Under Confucian Eyes Susan Mann,Yu-Yin Cheng,2001 This important volume adds a significant number of new and unique materials for teachers at all levels of higher education to use in classroom and seminar discussion about the issues of gender, society, and religion in imperial China.-- Benjamin Elman, author of A Cultural History of Civil Examinations in Late Imperial China The eighteen primary documents in this anthology, all of them translated for the first time, provide a rich array of sources on the lives of women in China's past. The anthology is important not only for the selection of documents but for the ways it suggests we can think about, and find sources about, women in China. It is must reading for scholars and students alike.--Ann Waltner, author of The World of a Late Ming Visionary: T'an-Yang-Tzu and Her Followers

Sync My World Rodney St.Michael,2015-06-17 People universally worship the Oedipus complex through gods such as Yah, the son of Allah, and Hawah, Allah's wife. When Yah, a snake deity, tongues the Burning Bush of Hawah, a tree goddess, their union is symbolized by the menorah. Together, they are called Yahweh today. The female child has a similar instinct, visually evident through the Crescent and Star, symbolizing Sin, the bisexual moon deity, and Easter, the Superstar (Venus). They are aspects of the sky god Allah, representing a daughter's attachment to her mother-father. The Oedipal force for both genders is most prominent among browns and females, especially bisexuals, but it is innate in everyone's unconscious mind. As part of Easter's five archetypes or political identities, it is the source of all conflict. How do we manage this force and the resulting conflict?

Celebrating Life Customs around the World [3 volumes] Victoria R. Williams,2016-11-21 This book documents hundreds of customs and traditions practiced in countries outside of the United States, showcasing the diversity of birth, coming-of-age, and death celebrations worldwide. From the beginning of our lives to the end, all of humanity celebrates life's milestones through traditions and unique customs. In the United States, we have specific events like baby showers, rites of passage such as Bat and Bar Mitzvahs and sweet 16 birthday parties, and sober end-of-life traditions like obituaries and funeral services that honor those who have died. But what kinds of customs and traditions are practiced in other countries? How do people in other cultures welcome babies, prepare to enter into adulthood, and commemorate the end of the lives of loved ones? This three-volume encyclopedia covers more than 300 birth, life, and death customs, with the books' content organized chronologically by life stage. Volume 1 focuses on birth and childhood customs, Volume 2 documents adolescent and early-adulthood customs, and Volume 3 looks at aging and death customs. The entries in the first volume examine pre-birth traditions, such as baby showers and other gift-giving events, and post-birth customs, such as naming

ceremonies, child-rearing practices, and traditions performed to ward off evil or promote good health. The second volume contains information about rites of passage as children become adults, including indigenous initiations, marriage customs, and religious ceremonies. The final volume concludes with coverage on customs associated with aging and death, such as retirement celebrations, elaborate funeral processions, and the creation of fantasy coffins. The set features beautiful color inserts that illustrate examples of celebrations and ceremonies and includes an appendix of excerpts from primary documents that include legislation on government-accepted names, wedding vows, and maternity/paternity leave regulations.

Gender discriminations among young children in Asia Collectif, 2020-10-09 Subsequent to the demographic transition, Asian countries have been experiencing deep-rooted changes in family structures. In this context, the question of gender relations within the family, and more generally within society, is crucial, in view of the increase in discriminatory practices toward women, beginning at foetal conception and continuing through all stages of life. Asia is the “black continent” for women. Estimates place the deficit in the number of women in the world at between 60 and 100 million, the vast majority of which is found on this continent. This book focuses on the intensity of female discrimination, from a demographic perspective, in the earliest stages of life, and more specifically around birth, in China, India, Pakistan, the Republic of Korea and Taiwan. These societies share cultural characteristics that are not favourable to women: patriarchal systems, patrilineal families, socialization processes encouraging the submission of wives to their husband's family, etc. In these societies, a son is needed to perpetuate the family line and ensure social and biological reproduction of the family. These are among the reasons why they share a strong son preference, which is in some cases accentuated by economic constraints. A son is generally the only person to support his parents in old age, and as a rule help with work in the fields. Moreover, girls and women still occupy a marginal position in society, whereas a male heir offers countless advantages.

The Gender of Memory Gail Hershatter, 2011-08-05 What can we learn about the Chinese revolution by placing a doubly marginalized group—rural women—at the center of the inquiry? In this book, Gail Hershatter explores changes in the lives of seventy-two elderly women in rural Shaanxi province during the revolutionary decades of the 1950s and 1960s. Interweaving these women's life histories with insightful analysis, Hershatter shows how Party-state policy became local and personal, and how it affected women's agricultural work, domestic routines, activism, marriage, childbirth, and parenting—even their notions of virtue and respectability. The women narrate their pasts from the vantage point of the present and highlight their enduring virtues, important achievements, and most deeply harbored grievances. In showing what memories can tell us about gender as an axis of power, difference, and collectivity in 1950s rural China and the present, Hershatter powerfully examines the nature of socialism and how gender figured in its creation.

Hands Off My Belly Shawn A. Tassone, 2009-12-30 Expectant mothers are virtual magnets for unsolicited advice. Mothers, grandmothers, aunts, sisters, sisters-in-law, new mothers, friends, and even strangers offer what seems to be an endless supply of supposedly authoritative opinions on every aspect of pregnancy: A craving for spicy food denotes a boy. Carrying the baby low denotes a girl. Besides gender predictions, a pregnant woman is also apt to acquire an earful of advice about miscarriage, dietary habits and cravings, hair growth, weight gain, and childbirth. And, of course, everyone wants to touch her belly. In this engaging, humorous, and very informative book, Drs. Shawn A. Tassone and Kathryn Landherr—experienced obstetricians and gynecologists, a husband-and-wife team of physicians, and parents of four children—explore the most common superstitions and myths surrounding pregnancy. From their combined twenty years of work in a clinic, as well as their own parenting experience, the authors review the anecdotes and beliefs, from the slightly unusual to the stranger-than-fiction, and compare them with the scientific evidence. Moving through each stage, from the early weeks of pregnancy to delivery, they examine the legends about diet, gender identification, preterm labor, the umbilical cord, initiating labor, and the size and movement of the fetus. As they detail the scientific perspective on these varied and often amusing beliefs, the authors not only entertain but provide a great deal of practical information, which will ease the fears and anxieties of expectant parents as well as clear up many confusing notions. If you are pregnant, you owe it to yourself to get this book. Better yet, suggest it as the perfect shower gift to all those well-meaning advice givers.

Theorising Chinese Masculinity Kam Louie, 2002-04 This book is the first comprehensive analysis of Chinese masculinity. Kam Louie uses the concepts of wen (cultural attainment) and wu (martial valour) to explain attitudes to masculinity. This revises most Western analyses of Asian masculinity that rely on the yin-yang binary. Examining classical and contemporary Chinese literature and film, the book also looks at the Chinese diaspora to consider Chinese masculinity within and outside China.
