For the past 10 years, Inc. 500 CEO and #1 national best-selling author, Ryan Levesque--featured for his work in the Wall Street Journal, USA Today, Forbes, and Entrepreneur--has guided thousands of entrepreneurs through the journey of answering this question. One of the biggest reasons why so many new businesses fail is because in the quest to decide what business to start, most of the conventional wisdom is wrong. Instead of obsessing over what--as in what should you sell or what should you build--you should first be asking who. As in who should you serve? If you've ever had the dream to start your own business, become your own boss, or do your own thing--but have been afraid to take the leap and screw up your already good life--this book is for you. You will find the meticulously tested, step-by-step process outlined in the book is easy to follow, despite being the result of a decade of research and experience. The Scars We Choose A. Lee Hughes,2020-07-08 Scarlett Elizabeth Nell Waverly has a story to tell and it's as big as her name. Like most stories, hers is divided into interwoven parts. The first part starts when she's young and her family buys a beach house on the Florida Gulf Coast. That's where she meets and falls in love with Julian Rose, a handsome biracial boy with a scarred face and a whacky, secret-keeping family. Just like her own. But not quite. Young Lizzie Nell's family disapproves of her friendship and budding romance with Julian Rose and they take drastic measures at keeping them apart. Julian also has a story, a story as magical as his haint blue eyes, only he's still trying to figure out where it starts and how it ends. Not long after he turns nine and learns a little about his mother's disappearance, Julian sets out to write her messages, stuffing them inside empty rum bottles and tossing them into the Gulf. Although he doesn't yet know it, there is magic in his words, a magic as remarkable as his connection to the little girl down the beach. As time moves on, and the two blossom into adolescence, Lizzie Nell can no longer live the life her family has chosen for her. She runs away-from school, from her unrelenting mother, and even from her name-setting out for New Orleans where she and Julian have planned to make a life together. But some things have a way of finding us, like our scars, the truth, and despondent mothers. The first book in a two-part series, THE SCARS WE CHOOSE is a coming-of-age story about how we define love, the ways in which we cope when overcoming adversity, and the consequences that can arise when we allow other people, places, and events to affect our decisions, and ultimately, our happiness.

The Oxford Handbook of Public Choice, Volume 1 Roger D. Congleton, Bernard N. Grofman, Stefan Voigt, 2018-12-07 The Oxford Handbook of Public Choice provides a comprehensive overview of the research in economics, political science, law, and sociology that has generated considerable insight into the politics of democratic and authoritarian systems as well as the influence of different institutional frameworks on incentives and outcomes. The result is an improved understanding of public policy, public finance, industrial organization, and macroeconomics as the combination of political and economic analysis shed light on how various interests compete both within a given rules of the games and, at times, to change the rules. These volumes include analytical surveys, syntheses, and general overviews of the many subfields of public choice focusing on interesting, important, and at times contentious issues. Throughout the focus is on enhancing understanding how political and economic systems act and interact, and how they might be improved. Both volumes combine methodological analysis with substantive overviews of key topics. This first volume covers voting and elections; interest group competition and rent seeking, including corruption and various normative approaches to evaluating policies and politics. Throughout both volumes important analytical concepts and tools are discussed, including their application to substantive topics. Readers will gain increased understanding of rational choice and its implications for collective action; various explanations of voting, including economic and expressive; the role of taxation and finance in government dynamics; how trust and persuasion influence political outcomes; and how revolution, coups, and authoritarianism can be explained by the same set of analytical tools as enhance understanding of the various forms of democracy.

A Bone to Pick Mark Bittman, 2015-05-05 Since his New York Times op-ed column debuted in 2011, Mark Bittman has emerged as one of our most impassioned and opinionated observers of the food landscape. The Times' only dedicated opinion columnist covering the food beat, Bittman routinely makes readers think twice about how the food we eat is produced, distributed, and cooked, and shines a bright light on the profound impact that diet—both good and bad—can have on our health and that of the planet. In *A Bone to Pick*, Mark's most memorable and thought-provoking columns are compiled into a single volume for the first time. As abundant and safe as the American food supply appears to be, the state of our health reveals the presence of staggering deficiencies in both the system that produces food and the forces that regulate it. Bittman leaves no issue unexamined; agricultural practices, government legislation, fad diets, and corporate greed all come under scrutiny and show that the issues governing what ends up in our market basket and on our tables are both complex and often deliberately confusing. Unabashedly opinionated and invariably thought provoking, Bittman's columns have helped readers decipher arcane policy, unpack scientific studies, and deflate affronts to common sense when it comes to determining what "eating well" truly means. As urgent as the situation is, Mark contends that we can be optimistic about the future of our food and its impact on our health, as slow-food movements, better school-lunch programs, and even "healthy fast food" become part of the norm. At once inspiring, enraging, and enlightening, *A Bone to Pick* is an essential resource for every reader eager to understand not only the complexities inherent in the American food system, but also the many opportunities that exist to improve it.

Please Stop Laughing at Me Jodee Blanco,2022-04-19 In this timely update of the seminal classic, author and activist Jodee Blanco reveals how she simply set out to share her story-and ended up igniting a grassroots movement in the nation's schools. The first survivor of school bullying to look back on those experiences as an adult, Jodee brings you up to speed on her life and work since the book's initial release with a new chapter, all-new Letter to My Readers, and Reader's Guide. She also offers the latest information on digital and cyberbullying, the Adult Survivor of Peer Abuse, her in-school antibullying program, INJJA (It's NOT Just Joking Around!), and provides discussion questions for schools. While other children were daydreaming about dances, first kisses, and college, Jodee Blanco was trying to figure out how to go from homeroom to study hall without being taunted or spit upon as she walked through the halls. This powerful, unforgettable memoir chronicles how one child was shunned-and even physically abused-by her classmates from elementary school through high school. It is an unflinching look at what it means to be the outcast, how even the most loving parents can get it all wrong, why schools are often unable to prevent disaster, and how bullying has been misunderstood and mishandled by the mental health community--

Choices, A Novel About Choosing A Life Forrest Landry,2005-10 Choices is an amazing collection of 75 short-short stories, all telling about Hugh Sutherland's daily choices. He lives in the middle of the block and has to choose to go left or right each morning, to get to either of two bus lines so he can go to work. One frigid morning he gets hit between the eyes with the realization that if he goes left, he misses all the experiences he'd have had if he'd gone right, and vice versa. He's blown away by his philosophical epiphany and sits on his front stoop, freezing his tuckus off. And finally he has to get up and go, one way or the other. The rest of the stories show his sudden awareness having a great impact on his life. It's a riveting tale.I wrote Choices to show how choices have far-reaching effects. If not one way, then another - it's not always just left or right. And if you choose a way that you don't like, then choose another!The
