**Big Talk** Laurie Langford, 2009-05-18 A very accessible, step-by-step guide that provides simple yet meaningful ways to discuss this crucial subject. Makes talking about sex easy and opens lines of important communications between parents and children. Bravo! --Rabbi Steven Carr Reuben, Ph.D. author of *Children of Character: Leading Your Children to Ethical Choices in Everyday Life*. Comprehensive, dignified, conscientious, and nurturing...Very worthwhile for teens and their parents. -- Irving N. Klitsner, M.D., F.A.A.P., Founder and former Director, Teen and Young Adult Health Care Center, Kaiser-Permanente of Southern California and Professor of Pediatrics and Adolescent Medicine, USC and UCLA. You know that it's important to talk with your kids about sex. But if you're like most parents, you get tongue-tied just thinking about having the big talk. Even if you know exactly what you'd like to say, you may have no idea when or where to begin, or how to get your message across. This book can help. The Big Talk shows you how to have warm, nurturing conversations about puberty, dating, relationships, and sex. Drawing upon hard-won personal experiences and the experiences of teens and parents whose stories appear throughout this book, Laurie Langford makes communication easy. She shows you how to talk about values and self-respect, setting high standards and sticking to them, and having fun with members of the opposite sex without being pressured into sex too soon. She also supplies sample dialogues, games, role-playing exercises, and other useful tools for breaking the ice and keeping the lines of communications open.

**Turning Small Talk into Big Talk** Jan Janura, 2023-04-11 In Turning Small Talk into Big Talk, Jan Janura helps readers move below the surface and experience deep, meaningful conversations that are not only interesting, but even life-changing. Small talk is awful, awkward, and ultimately useless—and everyone knows it. When is the last time you had a significant conversation with your spouse, your kids, your best friend, your neighbor, or a close business associate? No, not small talk. We do enough of that with our fingers in five-word text “conversations” or in dull, surface-level, face-to-face interactions. Small talk isn't getting us anywhere. What we need today more than ever is “Big Talk,” real conversations in which we dig deep into our souls and discuss intriguing topics that truly shape the world and impact our daily lives. Conversation is undoubtedly the most important part of a relationship, whether it's business, personal, or spiritual. It's the only way to truly get to know someone, and it's the best method in strengthening your bond with a business partner, spouse, friends, your children, and even God. Each of us wants to interact with others, and all of us want to be heard. The conversations we each have can truly change the world—or destroy it—and the words, questions, and answers each of us use (or don't use) can alter our own life and the lives of everyone around us. So, why wouldn't we choose to make our conversations as impactful and memorable as we can? In Turning Small Talk into Big Talk, Jan Janura unpacks the simple, easy-to-apply method he's used throughout his career to turn dinner parties and other gatherings into fun, interesting, sometimes life- and career-changing experiences. If you find yourself desperate for deeper connection in your most important relationships, or if you find yourself responsible for

regularly hosting clients or co-workers, this book is the missing tool in your tackle box!

**The small BIG** Steve J. Martin, Noah Goldstein, Robert Cialdini, 2014-09-09 At some point today you will have to influence or persuade someone – your boss, a co-worker, a customer, client, spouse, your kids, or even your friends. What is the smallest change you can make to your request, proposal or situation that will lead to the biggest difference in the outcome? In *The small BIG*, three heavyweights from the world of persuasion science and practice -- Steve Martin, Noah Goldstein and Robert Cialdini -- describe how, in today's information overloaded and stimulation saturated world, increasingly it is the small changes that you make that lead to the biggest differences. In the last few years more and more research – from fields such as neuroscience, cognitive psychology, social psychology, and behavioral economics – has helped to uncover an even greater understanding of how influence, persuasion and behavior change happens. Increasingly we are learning that it is not information per se that leads people to make decisions, but the context in which that information is presented. Drawing from extensive research in the new science of persuasion, the authors present lots of small changes (over 50 in fact) that can bring about momentous shifts in results. It turns out that anyone can significantly increase his or her ability to influence and persuade others, not by informing or educating people into change but instead by simply making small shifts in approach that link to deeply felt human motivations.

*The Ideal Team Player* Patrick M. Lencioni, 2016-04-25 In his classic book, *The Five Dysfunctions of a Team*, Patrick Lencioni laid out a groundbreaking approach for tackling the perilous group behaviors that destroy teamwork. Here he turns his focus to the individual, revealing the three indispensable virtues of an ideal team player. In *The Ideal Team Player*, Lencioni tells the story of Jeff Shanley, a leader desperate to save his uncle's company by restoring its cultural commitment to teamwork. **We Need to Talk** Celeste Headlee,2017-09-19 "WE NEED TO TALK." In this urgent and insightful book, public radio journalist Celeste Headlee shows us how to bridge what divides us--by having real conversations BASED ON THE TED TALK WITH OVER 10 MILLION VIEWS NPR's Best Books of 2017 Winner of the 2017 Silver Nautilus Award in Relationships & Communication "We Need to Talk is an important read for a conversationally-challenged, disconnected age. Headlee is a talented, honest storyteller, and her advice has helped me become a better spouse, friend, and mother." (Jessica Lahey, author of New York Times bestseller *The Gift of Failure*) Today most of us communicate from behind electronic screens, and studies show that Americans feel less connected and more divided than ever before. The blame for some of this disconnect can be attributed to our political landscape, but the erosion of our conversational skills as a society lies with us as individuals. And the only way forward, says Headlee, is to start talking to each other. In *We Need to Talk*, she outlines the strategies that have made her a better conversationalist--and offers simple tools that can improve anyone's communication. For example: BE THERE OR GO ELSEWHERE. Human beings are incapable of multitasking, and this is especially true of tasks that involve language. Think you can type up a few emails while on a business call, or hold a conversation with your child while texting your spouse? Think again. CHECK YOUR BIAS. The belief that your intelligence protects you from erroneous assumptions can end up making you more vulnerable to them. We all have blind spots that affect the way we view others. Check your bias before you judge someone else. HIDE YOUR PHONE. Don't just put down your phone, put it away. New research suggests that the mere presence of a cell phone can negatively impact the quality of a conversation. Whether you're struggling to communicate with your kid's teacher at school, an employee at work, or the people you love the most--Headlee offers smart strategies that can help us all have conversations that matter.
