**The Blog That Became a Book** Edward Trice, 2013-10-31 This book began as a series of posts on my blog/website [edwardsjournal.com](http://edwardsjournal.com) in April 2008. Spirited by the need to vent my frustrations with daily life, the posts expanded in choice of subjects. The elections and events of that year, economic collapse, disturbing lies with a horrific war all provided ample fuel to blog. The posting dates provided a running factual history of occurrences as I saw them then. The events from the beginning to the present has been a treasure chest to look back on and a reference for what is truly problematic to all of us. Reaching every concern of my life, especially democratic issues, sports, my journal became more personally therapeutic with each and every post. These blogs reflect my humble understanding of our world and it's events. With as much gratitude and appreciation to my readers that can be imagined for finding the time to read and consider it's content , I offer my book from my blog

**Hadleyville Nights** M. Wilhoit, 2007-07 Maybe, eventually, I'll get some idea of who I am. Where I am. What I am. That's bound to be a good thing. Hadleyville is a small east-Tennessee mountain town, and Heathcliff Vanlandingham is a country boy with a wealthy father, a mother who loved Bronte, and a wife who equates sex with wine tasting. Cliff has a keen sense of humor and an even disposition, but lately, his patience is wearing thin with his open marriage to the beautiful Catherine. Her sexual exploits are a little too frequent for his liking, and he's tired of trying to fix their relationship. Trying to understand how he landed in this situation, Cliff starts a blog to examine his past, present, and future. The Internet is a new and fascinating place, and he soon finds that it is influencing his outlook. His real world seems to have become as dramatic as the online one, and Cliff has a few choices to make, ones that could determine his future happiness .

*A Century of Lithuanians in Springfield, Illinois* Sandra Baksys, 2015-09-09 Real-life stories and hundreds of images put a face on twentieth-century immigrant life in the U.S. coal belt. Almost as soon as thousands of impoverished, rural Lithuanians poured into Central Illinois at the turn of the twentieth century, the coal-mining jobs for which they came began to dry up. This is their story of survival in the face of the Central Illinois Mine Wars and the Great Depression--and an immigrant dream deferred. It is also the story of a second wave of Lithuanian refugees these first-wave immigrants sponsored after World War II. Based on primary source interviews and newspaper and public records research. Written by a former journalist, with historical background to provide context for the two distinct waves of Lithuanian immigration to the U.S. and continuing ties with the homeland as Lithuania experienced two world wars, two successful independence movements, an interwar period of statehood, and the loss and re-establishment of independence after 50 years of Soviet occupation--all in less than 100 years. An all-in-one primer, written in journalistic style, for anyone with Lithuanian roots or anyone interested in twentieth-century European immigration to the U.S. With professional page design. 275 pages, B&W.

Once Upon a Blog Jim Burns, 2017-11-10 This book contains the author's online writings, known as the blog Jim's Observations, at <http://jimsobservations.com/>. While the blog continues to grow and evolve, the book provides a record of the first 36 postings, from August 2013 to September 2014. The postings are grouped in three principal categories: Other Times, imparting some flavor of earlier cultures. The coverage thus far deals with the lives and thoughts of two ancient Romans, a child of the 1930s, and a man of the previous generation, 1884-1954. Travel Adventures, some of them unusual activities, such as a spy mission, atomic weapons tests, and front-line operations during wartime. Others were visits to exotic places that few Americans have seen, such as Alaskan

glaciers, a Persian carpet factory, and the floating market of Bangkok. All are drawn from the author's career as a geologist. Politics, facts and opinions previously published as newspaper Letters to the Editor. This book is also available in color as a paperback and Kindle e-book.

Plants of the San Francisco Bay Region Linda H. Beidleman, Eugene N. Kozloff, 2003 Plants of the San Francisco Bay Region is a user-friendly guide with excellent photographs that fills an important need in the botanical community locally. A good guide for students and beginning nature lovers, though even sophisticated plant enthusiasts will consult it for its easy style and useful photos.--Frank Almeda, California Academy of Sciences

Miss Benson's Beetle Rachel Joyce, 2020-11-03 NEW YORK TIMES BESTSELLER • “A beautifully written, extraordinary quest in which two ordinary, overlooked women embark on an unlikely scientific expedition to the South Seas.”—Helen Simonson, author of *Major Pettigrew’s Last Stand* WINNER OF THE WILBUR SMITH ADVENTURE WRITING PRIZE • From the bestselling author of *The Unlikely Pilgrimage of Harold Fry* comes an uplifting, irresistible novel about two women on a life-changing adventure, where they must risk everything, break all the rules, and discover their best selves—together. She’s going too far to go it alone. It is 1950. London is still reeling from World War II, and Margery Benson, a schoolteacher and spinster, is trying to get through life, surviving on scraps. One day, she reaches her breaking point, abandoning her job and small existence to set out on an expedition to the other side of the world in search of her childhood obsession: an insect that may or may not exist—the golden beetle of New Caledonia. When she advertises for an assistant to accompany her, the woman she ends up with is the last person she had in mind. Fun-loving Enid Pretty in her tight-fitting pink suit and pom-pom sandals seems to attract trouble wherever she goes.

But together these two British women find themselves drawn into a cross-ocean adventure that exceeds all expectations and delivers something neither of them expected to find: the transformative power of friendship. Praise for Miss Benson's Beetle "A hilarious jaunt into the wilderness of women's friendship and the triumph of outrageous dreams."—Kirkus Reviews

*I Was Flesh Gordon* Jason Williams, Derek McCaw, 2018-07-10 Hollywood, the 1970s. Jason Williams, a former college athlete from very conservative Orange County, hopes to become a film actor in a town where everyone's looking for a break. He jumps at the chance for the lead in a science fiction parody, an X-rated (later R) spoof of Flash Gordon. Sure, he has to get naked on camera—but so do lots of cute girls. He has no idea the production will be the start of an odyssey that will take him through the highs and lows of Tinseltown, and make him the most known unknown in movies—Flesh Gordon!.

**The Last Hour of Gann** R. Smith, 2018-09-11 It was her last chance: Amber Bierce had nothing left except her sister and two tickets on Earth's first colony-ship. She entered her Sleeper with a five-year contract and the promise of a better life, but awakened in wreckage on an unknown world. For the survivors, there is no rescue, no way home and no hope until they are found by Meoraq—a holy warrior more deadly than any hungry beast on this hostile new world...but whose eyes show a different sort of hunger when he looks at her. It was his last year of freedom: Uyane Meoraq is a Sword of Sheul, God's own instrument of judgment, victor of hundreds of trials, with a conqueror's rights over all men. Or at least he was until his father's death. Now, without divine intervention, he will be forced to assume stewardship over House Uyane and lose the life he has always known. At the legendary temple of Xi'Matezh, Meoraq hopes to find the deliverance he seeks, but the humans he encounters on his pilgrimage may prove too great a test even for him...especially the one called

Amber, behind whose monstrous appearance burns a woman's heart unlike any he has ever known. From R. Lee Smith, author of *Heat and Cottonwood*, comes an epic new story of desire, darkness and the dawn that comes after *The Last Hour of Gann*.

The Hartfield Inheritance Elizabeth Hawksley, 1996-01 Merab Eliza Hartfield might be practically penniless amid all the elegance of Georgian Bath, but she certainly does not intend to submit to the outrageous conditions of her grandfather's will by marrying the rude and overbearing Rowland Sandiford.

My Family and Other Animals Gerald Durrell, 2011-04-07 'What we all need,' said Larry, 'is sunshine . . . a country where we can grow.' 'Yes, dear, that would be nice,' agreed Mother, not really listening. 'I had a letter from George this morning - he says Corfu's wonderful. Why don't we pack up and go to Greece?' 'Very well, dear, if you like,' said Mother unguardedly. Escaping the ills of the British climate, the Durrell family - acne-ridden Margo, gun-toting Leslie, bookworm Lawrence and budding naturalist Gerry, along with their long-suffering mother and Roger the dog - take off for the island of Corfu. But the Durrells find that, reluctantly, they must share their various villas with a menagerie of local fauna - among them scorpions, geckos, toads, bats and butterflies. Recounted with immense humour and charm *My Family and Other Animals* is a wonderful account of a rare, magical childhood. 'Durrell has an uncanny knack of discovering human as well as animal eccentricities' *Sunday Telegraph*

Hey Jude Chuck Neighbors, 2021-04-13 Jude has an active imagination and loves to learn new things. When he finds out his name is also the title of a famous song his imagination goes wild. He dreams of making music and saving the world as a superhero called Beetleman. He is an inspiration for all of us, reminding us to chase our dreams and make the world a better place. Written from

Jude's point of view, Hey Jude looks inside the mind of child as they see and hear the things adults say, and then interpret those things based on their limited understanding of words and life experience. The results are often humorous and heartwarming. Parents and teachers will value the lessons in this book about: Using Your Imagination Confidence and Self Esteem Love of Family And, of course, this book is a great way to introduce a child to the music of The Beatles!

**Move Under Ground** Nick Mamatas, 2020-06-17 Readers will be enthralled, chilled, and astonished. -- Tom Piccirilli, author of A Choir of Ill Children. In the first of many references to H. P. Lovecraft's The Call of Cthulhu, this thoroughly unique novel begins with the rise of the lost city of R'lyeh, portending certain doom for human existence. The witness to this deadly harbinger is Jack Kerouac, who recruits fellow beats Neal Cassady and William S. Burroughs for a cross-country road trip that will climax in a confrontation with a murderous cult.

*The Durrells of Corfu* Michael Haag, 2017-04-20 The Durrell family are immortalised in Gerald Durrell's My Family and Other Animals and its ITV adaptation, The Durrells. But what of the real life Durrells? Why did they go to Corfu in the first place - and what happened to them after they left? The real story of the Durrells is as surprising and fascinating as anything in Gerry's books, and Michael Haag, with his first hand knowledge of the family, is the ideal narrator, drawing on diaries, letters and unpublished autobiographical fragments. The Durrells of Corfu describes the family's upbringing in India and the crisis that brought them to England and then Greece. It recalls the genuine characters they encountered on Corfu - Theodore the biologist, the taxi driver Spiro Halikiopoulos and the prisoner Kosti - as well as the visit of American writer Henry Miller. And Haag has unearthed the story of how the Durrells left Corfu, including Margo's and Larry's last-minute escapes before the War. An extended epilogue looks at the emergence of Larry as a world famous

novelist, and Gerry as a naturalist and champion of endangered species, as well as the lives of the rest of the family, their friends and other animals. The book is illustrated with family photos from the Gerald Durrell Archive, many of them reproduced here for the first time.

*The Lie Tree* Frances Hardinge, 2016-04-19 Costa Book of the Year: This novel of science, magic, murder, and a determined Victorian-era teenager is a “heady concoction . . . absolutely unforgettable” (Kirkus Reviews, starred review). Faith Sunderly leads a double life. To most people, she is modest and well mannered—a proper young lady who knows her place. But inside, Faith is burning with questions and curiosity. She keeps sharp watch of her surroundings and, therefore, knows secrets no one suspects her of knowing—like the real reason her family fled to the close-knit island of Vane. And that her father’s death was no accident. In pursuit of revenge and justice for the father she idolizes, Faith hunts through his possessions, where she discovers a strange tree. A tree that bears fruit only when she whispers a lie to it. The fruit, in turn, delivers a hidden truth. The tree might hold the key to her father’s murder. Or, it might lure the murderer directly to Faith herself, for lies—like fires, wild and crackling—quickly take on a life of their own. “Frances Hardinge has joined the ranks of those writers of young-adult fiction, like Philip Pullman, whose approach to fantasy proves so compelling that they quickly develop an adult following, and *The Lie Tree* is a good demonstration of why this is so . . . [a] page-turner.” —Locus “The time is nineteenth-century England just after Darwin’s theory of evolution has thrown the scientific world into turmoil; the setting is the fictional island of Vane, between land and sea; the main character is a fourteen-year-old girl caught between society’s expectations and her fierce desire to be a scientist. . . . A stunner.” —The Horn Book (starred review) “A murder mystery that dazzles at every level, shimmering all the more brightly the deeper down into it you go.” —Chicago Tribune “Haunting, and darkly funny . . .

features complex, many-sided characters and a clear-eyed examination of the deep sexism of the period, which trapped even the most intelligent women in roles as restrictive as their corsets.” —Publishers Weekly (starred review) “Hardinge, who can turn a phrase like no other, melds a haunting historical mystery with a sharp observation on the dangers of suppressing the thirst for knowledge.” —School Library Journal (starred review)

*Into Thin Air* Jon Krakauer,1998-11-12 #1 NATIONAL BESTSELLER • The epic account of the storm on the summit of Mt. Everest that claimed five lives and left countless more—including Krakauer's—in guilt-ridden disarray. A harrowing tale of the perils of high-altitude climbing, a story of bad luck and worse judgment and of heartbreaking heroism. —PEOPLE A bank of clouds was assembling on the not-so-distant horizon, but journalist-mountaineer Jon Krakauer, standing on the summit of Mt. Everest, saw nothing that suggested that a murderous storm was bearing down. He was wrong. By writing *Into Thin Air*, Krakauer may have hoped to exorcise some of his own demons and lay to rest some of the painful questions that still surround the event. He takes great pains to provide a balanced picture of the people and events he witnessed and gives due credit to the tireless and dedicated Sherpas. He also avoids blasting easy targets such as Sandy Pittman, the wealthy socialite who brought an espresso maker along on the expedition. Krakauer's highly personal inquiry into the catastrophe provides a great deal of insight into what went wrong. But for Krakauer himself, further interviews and investigations only lead him to the conclusion that his perceived failures were directly responsible for a fellow climber's death. Clearly, Krakauer remains haunted by the disaster,

and although he relates a number of incidents in which he acted selflessly and even heroically, he seems unable to view those instances objectively. In the end, despite his evenhanded and even generous assessment of others' actions, he reserves a full measure of vitriol for himself. This updated trade paperback edition of *Into Thin Air* includes an extensive new postscript that sheds fascinating light on the acrimonious debate that flared between Krakauer and Everest guide Anatoli Boukreev in the wake of the tragedy. I have no doubt that Boukreev's intentions were good on summit day, writes Krakauer in the postscript, dated August 1999. What disturbs me, though, was Boukreev's refusal to acknowledge the possibility that he made even a single poor decision. Never did he indicate that perhaps it wasn't the best choice to climb without gas or go down ahead of his clients. As usual, Krakauer supports his points with dogged research and a good dose of humility. But rather than continue the heated discourse that has raged since *Into Thin Air*'s denouncement of guide Boukreev, Krakauer's tone is conciliatory; he points most of his criticism at G. Weston De Walt, who coauthored *The Climb*, Boukreev's version of events. And in a touching conclusion, Krakauer recounts his last conversation with the late Boukreev, in which the two weathered climbers agreed to disagree about certain points. Krakauer had great hopes to patch things up with Boukreev, but the Russian later died in an avalanche on another Himalayan peak, Annapurna I. In 1999, Krakauer received an Academy Award in Literature from the American Academy of Arts and Letters--a prestigious prize intended to honor writers of exceptional accomplishment. According to the Academy's citation, Krakauer combines the tenacity and courage of the finest tradition of investigative journalism with the stylish subtlety and profound insight of the born writer. His account of an ascent of Mount Everest has led to a general reevaluation of climbing and of the commercialization of what was once a romantic, solitary sport; while his account of the life and

death of Christopher McCandless, who died of starvation after challenging the Alaskan wilderness, delves even more deeply and disturbingly into the fascination of nature and the devastating effects of its lure on a young and curious mind.

*Attack of the Valley Girls* Greg Trine, 2008-05-27 Valley Girls Chantele and Brittany, under the influence of a mad scientist's evil potion, hatch a plan to take over the city by kidnapping the mayor's wiener dog, Schnitzel, but Melvin and his partner in uncrime, Candace, are on their trail.

**What's Bugging You?** Arthur V. Evans, 2008 We are told from the time we are children that insects and spiders are pests, when the truth is that most have little or no effect on us--although the few that do are often essential to our existence. Arthur Evans suggests we take a closer look at our slapped-at, stepped-on, and otherwise ignored cohabitants, who vastly outnumber us and whose worlds often occupy spaces that we didn't even know existed. *What's Bugging You?* brings together fifty unforgettable stories from the celebrated nature writer and entomologist's popular Richmond Times-Dispatch column. Evans has scoured Virginia's wild places and returned with wondrous stories about the seventeen-year sleep of the periodical cicadas, moths that evade hungry bats by sensing echolocation signals, and the luminous language of light employed by fireflies. He also visits some not-so-wild places: the little mounds of upturned soil scattered along the margins of soccer fields are the dung beetle's calling card. What does the world look like to a bug? Evans explores insect vision, which is both better, and worse, than that of humans (they are capable of detecting ultraviolet light, but many cannot see the color red), pausing to observe that it is its wide-set forward-looking eyes that imbue the praying mantis with personality. He is willing to defend such oft-maligned creatures as the earwig, the tent caterpillar, and the cockroach--revealed here as a valuable scavenger, food source for other animals, and even a pollinator, that spends more time

grooming itself than it does invading human space. Evans's search for multilegged life takes him to an enchanting assortment of locations, ranging from gleaming sandy beaches preferred by a threatened tiger beetle to the shady, leaf-strewn forest floors where a centipede digs its brood chamber--to a busy country road where Evans must dodge constant foot and vehicular traffic to photograph a spider wasp as it claims its paralyzed prey. His forays also provide the reader with a unique window on the cycles of nature. What Evans refers to as the FBI--fungus, bacteria, insects--are the chief agents in decomposition and a vital part of regeneration. Evans also takes on many issues concerning humans' almost always destructive interaction with insect life, such as excessive mowing and clearing of wood that robs wildlife of its food and habitat, as well as harmful bug zappers that kill everything but mosquitoes. The reader emerges from this book realizing that even seemingly mundane forms of insect and spider life present us with unexpected beauty and fascinating lifestyles.
