**The Starship and the Canoe** Kenneth Brower, 2020-02-18 “The Starship and the Canoe is neither a wilderness survival manual nor a book of blueprints. It is another of those rare books impossible to define: the kind that seeks you in time. And you will know it, live it, and consult it thereafter simply by name.” --Chicago Sun-Times “Brower’s superbly written book clutches at one’s imagination.” --Publishers Weekly “In the tradition of Carl Sagan and John McPhee, a bracing cerebral voyage past intergalactic hoopla and backwoods retreats.” --Kirkus Reviews Originally published in 1978, *The Starship and the Canoe* is the remarkable story of a father and son: Freeman Dyson is a world-renowned astrophysicist who dreams of exploring the heavens and has designed a spaceship to take him there. His son George, a brilliant high school dropout, lives in a treehouse and is designing a giant kayak to explore the icy coastal wilderness of the Pacific Northwest and Alaska. Author Kenneth Brower describes with stunning impact their lives and their visions of the world. It is a timeless tale framed by modern science, adventure, family, and the natural world.

*Canoeecraft* Ted Moores, 2000 Back in print: A revised second edition of a classic how-to book on canoe building. The new edition is updated to include advances in glues and techniques since the original was published, as well as five new canoe plans, builder tips and paddle carving.

*Paddle Your Own Canoe* Nick Offerman, 2013-10-01 Parks and Recreation actor and Making It co-host Nick Offerman shares his humorous fulminations on life, manliness, meat, and much more in this New York Times bestseller. Growing a perfect moustache, grilling red meat, wooing a woman—who better to deliver this tutelage than the always charming, always manly Nick Offerman, best known as Parks and Recreation’s Ron Swanson? Combining his trademark comic voice and very real expertise in woodworking—he runs his own woodshop—Paddle Your Own Canoe features tales from Offerman’s childhood in small-town Minooka, Illinois—“I grew up literally in the middle of a cornfield”—to his theater days in Chicago, beginnings as a carpenter/actor and the hilarious and magnificent seduction of his now-wife Megan Mullally. It also offers hard-bitten battle strategies in the arenas of manliness, love, style, religion, woodworking, and outdoor recreation, among many other savory entrees. A mix of amusing anecdotes, opinionated lessons and rants, sprinkled with offbeat gaiety, Paddle Your Own Canoe will not only tickle readers pink but may also rouse them to put down their smart phones, study a few sycamore leaves, and maybe even hand craft (and paddle) their own canoes.

**THE RED CANOE** Wayne Johnson, 2022-03-15 One of the Most Anticipated Mysteries & Thrillers of 2022—Criminal Element One of the Most Anticipated Crime Fiction of 2022—CrimeReads Buck, government name Michael Fineday, Ojibwe name Miskwa’ doden (Red Deer) is on the brink of suicide. He has just been served divorce papers by his wife Naomi, who is fed up with his savior complex and the danger it often attracts to their door. Living on the border of Shakopee Mdewakanton Sioux Community reservation, Buck makes a living as a boatbuilder and carpenter. He spends his days alone, trying to win the trust of a feral cat...until a semi-feral girl shows up, fascinated by the canoe Buck is building. Lucy, Ojibwe name Gage’ bineh, (Everlasting Bird), lives in a trailer alone with her father, a local policeman struggling with PTSD which is compounded by the loss of Lucy’s mother. Just barely fifteen she has lived with a lifetime of abuse, while knowing that if she ever spoke out, her father would bear the consequences. Buck senses Lucy is in trouble and doesn't hesitate to come to her defense. On the foundation of their shared Ojibwe heritage, they trace Lucy’s abuse to a ring that extends farther than either of them ever imagined, while building a bond even sturdier than Buck’s canoe.

The Survival of the Bark Canoe John McPhee, 1982-05-01 In Greenville, New Hampshire, a small town in the southern part of the state, Henri Vaillancourt makes birch-bark canoes in the same manner and with the same tools that the Indians used. *The Survival of the Bark Canoe* is the story of this ancient craft and of a 150-mile trip through the Maine woods in those graceful survivors of a prehistoric technology. It is a book squarely in the tradition of one written by the first tourist in these woods, Henry David Thoreau, whose *The Maine Woods* recounts similar journeys in similar vessel. As McPhee describes the expedition he made with Vaillancourt, he also traces the evolution of the bark canoe, from its beginnings through the development of the huge canoes used by the fur traders of the Canadian North Woods, where the bark canoe played the key role in opening up the wilderness. He discusses as well the differing types of bark canoes, whose construction varied from tribe to tribe, according to custom and available materials. In a style as pure and as effortless as the waters of Maine and the glide of a canoe, John McPhee has written one of his most fascinating books, one in which his talents as a journalist are on brilliant display.

*The Bark Canoes and Skin Boats of North America* Edwin Tappan Adney,Howard I. Chappelle,2015-10-27 The bark canoes of the North American Indians, particularly those of birchbark, were among the most highly developed manually propelled primitive watercraft. They could be used to carry heavy loads in shallow streams but were light enough to be hauled long distances over land. Built with Stone Age tools from available materials, their design, size, and appearance were varied to suit the many requirements of their users. Upon arrival in North America, European settlers began using the native-made craft for traveling through the wilderness. Even today, canoes are based on these ancient designs. This fascinating guide combines historical background with instructions for constructing one. Author Edwin Tappan Adney, born in 1868, devoted his life to studying canoes and was practically the sole scholar in his field. His papers and research have been assembled by a curator at the Smithsonian Institution, and illustrated with black-and-white line drawings, diagrams, and photos. Included here are measurements, detailed drawings, construction methods, and models. The book covers canoes from Newfoundland to the Pacific Ocean, as well as umiaks and kayaks from the Arctic.

*Types of canoes on Puget Sound* Geraldine Coffin,T. T. Waterman,2022-06-02 The purpose of this work was to describe the types of canoes found at that time on the area of Puget Sound and then summarize, as much as possible, the distribution of these types into other regions based on meager information. The location of Puget sound lies in a general way toward the center of this region, and in this surrounding, the widest variety of canoes seem to be in use. *Bark Canoes and Skin Boats of North America* Edwin Tappan Adney Howard Irving Chapelle,2016-08-13 The bark canoes of the North American Indians, particularly those of birch bark, were among the most highly developed of manually propelled primitive watercraft. Built with Stone Age tools from materials available in the areas of their use, their design, size, and appearance were varied so as to create boats suitable to the many and different requirements of their users. The great skill exhibited in their design and construction shows that a long period of development must have taken place before they became known to white men. The Indian bark canoes were most efficient watercraft for use in forest travel; they were capable of being propelled easily with a single-bladed paddle. This allowed the paddler, unlike the oarsman, to face the direction of travel, a necessity in obstructed or shoal waters and in fast-moving streams. The canoes, being light, could be carried overland for long distances, even where trails were rough or nonexistent. Yet they could carry heavy loads in shallow water and could be repaired in the forest without special tools. Bark canoes were designed for various conditions: some for use in rapid streams, some for quiet waters, some for the open waters of lakes, some for use along the coast. Most were intended for portage in overland transportation as well. They were built in a variety of sizes, from small one-man hunting and fishing canoes to canoes large enough to carry a ton of cargo and a crew, or a war-party, or one or more families moving to new habitations. Some canoes were designed so that they could be used, turned bottom up, for shelter ashore...
