the reader that even familiar faces and voices have another private life we don't know of.
