**The Doll Blogs** Debbie Behan Garrett,2010-12-31 To serve the doll-collecting community, particularly avid Black-doll enthusiasts, Ms. Garrett continues to write about the dolls she loves. In this, her third doll publication, dolls, both old and new, blog their experiences over a two-year period as chosen dolls in Garrett's extensive and quite eclectic Black-doll collection.If you love dolls, possess a vivid imagination, and enjoy combining the two, you will derive great pleasure reading The Doll Blogs, another first for Debbie Behan Garrett. Garrett takes the reader on an imaginative voyage in doll-collecting world where she meets and greets new dolls, reacquaints herself with old ones, and continues the passion for all as a doll whisperer, allowing the dolls to speak through her. The dolls (some more vocal than others, with personalities all their own) find delight in telling their unique stories, sharing their experiences, and relaying how they entered Garrett's collection.This first book devoted to dolls that speak in blog form is masterfully engaging, a sure delight.

**Collecting Qualitative Data** Virginia Braun,Victoria Clarke,Debra Gray,2017-10-19 Is there more to qualitative data collection than face-to-face interviews? Answering with a resounding 'yes', this book introduces the reader to a wide array of exciting and novel techniques for collecting qualitative data in the social and health sciences. Collecting Qualitative Data offers a practical and accessible guide to textual, media and virtual methods currently under-utilised within qualitative research. Contributors from a range of disciplines share their experiences of implementing a particular technique, provide step-by-step guidance to using that approach, and highlight both the potential and pitfalls. From gathering blog data to the story completion method to conducting focus groups online, the methods and data types featured in this book are ideally suited to student projects and other time- and resource-limited research. In presenting several innovative ways that data can be collected, new modes of scholarship and new research orientations are opened up to student researchers and established scholars alike.

Jake's Bones Jake McGowan-Lowe,2014-03-04 Jake McGowan-Lowe is a boy with a very unusual hobby. Since the age of 7, he has been photographing and blogging about his incredible finds and now has a worldwide following, including 100,000 visitors from the US and Canada. Follow Jake as he explores the animal world through this new 64-page book. He takes you on a world wide journey of his own collection, and introduces you to

other amazing animals from the four corners of the globe. Find out what a cow's tooth, a rabbit's rib and a duck's quack look like and much, much more besides.

**Computer Applications for Handling Legal Evidence, Police Investigation and Case Argumentation** Ephraim Nissan, 2012-06-15 This book provides an overview of computer techniques and tools – especially from artificial intelligence (AI) – for handling legal evidence, police intelligence, crime analysis or detection, and forensic testing, with a sustained discussion of methods for the modelling of reasoning and forming an opinion about the evidence, methods for the modelling of argumentation, and computational approaches to dealing with legal, or any, narratives. By the 2000s, the modelling of reasoning on legal evidence has emerged as a significant area within the well-established field of AI & Law. An overview such as this one has never been attempted before. It offers a panoramic view of topics, techniques and tools. It is more than a survey, as topic after topic, the reader can get a closer view of approaches and techniques. One aim is to introduce practitioners of AI to the modelling legal evidence. Another aim is to introduce legal professionals, as well as the more technically oriented among law enforcement professionals, or researchers in police science, to information technology resources from which their own respective field stands to benefit. Computer scientists must not blunder into design choices resulting in tools objectionable for legal professionals, so it is important to be aware of ongoing controversies. A survey is provided of argumentation tools or methods for reasoning about the evidence. Another class of tools considered here is intended to assist in organisational aspects of managing of the evidence. Moreover, tools appropriate for crime detection, intelligence, and investigation include tools based on link analysis and data mining. Concepts and techniques are introduced, along with case studies. So are areas in the forensic sciences. Special chapters are devoted to VIRTOPSY (a procedure for legal medicine) and FLINTS (a tool for the police). This is both an introductory book (possibly a textbook), and a reference for specialists from various quarters.

**The First Blog Collection** Kathy L. Williams, 2016-06-20 Kathy Williams started a blog two years ago. The blog started out as a description of the trials and tribulations she was enduring. The blog transcended to topics on her love for music and the bands and musicians of her time. Included in the book are blogs about books she's read or is reading, and some of her favorite things, like her favorite book in the Bible.

**Burn Collector** Al Burian, Anne Elizabeth Moore, 2011-03-08 Reflecting on a year spent living in Berlin, Germany, the expatriated Al Burian's essays in this collection have wildly free-range topics, including freedom, happiness, animal liberty, Aristotle, modern dentistry, riots as rituals, uncomfortable proximity to drunken teenagers, and how to best color coordinate an outfit that includes a Black Flag T-shirt and a baby stroller. An illustrated essay by Anne Elizabeth Moore, "When You Realize the Freedom," is also included.

*The Ghost Collector* Allison Mills, 2019-09-10 Ghosts aren't meant to stick around forever... Shelly and her grandmother catch ghosts. In their hair. Just like all the women in their family, they can see souls who haven't transitioned yet; it's their job to help the ghosts along their journey. When Shelly's mom dies suddenly, Shelly's relationship to ghosts—and death—changes. Instead of helping spirits move on, Shelly starts hoarding them. But no matter how many ghost cats, dogs, or people she hides in her room, Shelly can't ignore the one ghost that's missing. Why hasn't her mom's ghost come home yet? Rooted in a Cree worldview and inspired by stories about the author's great-grandmother's life, *The Ghost Collector* delves into questions of grief and loss, and introduces an exciting new voice in tween fiction that will appeal to fans of Kate DiCamillo's *Louisiana's Way Home* and Patrick Ness's *A Monster Calls*.

*Blog Words* Rod Pitcher, 2017-12-29 All the articles in this book have appeared on my blog at one time or another over the last couple of years. They are my thoughts on many topics: Life, people, society, how I feel about something, whatever I felt like writing about. Some of my writings appear on my blogs, or on other people's web sites. Some just disappear into cyberspace if I don't think they are worth keeping. Unfortunately, there are a lot of those. No matter. What happens, happens. It's not worth worrying about it. No-one is perfect, me least of all. Much of the stuff I write is rubbish and not

worth keeping, so away it goes. The ones in this book are the ones that survived. That doesn't mean that they are particularly good, just that they mean something to me. Perhaps they will mean something to you too, awaken memories or start you thinking. That is something that I would like to achieve with this book as you read the articles. If they start you thinking then I will be very pleased. You may not agree with me, that doesn't matter, that you think about the articles and form an opinion, for or against, or an argument for or against them does matter to me. I want to start you thinking about the topics of my articles, and many other things. That is why they are here, why I went to the trouble of writing them, putting them on my blog, putting them into a book and having them published.
