### **Birds: Our Fine Feathered Friends: Seen by Sue and**

**Drew** Gene Crumbley, 2022-08-10 This book is about a fictitious girl and boy seeing real birds in their own yard and in other places. The story originated many years ago when the author read a story in *Birds and Blooms* about a man who built a bird feeder for two children, who moved in next door to him, to help them enjoy the many birds that would come to the feeder. The author then attempted to take a picture of each bird he had seen in his lifetime (at this point in time—for ninety-three years) and put them in a book form with an eight-line poem about each bird for children to read and enjoy. Except for Sue and Drew and their mom and dad, the people, places, and circumstances are real, and all the bird pictures were taken by the author himself, unless otherwise noted in the credits. It is his hope that this book will help children of all ages, and adults as well, learn more about God's wonderful and beautiful flying creatures. Enjoy the birds!

*More Tales of the Birds* W. Fowler, 2017-05-23 THE LOVING NATURALIST. MR. WARDE FOWLER has written less and is better known than any other writer of bird books of the present time. This small volume, containing 232 pages in large type, is but the fourth which he has produced on this subject in sixteen years, which would seem to promise a rare excellence in his work; and there is no doubt that it is excellent; but at the same time it must be said that his considerable reputation rests chiefly on his first production, *A Year with the Birds*, one of the very few among scores of books on the same theme which may be read again and again with undiminished pleasure. It is not that he has gathered more than many others who have been with him in the same field: he has indeed gathered less, since the study of bird life is with him but a holiday recreation. It is his manner that is better than theirs. We may say that his merits in this respect are best illustrated by their contraries, as seen in too many works of the day. A good manner is indeed curiously rare in those who treat of

animal life. The late Bishop of London once remarked that he could not endure to read natural history books because they were so badly done. A Year with the Birds was well done, and a great many of the author's admirers will wish that he had given them another such book instead of More Tales --a second attempt on Mr. Fowler's part to revive an old form of writing which flourished in the early part of the last century, natural history disguised as fable for the little ones, or rather a compound or confection of natural history, fable and sentiment. The best example in this form which we are able to recall at this moment is Emily Taylor's booklet The Boy and the Birds, illustrated with very pretty woodcuts by Charles Eastlake. Emily Taylor did not know very much about birds, but she had a gift and succeeded in making her little feathered people talk in character: some of her miniature essays are perfect models of their kind. If this form is worth reviving; if English birds are once more to be made to reason, and talk in print like human beings, and like the furred creatures of America, the task could not have fallen into better hands than those of Mr. Warde Fowler. Of the nine tales contained in this collection there are four-- The Lark's Nest, The Sandpipers, Downs and Dungeons and A Lucky Magpie, which are admirable, and may be read with pleasure and profit by persons of all ages. In at least these few the effect aimed at by the writer, which is to inspire in his readers something of his own tender love and admiration of the birds, with hatred of the cruelty too often practiced on them, has been fully achieved. But, as we may see, it is a delicate and difficult kind of work, and we should like to conclude by expressing the hope that there will be few to attempt it, since if not well done it is apt to be very bad. --The Saturday Review, Vol. 94

What It's Like to Be a Bird (Adapted for Young Readers) David Allen Sibley, 2023-10-03 In this edition for young readers adapted from the bestselling work written and illustrated by David Allen Sibley, readers will find a unique treasure trove of fascinating facts about birds, paired with more than 300 full-color illustrations—some life-size! The extraordinary world of birds is brought to life on the page. Did you know that many species of birds have sensory abilities that surpass those of humans? Or that some birds spend the entire winter in the air, and even sleep while flying? Have you ever wondered why birds have feathers? Or why they are a particular color? Have you noticed that some

birdsong sounds like a musical scale? Maybe you're more interested in "how" questions: How do birds actually fly or swim? How and why do some birds migrate? How do they find food? How do they take care of their offspring? Birds are not only beautiful and fascinating, but they also serve an essential role in our ecosystem. This book shows how birds and humans are intrinsically connected, sometimes helping and sometimes hindering each other. Perfect for dedicated birdwatchers—or for anyone who simply delights in noticing birds in their neighborhood. Readers can explore, share, and return to the pages again and again, each time gaining a broader appreciation for our enchanting feathered friends.

*Fastest Things on Wings* Terry Masear, 2015-06-16 A heartwarming memoir by "one of California's hardest-working hummingbird rehabilitators . . . will leave the average bird lover agog" (The Washington Post). Before he collided with a limousine, Gabriel, an Anna's hummingbird with a head and throat cloaked in iridescent magenta feathers, could spiral 130 feet in the air, dive 60 miles per hour in a courtship display, hover, and fly backward. When he arrived in rehab caked in road grime, he was so badly injured that he could barely perch. But Terry Masear, one of the busiest hummingbird rehabbers in the country, was determined to save this damaged bird, who seemed oddly familiar. During the four months that Masear worked with Gabriel, she took in 160 other hummingbirds, from a miniature nestling rescued by a bulldog to a fledgling trapped inside a skydiving wind tunnel at Universal CityWalk, and Pepper, a female Anna's injured on a film set. During their time together, Pepper and Gabriel formed a special bond and, together, with Terry's help, learned to fly again. Woven throughout Gabriel and Pepper's stories are those of other colorful birds in a narrative filled with the science and magic surrounding these fascinating creatures. "This is a book about birds that is actually a book about love, and Masear does us a favor by risking heartbreak

every day" (Los Angeles Times). "I cannot believe what a gripping read this is." —Robin Young, host of NPR's Here and Now "A book that will change forever the way you look at these little birds." —Los Angeles Times "This is a charming and lively summertime read, something for the patio or balcony, glass of iced tea at hand, a hummingbird or two zipping around the azaleas." —Dallas Morning News "I was riveted, charmed, delighted, devastated, profoundly moved, and taken to a magical place few people ever get to glimpse." —Stacey O'Brien, author of Wesley the Owl

The Best Nest Doris L. Mueller, 2008-03-10 In this retelling of an old English folktale featuring birds native to the U.S., Magpie patiently explains to the other birds how to build a nest. Some birds are impatient and fly off without listening to all the directions, however, and that is why, to this day, birds' nests come in all different shapes and sizes. Includes For Creative Minds section.

*The Thing with Feathers* Noah Strycker,2015-03-03 [Strycker] thinks like a biologist but writes like a poet. -- Wall Street Journal An entertaining and profound look at the lives of birds, illuminating their surprising world—and deep connection with humanity. Birds are highly intelligent animals, yet their intelligence is dramatically different from our own and has been little understood. As we learn more about the secrets of bird life, we are unlocking fascinating insights into memory, relationships, game theory, and the nature of intelligence itself. *The Thing with Feathers* explores the astonishing homing abilities of pigeons, the good deeds of fairy-wrens, the influential flocking abilities of starlings, the deft artistry of bowerbirds, the extraordinary memories of nutcrackers, the lifelong loves of albatrosses, and other mysteries—revealing why birds do what they do, and offering a glimpse into our own nature. Drawing deep from personal experience, cutting-edge science, and colorful history, Noah Strycker spins captivating stories about the birds in our midst and shares the startlingly intimate coexistence of birds and

humans. With humor, style, and grace, he shows how our view of the world is often, and remarkably, through the experience of birds. You've never read a book about birds like this one.

*Bird Stories* Edith M. Patch, 2020-02-06 This classic bird stories text by Edith Patch tells a number of interesting fictitious tales of bird lives. Included in the avian lineup are stories about a diverse set of bird species such as the crow and the osprey. In addition to Patch's quaint tales of avian adventure are several non-fiction articles about real birds. This rich volume will surely prove a welcome addition to any collection of nature publications.

Talks About Birds (Classic Reprint) Frank Finn, 2016-08-25 Excerpt from Talks About Birds IN this book I have made an attempt to talk over with young people who are fond of birds the points which have always interested me in my studies of them - and I have studied birds ever since I can remember. What I have always cared about in connexion with them has been their ways of living, their habits and tricks, and their minds and thoughts, so far as We know them to have any. I have also always paid particular attention to the distinguished and remarkable birds of all parts of the world, and not to the birds of one country only. I find that most people who are not specialists in ornithology, young people especially, share my tastes in bird-study, and this has encouraged me to pen these chapters. **The Burgess Bird Book for Children** Thornton

Burgess, 2016-09-27 The Burgess Bird Book for Children by Thornton W. Burgess with Full Color Illustrations. Through the eyes of Peter Rabbit we become acquainted with a variety of birds as they return to Peter's neighborhood in the spring. In the context of the story about each bird, we hear about its nesting habits, its feeding preferences, and its interactions with other wildlife. We meet Jenny Wren, Scrapper the King-bird, Redwing the Blackbird, and dozens more. An engaging introduction to birds for young children. This book was written to supply a definite need. Its preparation was undertaken at the urgent request of booksellers and others who have felt the lack of a satisfactory medium of introduction to bird life for little children. As such, and in no sense whatever as a competitor with the many excellent books on this subject, but rather to supplement these, this volume has been written. Its primary purpose is to interest the little child in, and to make him acquainted with, those feathered friends he is most likely to see. Because there is no method of approach to the child mind equal to the story, this method of conveying information has been adopted. So far as I am aware the book is unique in this respect. In its preparation an earnest effort has been made to present as far as possible the important facts regarding the appearance, habits and characteristics of our feathered neighbors. It is intended to be at once a story book and an authoritative handbook. While it is intended for little children, it is hoped that children of larger growth may find in it much of both interest and helpfulness. Mr. Louis Agassiz Fuertes, artist and naturalist, has marvelously supplemented such value as may be in the text by his wonderful drawings in full color. They were made especially for this volume and are so accurate, so true to life, that study of them will enable any one to identify the species shown. I am greatly indebted to Mr. Fuertes for his cooperation in the endeavor to make this book of real assistance to the beginner in the study of our native birds. Parents, teachers, and young readers all over the world have

enthusiastically welcomed the Thornton Burgess's classic nature books. In the present volume, the author's goal of introducing children to the fascinating subject of bird life is brilliantly realized in story fashion. While interviewing Slaty the Junco, Redwing the Blackbird, Melody the Wood Thrush, Spooky the Screech Owl, and dozens of other common birds, our guides, Peter Rabbit and saucy Jenny Wren - and, of course, the reader - learn about their physical appearances, eating and nesting habits, and songs and calls. Over eighty years after its first publication, the book remains noteworthy and valuable for its extraordinarily successful blend of information and entertainment.

**Birds** Kevin Henkes, 2009-02-17 Birds come in all sizes, shapes, and colors. Birds are magic. Birds are everywhere. If you listen very carefully you will hear them, no matter where you live. And if you look very closely you will see them, no matter where you are. And if you can't go outside right this minute, you can always read this book!

**Stories of Birds** Lenore Elizabeth Mulets, 2019-11-27 Stories of Birds by Lenore Elizabeth Mulets is a children's book that makes birds more human and intriguing. Chickadees, robin redbreasts, swallows, hawks, ravens, kingfishers, woodpeckers, larks, owls, bobolinks, sea doves, and blue herons are all stars of their own stories in this collection. From poems to Native American mythology, this book inspires readers of all ages to fall in love with birds who live around the country.
