Paleoecology of Beringia David M. Hopkins, John V. Matthews, Charles E. Schweger, 2013-09-17
Paleoecology of Beringia is the product of a symposium organized by its editors, sponsored by the Wenner-Gren Foundation for Anthropological Research, and held at the foundation's conference center in Burg Wartenstein, Austria, 8-17 June 1979. The focus of this volume is on the paradox central to all studies of the unglaciated Arctic during the last Ice Age: that vertebrate fossils indicate that from 45,000 to 11,000 years BP an environment considerably more diverse and productive than the present one existed, whereas the botanical record, where it is not silent, supports a far more conservative appraisal of the region's ability to sustain any but the sparsest forms of plant and animal life. The volume is organized into seven parts. Part 1 focuses on the paleogeography of the Beringia. The studies in Part 2 explore the ancient vegetation. Part 3 deals with the steppe-tundra concept and its application in Beringia. Part 4 examines the paleoclimate while Part 5 is devoted to the biology of surviving relatives of the Pleistocene ungulates. Part 6 takes up the presence of man in ancient Beringia. Part 7 assesses the paleoecology of Beringia during the last 40,000 years

Elements of a Science Plan for the North Pacific Research Board National Research

Council,Polar Research Board,Ocean Studies Board,Committee on a Science Plan for the North Pacific Research Board,2004-04-06 The North Pacific Research Board (NPRB) was established in 1997 as custodian to a pool of funds intended for the study of the North Pacific Ocean, Bering Sea, and Arctic Ocean. The success of the NRPB is the development of a high quality, long-range science plan that provides a better understanding of ecosystems and their fisheries in the region. This report provides a framework to help the NPRB identify appropriate science themes and mechanisms for administering and distributing the funds. It contains extensive input from residents of Alaskan communities, to help scientists understand and address issues of importance to the local communities. The book makes specific recommendations on long-term research priorities, the NPRB management structure and the development of future programs.

Alaska Native Tribes,ANCSA Corporations, and Other Organizations Lydia

Hays,2015-07-13 Learn about Alaska's unique indigenous people who have lived thousands of years in a subsistence economy and unconquered. See how today's Alaska Native people exhibit remarkable resilience and adaptability despite the arrival of foreigners to Alaska in the mid-1700s, who sought natural resources and brought death and disease that claimed many indigenous lives. Clear descriptions, facts, charts, lists, and maps tell about the 230 Alaska Native tribes and more than 350 Alaska Native-owned for profit and nonprofit organizations that have emerged over the past 65 years. A stunning 25,000 year timeline depicts archeological sites which helped provide the basis for aboriginal land rights in the historic Alaska Native Land Claims Settlement in 1971. Today, Alaska Native people comprise about 20 percent of Alaska's population and their institutions are a major player in Alaska's diverse economy. Easy to read, you will gain an essential understanding about these modern institutions that have been successfully integrated with traditional subsistence values

and are improving the lives of Alaska Native people and all of Alaska.

Epic of Qayaq Lela Oman, 1995-07-15 This is a splendid presentation of an ancient northern story cycle, brought to life by Lela Kiana Oman, who has been retelling and writing the legends of the Inupiat of the Kobuk Valley, Alaska, nearly all her adult life. In the mid-1940s, she heard these tales from storytellers passing through the mining town of Candle, and translated them from Inupiaq into English. Now, after fifty years, they illuminate one of the world's most vibrant mythologies. The hero is Qayaq, and the cycle traces his wanderings by kayak and on foot along four rivers - the Selawik, the

Kobuk, the Noatak and the Yukon - up along the Arctic Ocean to Barrow, over to Herschel Island in Canada, and south to a Tlingit Indian village. Along the way he battles with jealous fathers-in-law and other powerful adversaries; discovers cultural implements (the copper-headed spear and the birchbark canoe); transforms himself into animals, birds and fish, and meets animals who appear to be human.
