Steeped in a Culture of Violence Brandon T. Jett, Kenneth Howell, 2023-05-15 The Texas shooting at Santa Fe High School on May 18, 2018, which killed ten and injured thirteen, prompted public debate over the causes and potential solutions to this type of violent episode. On May 21, 2018, National Rifle Association president Oliver North declared that a culture of violence is largely responsible for these killings. "The problem that we've got is we're trying like the dickens to treat the symptom without treating the disease. . . . The disease is youngsters who are steeped in a culture of violence." This debate has captivated the American media and general public for decades. Texas history is steeped in brutality and bloodshed, creating a narrative that these conditions are still a vital part of the state's culture in the twenty-first century. But perceptions of violence are often at odds with realities on the ground. Over several centuries, violence has decreased with the development of modern society, but popular perception seems to be that a culture of violence has emerged, and perhaps persisted despite demographic, economic, cultural, and political shifts in Texas. Starting from the notion that a culture of violence existed historically in the state and asking if such a culture still persists in modern Texas, this collection of essays examines trends associated with various types of violence within the state as well as social and political responses from 1965 to 2020. This important and timely work provides valuable context for discussions on violence in the past and for the future.

**Airline Business in the 21st Century** Rigas Doganis, 2005-06-28 This book focuses on the major issues that will affect the airline industry in this new millennium. Among the issues discussed are: \* the low-cost airline \* the impact of electronic commerce \* the debate on global

airline alliances \* privatizing state-owned airlines \* the creation of a Trans Atlantic Common Aviation area Most importantly, the book carefully analyzes the strategies that are needed for airlines to succeed in the twenty-first century. **PROSPERITY GOSPEL - and it's effect on the 21st Century Church - A Historical and Theological perspective on the Prosperity Gospel** DR. JEFFERY B. BOWENS, 2012-01-27 The Prosperity Gospel has been one of the most talked about discussions of the 21st century, particularly within the Christian Community. The battle line has been drawn by prominent theologians, influential scholars, pundits, and televangelists alike, who are on different sides of this debate and no one is conceding ground to anyone else. The narrow view simply places emphasis and focus on a more capitalistic view of prosperity, such as exquisite homes, fashionable wardrobes, excessive wealth, expensive cars, material and temporal possessions. Things which are tangible and are seen have come to symbolize for many prosperity and achieving the American dream. On the other hand the broader perspective of prosperity is associated with possessing good health, accomplishing ones goals, experiencing a changed life, having a healthy home life, seeing others become productive members of society, and maintaining a perpetual fellowship with the creator. Wherefore, this material will help the reader to be more distinct and precise in defining the different nuisances of prosperity from a historical and theological perspective.

Anti-Black Violence in Twentieth-Century Texas Bruce A. Glasrud, 2015-09-18 Anti-Black Violence in Twentieth-Century Texas provides an arresting look at the history of violence against African Americans in Texas. From a lynching in Paris at the turn of the century to the 1998 murder of Jasper resident James Byrd Jr., who was dragged to death behind a truck, this volume uncovers the violent side of race relations in the Lone Star State. Historian Bruce A. Glasrud has curated an essential contribution to Texas history and historiography that will also bring attention to a chapter in the state's history that, for many, is still very much a part of the present.

*Turn-of-the-Century Photographs from San Diego, Texas* Ana Carolina Castillo Crimm, Sara R. Massey, 2010-06-28 Situated in the South Texas borderlands some fifty miles west of Corpus Christi, San Diego was a thriving town already a hundred years old at the turn of the twentieth century. With a population that was 90 percent Mexican or Mexican American and 10 percent Anglo, the bicultural community was the seat of Duval County and a prosperous town of lumberyards, banks, mercantile stores, and cotton gins, which also supplied the needs of area ranchers and farmers. Though Anglos dominated its economic and political life, San Diego was culturally Mexican, and Mexican Americans as well as Anglos built successful businesses and made fortunes. This collection of nearly one hundred photographs from the estate of amateur photographer William Hoffman captures the cosmopolitan town of San Diego at a vibrant moment in its history between 1898 and 1909. Grouped into the categories women and their jobs, local homes, men and their businesses, children at school and church, families and friends, and entertainment about town, the photos offer an immediate visual understanding of the cultural and economic life of the community, enhanced by detailed captions that identify the subjects and circumstances of the photos. An introductory historical

chapter constitutes the first published history of Duval County, which was one of the most important areas of South Texas in the early twentieth century.

**Refocusing Transportation Planning for the 21st Century** National Research Council (U.S.). Transportation Research Board, 2000 Two conferences on Refocusing Transportation Planning for the 21st Century were held in 1999 following passage of the Transportation Equity Act for the 21st Century (TEA-21). The first conference focused on the identification of key trends, issues, and general areas of research. The results of Conference I, which produced stand-alone products, were used as input for Conference II. The second conference had the specific objective of producing research problem statements. Its mission was to review the results of the first conference by developing these statements. Conference II produced a number of detailed research statements that form the basis for the National Agenda for Transportation Planning Research. The proceedings of both conferences are presented in this report.

**The African American Experience in Texas** Bruce A. Glasrud, James Smallwood, 2007 The

African American Experience in Texas collects for the first time the finest historical research and writing on African Americans in Texas. Covering the time period between 1820 and the late 1970s, the selections highlight the significant role that black Texans played in the development of the state. Topics include politics, slavery, religion, military experience, segregation and discrimination, civil rights, women, education, and recreation. This anthology provides new insights into a previously neglected part of American history and is essential reading for anyone interested in the history of black Texans.

*Restoring the First-century Church in the Twenty-first Century* Warren Lewis, Hans Rollmann, 2005-10-15 'Restoring the First-century Church in the Twenty-first Century: Essays on the Stone-Campbell Restoration Movement in Honor of Don Haymes' is a snap-shot of a major American religious movement just after the turn of the millennium. When the 'Disciples' of Alexander Campbell and the 'Christians' of Barton Warren Stone joined forces early in the 19th century, the first indigenous ecumenical movement in the United States came into being. Two hundred years later, this American experiment in biblical primitivism has resulted in three, possibly four, large segments. Best known is the Christian Church (Disciples of Christ), active wherever ecumenical Christians gather. The denomination is typically theologically open, having been reshaped by theological Liberalism and the Social Gospel in the twentieth century, and has been re-organized on the model of other Protestant bodies. The largest group, the Churches of Christ, easily distinguished by their insistence on 'a cappella' music (singing only), is theologically conservative, now tending towards the evangelical, and congregationally autonomous, though with a denominational sense of

brotherhood. The Christian Churches/Churches of Christ (Independent) are a 'via media' between the two other bodies: theologically conservative and evangelical, congregationally autonomous, pastorally oriented, and comfortable with instrumental music. The fourth numerically significant group, the churches of Christ (Anti-Institutional), is a conservative reaction to the 'a cappella' churches, much in the way that the Southern 'a capella' churches reacted against the emerging intellectual culture and social location, instrumental music and institutional centrism of the Northern Disciples following the Civil War. Besides these four, numerous smaller fragments, typically one-article splinter groups, decorate the history of the Restoration Movement: One-Cup brethren, Premillennialists, No-Sunday-School congregations, No-Located-Precacher churches, and others. This movement to unite Christians on the basis of faith and immersion in Jesus Christ, and to restore New-Testament Christianity, is too little recognized on the American religious landscape, and it has been too little studied by the academic community. This volume is focused primarily on the 'a cappella' churches and their interests, but implications for the entire Stone-Campbell Restoration Movement abound. The voices that speak freely within were unimpeded in authoring these essays by standards of orthodoxy imposed from without. All of the contributors are acquainted with Don Haymes, the honoree of the volume, and have been inspired by this friend and colleague, a man with a rigorous and earthy intellect and a heavenly spirit. David Bundy, series editor Studies in the History and Culture of World Christianities

The magazine's unique name is Spanish for mayor or chief magistrate; the nickname of the governor who signed UT into existence was The Old Alcalde.

**Circuit Riders for Mental Health** William S. Bush,2016-10-06 Circuit Riders for Mental Health explores for the first time the transformation of popular understandings of mental health, the reform of scandal-ridden hospitals and institutions, the emergence of community mental health services, and the extension of mental health services to minority populations around the state of Texas. Author William S. Bush focuses especially on the years between 1940 and 1980 to demonstrate the dramatic, though sometimes halting and conflicted, progress made in Texas to provide mental health services to its people over the second half of the twentieth century. At the story's center is the Hogg Foundation for Mental Health, a private-public philanthropic organization housed at the University of Texas. For the first three decades of its existence, the Hogg Foundation was the state's leading source of public information, policy reform, and professional education in mental health. Its staff and allies throughout the state described themselves as "circuit riders" as they traveled around Texas to introduce urban and rural audiences to the concept of mental health, provide consultation for all manner of social services, and sometimes intervene in thorny issues surrounding race, ethnicity, gender, class, region, and social and cultural change.
