William S. Loring

Birthplace of the Atomic Bomb William S. Loring, 2019-02-22 It was not Robert Oppenheimer who built the bomb--it was engineers, chemists and young physicists in their twenties, many not yet having earned a degree. The first atomic bomb was originally conceived as a backup device, a weapon not then currently achievable. The remote Trinity Site--the birthplace of the bomb--was used as a test range for U.S. bombers before the first nuclear device was secretly detonated. After the blast, locals speculated that the flash and rumble were caused by colliding B-29s, while Manhattan Project officials nervously measured high levels of offsite radiation. Drawing on original documents, many recently declassified, the author sheds new light on a pivotal moment in history--now approaching its 75th anniversary--told from the point of view of the men who inaugurated the Atomic Age in the New Mexico desert.

Push Me Pull You Lewis J. Poteet, Martin J. Stone, 2013 A lively, evocative, authoritative dictionary of words from the world community of flight, this book expresses the machismo, the terror, the care for technical excellence, struggles over the power of naming between PR for manufacturers and others, reporters, flight crews, ramp rats, PAX, cabin attendants. The exhilaration of a blue on blue flying day, the horror of a ground loop that goes bad, or a torque stall. Pilots, at the center, are extreme individualists in an activity that depends on teamwork - mechanics, weather forecasters, air traffic controllers, computer experts, schedulers and trackers, dispatchers, ground crew. The stress produces variations in speaking that range from technical words to vivid slang exclamations (see Jesus nut). Sources include people from all the levels listed above, some aviation and space writers, Gulf War veterans, and required on-site research at air shows in Le Bourget, Farnborough, Berlin, Ottawa, Abbotsford, and in Dayton, Pensacola (FL), CFB St. Hubert (Qc.), Dallas-Fort Worth, Renton (WA), Wichita (KS), Montreal, and at such WWII bases as Elvington, near York, England. The section on the names of aircraft includes both official names and the folk names given by those who actually had to fly or ride in them. I am amazed at how you have covered up all the profanity and kept such a clean book. You have made [this] look like a respectable language! Bill Robinson, Public Relations

The XO Walter Turner, 2001-09 Lt. Dan Gator Fancy is a crack Naval aviator, evidenced by the fact that he shot down five Iraqi planes on his last deployment on the carrier Enterprise. His resolve and skills are tested when he must transition from the F-14 to the F/A-18C Hornet and then to the F/A-18E Super Hornet. He must balance his passion for flying and the demands of his new assignment with his new responsibilities as husband and father. The ugly spectre of terrorism looms large as the Nimitz plies the world's seas from the Atlantic to the Mediterranean, seeking to project American sea power in an unstable world. Fancy finds himself on the cutting edge of today's headlines along with all of the men and women of the Nimitz and the ships of her battle group.

A Time to Attack Matthew Kroenig,2014-05-13 Iran's advanced nuclear program may be the world's most important emerging international security challenge. If not stopped, a nuclear-capable Iran will mean an even more crisis-prone Middle East, a potential nuclear-arms race in the region and around the world, and an increased risk of nuclear war against Israel and the United States, among many other imminent global threats. Matthew Kroenig, internationally recognized as one of the world's leading authorities on Iran's nuclear program, explains why we need to take immediate steps to a diplomatic and, if necessary, a military solution - now - before Iran makes any further nuclear advances. *A Time to Attack* provides an authoritative account of the history of Iran's nuclear program and the international community's attempts to stop it. Kroenig explains and assesses the options available to policymakers, and reflects on what the resolution of the Iranian nuclear challenge will mean for the future of international order. This dramatic call to action provides an insider's account of what is being said in Washington about what our next move must be as the crisis continues to develop.

Bomb, Book and Compass Simon Winchester,2008-09-25 Before fate intervened, Joseph Needham was a distinguished biochemist at Cambridge University, married to a fellow scientist. In 1937 he was asked to supervise a young Chinese student named Lu Gwei-Djen, and in that moment began the two greatest love affairs of his life - Miss Lu, and China. Miss Lu inspired Needham to travel to China where he initially spent three dangerous years as a wartime diplomat. He established himself as the pre-eminent China scholar of all time, firm in his belief that China would one day achieve world prominence. By the end of his life, Needham had become a truly global figure, travelling endlessly and honoured by all - though banned from America because of his politics. And in 1989, after a fifty-two year affair, he finally married the woman who had first inspired his passion. *The Magnificent Barbarian* is Simon Winchester at his best - at once a magnificent portrait of one man's remarkable life and a riveting exploration of the country that so engaged him.

Hot Cocoa Bombs Natalie Wise,2021-10-05 Hot cocoa bombs are chocolate truffles filled with hot cocoa mix and other goodies--mini marshmallows, crushed peppermint candies, salted caramel sauce--the melt into a warm mug of milk and create a fabulous cupe of hot cocoa. The bombs themselves can be beautiful, cute, festive, or imaginative, and the flavor combinations are just as diverse. Recipes included in this book are easy to follow and make creating DIY hot cocoa bombs almost as much fun as drinking the gourmet hot chocolate they result in. -- Back cover.

The Kiss of Death Burt H. Slaughter,2013-11-27 The KISS of DEATH Jennifer Mayfield was a beautiful young woman whose life was touched by tragedy when she was only 16. She endured multiple sexual assaults, which left severe emotional scars. With some treatment from a psychologist friend, she regains some sense of normalcy, only to see both her first two husbands die a violent death. When she overhears what she believes is a threat against her life by her third husband, her life is again in shambles, that is, until she hires John Cansler, the handsome Private Investigator, to do some digging. Narrowly escaping death by a bomb planted in her car convinces Jennifer she was correct.
