Building Chicago's Subways David Sadowski,2018 While the elevated Chicago Loop is justly famous as a symbol of the city, the fascinating history of its subways is less well known. The City of Chicago broke ground on what would become the Initial System of Subways during the Great Depression and finished 20 years later. This gigantic construction project, a part of the New Deal, would

overcome many obstacles while tunneling through Chicago's soft blue clay, under congested downtown streets, and even beneath the mighty Chicago River. Chicago's first rapid transit subway opened in 1943 after decades of wrangling over routes, financing, and logistics. It grew to encompass the State Street, Dearborn-Milwaukee, and West Side Subways, with the latter modernizing the old Garfield Park L into the median of Chicago's first expressway. Take a trip underground and see how Chicago's I Will spirit overcame challenges and persevered to help with the successful building of the subways that move millions. Building Chicago's subways was national news and a matter of considerable civic pride--making it a Second City no more

Run, Hide, Repeat Pauline Dakin, 2017-09-05 Winner of the 2018 Edna Staebler Award for Creative Non-Fiction Longlisted for British Columbia's National Award for Canadian Non-Fiction 2018 Shortlisted for the 2018 Evelyn Richardson Non-fiction Award Shortlisted for the 2018 Atlantic Book Awards - Margaret and John Savage First Book Award Shortlisted for the 2018 Frank Hegyi Award for Emerging Authors An unforgettable family tale of deception and betrayal, love and forgiveness Pauline Dakin spent her childhood on the run. Without warning, her mother twice uprooted her and her brother, moving thousands of miles away from family and friends. Disturbing events interrupt their outwardly normal life: break-ins, car thefts, even physical attacks on a family friend. Many years later, her mother finally revealed they'd been running from the Mafia and were receiving protection from a covert anti-organized crime task force. But the truth was even more bizarre. Gradually, Dakin's fears give way to suspicion. She puts her journalistic training to work and discovers that the Mafia threat was actually an elaborate web of lies. As she revisits her past, Dakin uncovers the human capacity for betrayal and deception, and the power of love to forgive. *Run, Hide, Repeat* is a memoir of a childhood steeped in unexplained fear and menace. Gripping and suspenseful, it moves from Dakin's uneasy acceptance of her family's dire situation to bewildered anger. As compelling and twisted as a thriller, *Run Hide Repeat* is an unforgettable portrait of a family under threat, and the resilience of family bonds.

Mind the Gap Richard G. Wilkinson, 2001-01-01 Inequality kills. Both rich and poor die younger in countries with the greatest inequalities in income. Countries such as the United States with big gaps between rich and poor have higher death rates than

those with smaller gaps such as Sweden and Japan. Why? In this provocative book, Richard Wilkinson provides a novel Darwinian approach to the question. Wilkinson points out that inequality is new to our species: in our two-million-year history, human societies became hierarchical only about ten thousand years ago. Because our minds and bodies are adapted to a more egalitarian life, today's hierarchical structures may be considered unnatural. To people at the bottom of the heap, the world seems hostile and the stress is harmful. If you are not in control, you're at risk. This is a penetrating analysis of patterns of health and disease that has implications for social policy. Wilkinson concludes that rather than relying on more police, prisons, social workers, or doctors, we must tackle the corrosive social effects of income differences in our society.
