Kickboxing Gail Mack, 2012-01-15 From taking classes in dojos and studios across the country to watching tournaments or action-filled movies and television shows, martial arts have become a part of our culture. Around the world today, millions of people of all ages and backgrounds practice different forms of martial arts. Some do it for self-defense, others as a competitive sport, and still others for the physical exercise. Many experts believe that young people who study martial arts benefit from the healthy mental and physical activity and discipline, while learning good self-esteem, self-respect, and respect for others. Filled with vivid photography, how-to illustrations, and engaging text, the Martial Arts in Action series is perfect for curious readers or for students who need information for reports or projects on interesting topics. Readers will explore the history and culture behind various martial arts. Each book covers the basic terminology and distinctive moves associated with each sport, while stressing safety and responsibility.

Fighting Scholars Raúl Sánchez García, Dale C. Spencer, 2014-12-01 'Fighting Scholars' offers the first book-length overview of the ethnographic study of martial arts and combat sports. The book's main claim is that such activities represent privileged grounds to access different social dimensions, such as emotion, violence, pain, gender, ethnicity and religion. In order to explore these dimensions, the concept of 'habitus' is presented prominently as an epistemic remedy for the academic distant gaze of the effaced academic body. The book's most innovative features are its empirical focus and theoretical orientation. While ethnographic research is a widespread and popular approach within the social sciences, combat sports and martial arts have yet to be sufficiently interrogated from an ethnographic standpoint. The different contributions of this volume are aligned within the same project that began to crystallize in Loïc Wacquant's 'Body and Soul': the construction of a 'carnal sociology' that constitutes an exploration of the social world 'from' the body.

The Brazilian Jiu Jitsu Globetrotter Christian Graugart, 2012-11-13 I didn't care about what would happen. He might win the match, but he could never beat me. I was living my dream, traveling the world with complete freedom. Nothing could put me down. The play button was pressed again. My opponent took my back and I tapped to a bow and arrow choke. I laughed and shook his hand, as I stood back up. I was out of the competition. Everything was perfect. Life couldn't be better. After a training partner commits suicide, Christian Graugart feels obliged to do something with his life. Starting his own gym, dedicating almost all his time to the art of BJJ, alters everything, including the way he sees himself. The Brazilian Jiu Jitsu Globetrotter is not only a story about traveling and training in martial arts. It's about all the things that can happen to you if you choose to truly stay alive until you actually die.

A Killing Art Gillis, Alex, 2016-08-01 The eagerly anticipated updated return of a bestselling martial arts classic The leaders of Tae Kwon Do, an Olympic sport and one of the world's most popular martial arts, are fond of saying that their art is ancient and filled with old dynasties and superhuman feats. In fact, Tae Kwon Do is as full of lies as it is powerful techniques. Since its rough beginnings in the Korean military 60 years ago, the art empowered individuals and nations, but its leaders too often hid the painful truths that led to that empowerment „ the gangsters, secret-service

agents, and dictators who encouraged cheating, corruption, and murder. *A Killing Art: The Untold History of Tae Kwon Do* takes you into the cults, geisha houses, and crime syndicates that made Tae Kwon Do. It shows how, in the end, a few key leaders kept the art clean and turned it into an empowering art for tens of millions of people in more than 150 countries. *A Killing Art* is part history and part biography „ and a wild ride to enlightenment. This new and revised edition of the bestselling book contains previously unnamed sources and updated chapters.

Sport in Prison Rosie Meek, 2013-11-07 Although prison can present a critical opportunity to engage with offenders through interventions and programming, reoffending rates among those released from prison remain stubbornly high. Sport can be a means through which to engage with even the most challenging and complex individuals caught up in a cycle of offending and imprisonment, by offering an alternative means of excitement and risk taking to that gained through engaging in offending behaviour, or by providing an alternative social network and access to positive role models. This is the first book to explore the role of sport in prisons and its subsequent impact on rehabilitation and behavioural change. The book draws on research literature on the beneficial role of sport in community settings and on prison cultures and regimes, across disciplines including criminology, psychology, sociology and sport studies, as well as original qualitative and quantitative data gathered from research in prisons. It unpacks the meanings that prisoners and staff attach to sport participation and interventions in order to understand how to promote behavioural change through sport most effectively, while identifying and tackling the key emerging issues and challenges. *Sport in Prison* is essential reading for any advanced student, researcher, policy-maker or professional working in the criminal justice system with an interest in prisons, offending behaviour, rehabilitation, sport development, or the wider social significance of sport.

I defy any reader not to enjoy it as you experience for yourself the battle between the ring and the mind. Steve Taberner will take you on a journey like no other, buckle up and enjoy the ride. Bev Hornby Editor & Proof Reader *The Wigan Hammer* is an inspiring true life story of a developing young adult who is suddenly drawn into a kickboxing career from an unusual meeting with a local fight promoter. Not only does this present a chance to fulfil some of his childhood fantasies, but also an opportunity to overcome his boyhood fears. A tough environment that will test all that men fear the power of the mind that plunges him into a world of fighting where he doesn't really belong.

Boxing Clever Tom Ogg, 2012 *Boxing Clever* is Tom Ogg's account of teaching teenagers at the London Boxing Academy Community Project (LBACP) in Tottenham, North London, who had been expelled from school. The aim of the project was to make use of the strong relationships that boxing coaches have with wayward young men. The principal of the LBACP was Chris Hall, a boxing coach of 30 years' standing. The school was built around Chris's mantra: 'rules without relationships ain't worth toffee'. The book explores this and how Chris's principles of honesty, realism and kindness guided his work. It describes how boxing as a sport was uniquely suited to foster maturity in the students. It addresses why boxers, despite often coming from very tough backgrounds, saw the boxing community as a hub of moral improvement and why this meant boxers were able to connect with the students where others had failed. This is the story of Tom Ogg's baptism of fire, fresh from university, teaching the unteachable.

Four Kings George Kimball, 2008-10-01 Roberto Duran, Marvelous Marvin Hagler, Sugar Ray Leonard, and Thomas Hit Man Hearns all formed the pantheon of boxing greats during the late 1970s and early 1980s—before the pay-per-view model, when prize fights were telecast on network television and still captured the nation's attention. Championship bouts during this era were replete with revenge and fury, often pitting one of these storied fighters against another. From training camps to locker rooms, author George Kimball was there to cover every body shot, uppercut, and TKO. Inside stories full of drama, sacrifice, fear, and pain make up this treasury of boxing tales brought to life by one of the sport's greatest writers.

The Men of Warrior ,2011-08-09 Tim Palen is known throughout the movie marketing industry for his daring approaches to film promotion, most specifically his provocative one-sheet posters, many featuring his own photography. Examples of his work include the arresting imagery used to promote the Saw and Hostel horror franchises, and the iconic portraits he created on behalf of W, Precious, and For Colored Girls. As Paula Burr has written, Palen's movie poster photography attempts to boil [the image] down to the essence of the film. It is all about finding simplicity, a singular iconic image, something that evokes emotion." The Men of Warrior gathers together Palen's no-holds-barred shoot for the upcoming Lionsgate film Warrior, starring Tom Hardy and Joel Edgerton as two brothers who face the fight of a lifetime in the high-stakes world of Mixed Martial Arts. In these pages, Hardy and Edgerton show off their hard-earned fighting bodies and bloodied upper lips, capturing the tough and dramatic world of Warrior in a series of iconic images, all of which are poster-worthy.
