Sex in Antiquity Mark Masterson,Nancy Sorkin Rabinowitz,James Robson,2018-02-05 Looking at sex and sexuality
from a variety of historical, sociological and theoretical perspectives, as represented in a variety of media, Sex
in Antiquity represents a vibrant picture of the discipline of ancient gender and sexuality studies, showcasing
the work of leading international scholars as well as that of emerging talents and new voices. Sexuality and
gender in the ancient world is an area of research that has grown quickly with often sudden shifts in focus and
theoretical standpoints. This volume contextualises these shifts while putting in place new ideas and avenues of
exploration that further develop this lively field or set of disciplines. This broad study also includes studies
of gender and sexuality in the Ancient Near East which not only provide rich consideration of those areas but also
provide a comparative perspective not often found in such collections. Sex in Antiquity is a major contribution to
the field of ancient gender and sexuality studies.
