Blackout John J. Nance,2016-01-19 New York Times—Bestselling Author: An FBI agent uncovers a conspiracy to send planes falling from the sky in this “white-knuckle adventure” (Publishers Weekly). A Boeing/McDonnell-Douglas MD-11 jetliner crashes into the Gulf of Mexico a mile inside Cuban waters, killing all three hundred and twenty passengers onboard. The last three minutes on the plane’s cockpit voice and data recorders have been erased. Was this a massive mechanical failure or an act of terrorism? At an air terrorism conference, FBI agent Kat Bronsky learns Washington Post reporter Robert McCabe has received frightening information about the MD-11 crash from a source that mysteriously disappeared. When another airliner goes down after its pilots are flash-blinded midflight, Bronsky and McCabe find themselves at the center of what might be a deadly government cover-up. Unable to trust her colleagues at the FBI, Bronsky must rely on her own wits and piloting skills as she races from the jungles of Vietnam to the forests of the American Northwest to unmask the conspirators before the entire American airline industry comes crashing out of the sky. John J. Nance is in top form with this suspense-charged, action-packed novel that solidifies his reputation as the king of the aviation thriller.

Preparing for the Global Blackout Denis Newiak,2022-04-26 Dead phones, chaos in hospitals, looming nuclear meltdowns: For years, experts all over the world have been warning of a widespread power blackout--and the devastating consequences for society as a whole. However, just as before the COVID-19 pandemic, politicians and the public are hardly aware of the far-reaching risks: A blackout would catch us almost completely unprepared. As for other (supposedly improbable) disruptive events, disaster movies and sci-fi series have long shown what would happen if modern society were to lose its lifeblood. Denis Newiak looks into those filmic fictions for answers to pressing questions: How can we prepare ourselves for the dramatic consequences of such a crisis? And can the collapse of modernity still be stopped?
