Startup Boards Brad Feld, Mahendra Ramsinghani, 2013-12-09 An essential guide to understanding the dynamics of a startup's board of directors Let's face it, as founders and entrepreneurs, you have a lot on your plate—getting to your minimum viable product, developing customer interaction, hiring team members, and managing the accounts/books. Sooner or later, you have a board of directors, three to five (or even seven) Type A personalities who seek your attention and at times will tell you what to do. While you might be hesitant to form a board, establishing an objective outside group is essential for startups, especially to keep you on track, call you out when you flail, and in some cases, save you from yourself. In Startup Boards, Brad Feld—a Boulder, Colorado-based entrepreneur turned-venture capitalist—shares his experience in this area by talking about the importance of having the right board members on your team and how to manage them well. Along the way, he shares valuable insights on various aspects of the board, including how they can support you, help you understand your startup's milestones and get to them faster, and hold you accountable. Details the process of choosing board members, including interviewing many people, checking references, and remembering that there should be no fear in rejecting a wrong fit Explores the importance of running great meetings, mixing social time with business time, and much more Recommends being a board member yourself at some other organization so you see the other side of the equation Engaging and informative, Startup Boards is a practical guide to one of the most important pieces of the startup puzzle.

Make a Big Impact @ Your School Board Meeting Margaux Del Guidice, Rose M. Luna, 2012-05-15 This book details effective strategies for promoting a library beyond the building level in order to make an impact with the influential individuals who make the key decisions that directly affect the school district and library program. Make a Big Impact @ Your School Board Meeting was inspired by the authors' experiences speaking at local and national library conferences on the topic of making presentations to school boards and forging relationships with key administrators. It became clear that many librarians are unsure how to create a comprehensive marketing plan, and are simply too busy with their day-to-day tasks to tackle this daunting project. This book is written specifically for K-12 librarians in the field. It can also serve as an instructional tool for school library certification programs. It spotlights the importance of ongoing advocacy and leadership, teaches school librarians how to demonstrate the tremendous value of their library programs and how they directly impact student achievement, and showcases library-specific marketing techniques that can be used during good and poor economic times. By using the straightforward methods and tools provided, librarians will greatly improve their ability to avoid detrimental budget cuts to their programs.

The Little Book of Boards Erik Hanberg, 2015-02-10 Are you new to a board and have no idea what's expected of you? Do you know what a board's six key responsibilities are? Do you know what your relationship with the Executive Director should be? If not, this book is for you. So many board members—especially of small nonprofits—want to support a nonprofit and readily accept the invitation to join the board. It's only then that they discover they are in over their heads, with no idea of their expectations and responsibilities. The Little Book of Boards is here to throw that drowning board member a rope. Told with a conversational style, this book will lead you through the basics of being on a board, how meetings work, and what's expected between meetings. In addition, at the back of the book are several in-depth resources for understanding Roberts Rules of Order, bylaws, committee structures, board leadership, and much more. Perfect for any new board member—or for an entire board that is feeling lost—this book and its common sense approach will serve you every year you are on the board.

Board Meetings Marci Cornell-Feist, 2011-08-01

The New Boardroom Leaders Ralph D. Ward, 2008-10-30 For generations, the cozy, standard model of boardroom leadership was simple: The CEO was also Chairman of the Board, and directors rubberstamped his initiatives. The 2002 Sarbanes-Oxley Act forced radical change on all U.S. public corporations: The board must now hold sessions without management, key committees have tough new independence rules, and all board members now face an unavoidable legal responsibility to provide truly independent oversight of the corporation. Missteps can put companies and individual directors in serious legal danger. The result is an urgent demand that corporate boards develop their own confident, independent leaders from within. But how? That's something that governance expert Ralph Ward, in The New Boardroom Leaders, explains in detail. Until now, no one has tracked and compiled answers to new, basic governance questions. What should a lead director's job description include? Why is a separate chair not necessarily an independent chair? How do you shape an agenda for meetings of independent directors? How do CEOs and the new board leaders divide their roles? How much power should a separate board leader really have? This

book answers these questions and more. Companies are scrambling to create new procedures and roles. But there are few job descriptions for these new boardroom leaders—something this book provides, as well as a wealth of insights and tips. The New Boardroom Leaders offers the first inside look at how board leaders actually do their jobs, based on extensive interviews and research. The emphasis will be on practical advice from real board leaders on what worked in their boardrooms, what didn't, and what they expect in the future. It will become a longtime, worthy guide for board members in the new world brought on by Sarbanes-Oxley and the quest for ever-better, and strictly ethical, corporate performance.

Before You Join a Board John Balkcom, 2012-06 This guidebook to board membership lays out three broad lines of questioning that every board candidate should explore before saying yes or no to an invitation to join. The three clusters of questions include (1) those that make or break the opportunity, (2) those that explore the relative hygiene or well being of the board inviting you to join, and (3) those that distinguish merely good boards from the practices of those boards that can be said to be great. The preface provides a pragmatist's view of how to make productive use of this book. The author of the preface is Ken Bloem, a seasoned director, current executive chairman of a private firm, and former CEO in multiple settings, both for-profit and not-for-profit. He speaks from deep experience as both a CEO and an independent director. John Balkcom has been a longtime advisor to management and boards. He retired in 2000 after 25 years as a management consultant and continues to serve as a corporate director and advisory board member for a number of public and private enterprises. Most recently, he became a member of the governing board of the Bulletin of the Atomic Scientists. Before John and his wife Carol moved to Denver in 2010, they spent almost 40 years in the Chicago area, from which John traveled to every corner of the US, with trips to New Zealand, South Africa, and Europe from time to time. His work as a consultant and as a board member put him in front of over a thousand board and committee meetings before he stopped to write this book. He served as a partner at Booz, Allen and Hamilton and at Sibson & Company, from which he retired in 2000.

The High-Performance Board Dennis D. Pointer, James E. Orlikoff, 2002-08-29 While boards acknowledge they bear ultimate responsibility and accountability for their organizations' affairs, governance quality is often far from optimal. The High- Performance Board offers pragmatic and candid advice about what your board must do to maximize performance and contributions. The authors provide sixty-four principles designed to help your board achieve peak performance. They describe every principle in detail and present best practices and practical applications for each one. Each section of the book concludes with a board check-up—a set of questions that can be used to assess your board in light of the principles. A quick read for busy board members, this book is the ultimate board drivers' manual.

Long Range Planning Manual for Board Members Struck, 1993 From the publishers of Board & administrator newsletter.

A Board of Directors in Action During a Board Meeting Paul Meurisse, 2011 This book is about corporate governance in action, more specifically about boards-of-directors in action during board meetings. It is unique because it uses recordings complemented by written notes taken during the board meetings. This organisational peer task group is often unnecessarily seen as a 'mighty secret group'. In fact it is simply another organisational group that has received its organisational delegation of authority from the owners of the organisation. It does most of its institutional business during board-meetings. The author recovers and describes, for the first time ever, in a combined practical and scholarly way, what a specific board-of-directors is doing how during one such full board meeting. Intended Audience: This book is addressed to a large and varied audience, basically anyone who is interested - for whatever reason - in knowing how an organisation is directed. The book does not require the reader to have any specific knowledge or experience. What the reader needs to know in order to understand the phenomenon of directing, for example the structure of board-meetings or the elements of corporate governance, becomes explained as part of the text as far as needed. The text has been written in a scholarly way, which requires the reader to appropriately concentrate. The intended audience includes the broader public, politicians and regulators in addition to those aspiring to become a board-member, as well as those board practitioners who want to become more effective as a board. Students who study corporate governance and who want their course to be more practical, will also benefit from the book. Finally, the book will be useful to those rare academics who study the practical knowledge that board-members apply daily.

The Governance Revolution Deborah Midanek, 2018-09-24 Boards of directors are sitting ducks. Shareholders complain and even attack, management manipulates, and individual board members have little power, able to act only as part of the board as a whole. Governance issues are front and center, yet there is often little understanding, even among board members, of the key role that they play. Written in an accessible and human voice, *The Governance Revolution: What Every Board Member Needs to Know, NOW!* provides information and context essential to anyone seeking to understand how corporations and their stewards—the board of directors—can and should function in the volatile world we inhabit. Deborah Hicks Midanek offers useful insight into what board members of corporations actually do, the current standards for board members and why they exist. She includes a timely discussion of how clarity of purpose can improve board and director effectiveness. Informed by her long experience serving public, private, and family owned corporate boards as well as those of charitable, and government organizations, she provides essential context regarding the evolution of board practice as well as candid discussion of the issues involved in the relentless effort to improve corporate governance processes. Focused mainly on the dominant public corporation, she also explores the special challenges of serving private and family owned as well as nonprofit and public agency boards. Written by a seasoned board member, and liberally laced with stories and cases illustrating the tricky issues directors wrestle with, this book is the essential common-sense companion for anyone working

with a board, serving on a board, or wanting to do so. Directors, aspiring directors, investors, and students of corporate behavior will benefit from this highly readable description of the cloistered boardroom. Extraordinary Board Leadership Douglas C. Eadie,2009 Many nonprofits never take full advantage of their board members. Extraordinary Board Leadership: The Keys to Governing deals with an incredibly important topic - high-impact governing - which is at the heart not only of a nonprofit's effectiveness, but also the key to a positive, productive, and enduring board-CEO partnership. This text offers practical, hands-on guidance, which is based on in-depth real-life experience and can be put to immediate use. It goes beyond the old-fashioned policy governance approach - beyond the rules - in dealing with the board-CEO-executive staff partnership. The 2nd edition of this successful book includes more case studies and new information aimed at public governing bodies, as well as more tables and charts to accompany a fresh new text design.
