Diccionario Akal de Francmasonería Juan Carlos Daza,1997-02-25 La «Metafísica alemana», nombre por el que habitualmente se conoce la obra, es la exposición más general y sistemática de la filosofía de Wolff, uno de los más influyentes pensadores del periodo ilustrado, fundamental para entender las polémicas de la época, así como las obras de sus coetáneos Leibniz y Kant.

Violencia, discurso y público infantil Luis Sánchez Corral,2005 El propósito de este libro es analizar de qué manera la ‘violencia como acción’ se convierte, mediante instancias semióticas y narrativas, en ‘violencia como discurso’. Desde esta perspectiva es posible determinar el concepto de ‘violencia simbólica’ y, en consecuencia, estudiar sus efectos de sentido y los correspondientes procesos cognitivos así generados. La finalidad no es otra que obtener estrategias para explicar por qué determinados segmentos de población, especialmente los niños y los jóvenes, se sienten fascinados por el lenguaje de la violencia.Se indaga, por una parte, sobre la ‘dimensión pragmática’ de este discurso como la transformación que experimenta el agresor desde la carencia (o frustración inicial) hasta la ‘satisfacción de la carencia’ (o estado de placer conseguido mediante la ejecución de la gresividad); por otra parte, se investiga asimismo la ‘dimensión cognitiva’ de los enunciados, para ver de qué manera el hacer persuasivo (o seductor) del enunciador dirige y gobierna el hacer interpretativo (o seducido) de los destinatarios

Dictionary of the Printing and Allied Industries F.J.M. Wijnekus,E.F.P.H. Wijnekus,2013-10-22 The first edition of this dictionary, compiled by F.J.M. Wijnekus and published in 1967, was the result of years of systematic collection and preparation of thousands of terms and expressions which were until then not to be found in any other dictionary. The material was correlated for use in his daily work and, as the reputation of his private collection spread, there was an increasing demand for access to these findings. Until 1967 there was no comprehensive multilingual dictionary on the subject; former publications were incomplete and out of date and lacked clear definition - often leading to disastrous misunderstandings. Furthermore, the subject of printing, paper and ink technology had never been dealt with, in dictionary form, in relation to other aspects of the graphic industry. This new work, prepared by F.J.M. Wijnekus and his son, has been considerably up-dated. Much time has been devoted to checking the material against the most reliable and authoritative sources. The usefulness of the work has been further enhanced by the addition of Spanish and Italian to the original languages of English, French and German. The first edition was received with much enthusiastic praise and this new dictionary will undoubtedly continue to be an invaluable tool for all those working with the printed word in the widest sense. It is a reference work which should be in the hands of all those in any way connected with the printing industry, paper manufacturers, ink manufacturers, printers, bookbinders, publishers, lithographers, lay-out men and graphical research institutes.

Borges, between History and Eternity Hernan Diaz,2012-08-02 That Borges is one of the key figures in 20th-century literature is beyond debate. The reasons behind this claim, however, are a matter of contention. In Latin America he is read as someone who reorganized the canon, questioned literary hierarchies, and redefined the role of marginal literatures. On the other hand, in the rest of the world, most readers (and dictionaries) tend to identify the adjective Borgesian with intricate metaphysical puzzles and labyrinthine speculations of universal reach, completely detached from particular traditions. One reading is context-saturated, while the other is context-deprived. Oddly enough, these institutional and transcendental approaches have not been pitched against each other in a critical way. Borges, between History and Eternity brings these perspectives together by considering key aspects of Borges's work-the reciprocal determinations of politics, philosophy and literature; the simultaneously confining and emancipating nature of language; and the incipient program for a literature of the Americas.

El ingenioso hidalgo Don Quijote de la Mancha II Cervantes M., Miguel de Cervantes, escritor espanol de fama universal, es celebre en primer lugar por su novela “El ingenioso hidalgo Don Quijote de la Mancha”, una de las obras mas portentosas de la literatura mundial. Esta novela, traducida a todos los idiomas europeos, hasta la fecha es una de las narrativas que mas se leen en el orbe. En 2002 fue califi cada como la mejor novela de las letras mundiales. La obra cuenta las aventuras de un loco hidalgo que adopto el nombre de Don Quijote y de su escudero simplon Sancho Panza, quien de vez en cuando pretende, con timidez e infructuosamente, bajar a su imaginario senor desde los cielos de la alienacion a la tierra de pecado. Una satira muy honda de los tiempos de Cervantes que no pierde su actualidad hasta el dia de hoy.

Revival: A History of Spanish Literature (1930) Ernest Merimee,2018-05-08 The present English version, authorized by the publishers and heirs of M. Merimee, is based on the third French Edition. New material of two sorts has been added, however. First, the translator has been allowed to utlize an annotated, interleaved copy of the Precis, 1922, in which the author, and after his death his son Henri, himself a distinguished Hispanist, had set down material for the next revision. This accounts for many inserted names and phrases, and some paragraphs. Second, the translator has rewritten and added with some freedom.
