Making Patient Privacy a Reality United States. Congress. Senate. Committee on Health, Education, Labor, and Pensions,2001

Handbook of Diabetes Management Donna Zazworsky,Jane Nelson Bolin,Vicki Gaubeca,2007-12-29 The growing problem of diabetes presents difficult challenges for sufferers and for those in the healthcare professions, who are in the unenviable position of trying to convince patients to change their lifestyle for their own good. Handbook of Diabetes Management provides practical knowledge and advice that can help you anticipate the challenges of working with these Patients. What's more, since the knowledge here is evidence-based, you can assure your patients that the guidelines you're presenting to them have been shown to be effective. This guide takes into account the complexity of the disease, the diversity of the populations it affects, and the continued improvement of care systems. It discusses the origins of diabetes and medication management and treatment, then presents advice based on the latest research findings on: -behavioral health and self-management issues and interventions -tips for patients dealing with issues such as travel, surgery, and foot care -treating specific patient populations including Latinos, Native Americans, rural communities, and the uninsured -case studies from successful, replicable programs Also addressing the business aspects of diabetes care related to such areas as legal and regulatory issues and health policy initiatives, Handbook of Diabetes Management, brings you practical insights based on the latest research. This handbook book by expert professionals covers every aspect of diabetic care. It is a sound, evidence-based, culturally informative, practical approach to diabetes prevention and disease management. -Kathleen Lambert, BSN, RN, JD, from the Foreword

Families and Frontiers Kathryn Edwards,2021-10-01 As put forth by Edwards, the eastern duchy and the western county of Burgundy constituted a frontier society from the death of Charles the Bold in 1477 until 1540. Through detailed case studies and family reconstructions of elites from the Saône River valley, specifically the cities of Dijon, Dole, and Besançon, this book examines the social, cultural, political, and economic relationships of the Burgundians on a local level. Edwards successfully challenges the national models still frequently used in modern historiography and offers a provocative alternative to better understand this anomalous area and the creation of pre-modern regional identity.

Spirited Lives Carol K. Coburn,Martha Smith,2005-10-12 Made doubly marginal by their gender and by their religion, American nuns have rarely been granted serious scholarly attention. Instead, their lives and achievements have been obscured by myths or distorted by stereotypes. Placing nuns into the mainstream of American religious and women's history for the first time, Spirited Lives reveals their critical impact on the development of Catholic culture and, ultimately, the building of American society. Focusing on the Sisters of St. Joseph of Carondelet, one of the largest and most diverse American sisterhoods, Carol Coburn and Martha Smith explore how nuns directly influenced the lives of millions of Americans, both Catholic and non-Catholic, through their work in schools, hospitals, orphanages, and other social service institutions. Far from functioning as passive handmaidens for Catholic clergy and parishes, nuns created, financed, and administered these institutions, struggling with, and at times resisting, male secular and clerical authority. A rich and multifaceted narrative, Spirited Lives illuminates the intersection of gender, religion, and power in nineteenth- and early-twentieth-century America.

Sisters of St. Joseph of Carondelet ,1966

The Pollyanna Principles Hildy Gottlieb,2009 The Pollyanna Principles will show you how to create the future for your organization and your community right now! From the first page of this groundbreaking work, prepare to be inspired to get to work creating an extraordinary future for your community. Drawing on her extensive experience in the field, the nonprofit sector's respected contrarian - veteran consultant and author Hildy Gottlieb - debunks everything you thought was true about creating effective organizations. From governance to planning to resource development and everything in between, Gottlieb has one goal in mind as she reinvents the Community Benefit Sector's most commonly used systems: How to build healthy organizations as just one step in building strong, healthy, vibrant communities.
