Global Asian American Popular Cultures Shilpa Dave, Leilani Nishime, Tasha Oren, 2016-05-16 Asian Americans have long been the subject and object of popular culture in the U.S. The rapid circulation of cultural flashpoints--such as the American obsession with K-pop sensations, Bollywood dance moves, and sriracha hot sauce--have opened up new ways of understanding how the categories of "Asian" and "Asian American" are counterbalanced within global popular culture. Located at the crossroads of these global and national expressions, *Global Asian American Popular Cultures* highlights new approaches to modern culture, with essays that explore everything from music, film, and television to comics, fashion, food, and sports. As new digital technologies and cross-media convergence have expanded exchanges of transnational culture, Asian American popular culture emerges as a crucial site for understanding how communities share information and how the meanings of mainstream culture shift with technologies and newly mobile sensibilities. Asian American popular culture is also at the crux of global and national trends in media studies, collapsing boundaries and acting as a lens to view

the ebbs and flows of transnational influences on global and American cultures. Offering new and critical analyses of popular cultures that account for emerging textual fields, global producers, technologies of distribution, and trans-medial circulation, this ground-breaking collection explores the mainstream and the margins of popular culture.

**Gurus and Media** Jacob Copeman, Arkotong Longkumer, Koonal Duggal, 2023-09-25  
Gurus and Media is the first book dedicated to media and mediation in domains of public guruship and devotion. Illuminating the mediatisation of guruship and the guru-isation of media, it bridges the gap between scholarship on gurus and the disciplines of media and visual culture studies. It investigates guru iconographies in and across various time periods and also the distinctive ways in which diverse gurus engage with and inhabit different forms of media: statuary, games, print publications, photographs, portraiture, films, machines, social media, bodies, words, graffiti, dolls, sound, verse, tombs and more. The book's interdisciplinary chapters advance, both conceptually and ethnographically, our understanding of the function of media in the dramatic production of guruship, and reflect on the corporate branding of gurus and on mediated guruship as a series of aesthetic traps for the captivation of devotees and others. They show how different media can further enliven the complex plurality of guruship, for instance in instantiating notions of 'absent-present' guruship and demonstrating the mutual mediation of gurus, caste and Hindutva. Throughout, the book foregrounds contested visions of the guru in the development of devotional publics and pluriform guruship across time and space. Thinking through the guru's many media entanglements in a single place, the book contributes new insights to the study of South Asian religions and to the study of mediation more broadly. Praise for Gurus and Media 'Sight, sound, image, narrative, representation and performance in the complex world of gurus are richly illuminated and deeply theorised in this outstanding volume. The immensely important, but hitherto under-explored, visual and aural dimensions of guruship across several religious traditions have received path-breaking and wide-ranging treatment by best-known experts on the subject.' Nandini Gooptu, University of Oxford 'Gurus and Media casts subtle light on a phenomenon that too often shines so brightly that it is hard to see. This collection is a tremendously rich resource for anyone trying to make sense of that ambiguous zone where authority appears at once as seduction and as salvation, as comfort and as terror.' William Mazzarella, University of Chicago 'This remarkable collection uses the figure of the mass-mediated guru to throw light on how modern Hindu mobilization generates a highly diverse set of religious charismatics in India. Because of the diversity of the contributors to this volume, the book is also a moveable feast of cases, methods and cultural styles in a major cultural region.' Arjun Appadurai, Emeritus Professor of Media, Culture and Communication, New York University

*Mediated Intimacies* Rikke Andreassen, Michael Nebeling Petersen, Katherine Harrison, Tobias Raun, 2017-10-30  
Social media, characterized by user-generated content, interactivity, participation and community formation, have gained much research attention in recent years. At the same time, intimacy, affectivity and emotions are increasingly growing as fields of study. While these two areas are often interwoven, the actual interconnections are rarely studied in detail. This anthology explores how social media construct new types of intimacies, and how practices of intimacy shape the development and use of new media, offering empirical knowledge, theoretical insights and an

international perspective on the flourishing field of digital intimacies. Chapters present a range of research tools used, such as interviews, online ethnography, visual analysis, text analysis and video analysis. There is also rich variation in sources for the empirical material studied, including Tumblr, YouTube, dating sites, hook-up sites, Facebook, Snapchat, Couchsurfing, selfies, blogs and photographs, as well as smartphones, tablets and computers. By focusing on the intersection between social media and intimacies, and their continuous co-constitution, this anthology offers new insights into the vast landscape of contemporary media reality. It will be a valuable resource for teachers, students and scholars with an interest in new media, communication, intimacy and affectivity.

#### **Discourses of Authenticity on YouTube** Georgia

Riboni, 2020-08-25T00:00:00+02:00 This book explores the discourse of authenticity on the popular social media platform YouTube. It investigates how popular users negotiate their identity and discursively portray themselves as authentic in their videos. In so doing, it adds to the development of new perspectives on social media communication and offers an outlook on issues concerning the complexities of contemporary identity practices. Starting from the premise that authenticity is a discursive construction, the study adopts a linguistics-based approach and relies on a hybrid methodological toolkit that draws on the analytical tools provided by Social Media Critical Discourse Studies (SM-CDS), a newly-introduced framework comprised of different but interconnected levels of description. The volume presents three case studies which investigate the discursive and rhetorical strategies used by well-known users in order to come across as authentic. Videos produced by popular content creators belonging to different communities of practice (scientists, stay-at-home mothers, and makeup artists) are explored. The analysis reveals that they share a common set of identity characteristics, a common core of authentic traits famous YouTubers conventionally display to discursively depict themselves as genuine and credible.
