World War I Park Lane Books Staff,2013-10-01 This unique boxed set provides the complete story of World War I through the eyes of the men fighting for their countries.

Writing the War Anne Kiley,Thomas Pellechia,David Kiley,2015-10-13 As expansive as it is personal, this chronicle of World War II is a firsthand account by a journalist and the woman he would marry of the dramatic events that engulfed the world in the middle of the twentieth century. The correspondence between Charles Kiley and Billee Gray also tells the poignant tale of two young people in love but forced apart by the circumstances of war. Edited by Charles and Billee's daughter, son, and son-in-law, this never-before-published compilation of letters is a striking example of the heroic, call-to-duty spirit that characterized the greatest generation. Charles was a soldier-journalist for the U.S. Army's Stars and Stripes newspaper and reported on the war from London, Normandy, Paris, Reims, Belgium, and Germany. As the sole reporter allowed direct access to Eisenhower's staff, he was the only reporter on the scene when the German high command was negotiating its unconditional surrender on May 7, 1945. Among his army newspaper friends and colleagues was Andy Rooney, later CBS correspondent and 60 Minutes commentator. Billee, like many young women of her time, witnessed the war years from the home front and filled vital civilian roles--defense-industry plant worker, Red Cross volunteer, war bonds

salesgirl, and civil defense plane-spotter--and wrote about it all in her letters to Charles. Peppered with fascinating details about soldiers' and civilians' lives, and including Stars and Stripes articles and personal photographs of the era, *Writing the War* is both important history and a tribute to two remarkable people as well as their extraordinary generation.

Chronicles of World War II David G. Chandler, Colin McIntyre, Michael C. Tagg, 1997 Recounting the build-up to and course of some of the most momentous battles of the Second World War, this book presents a wide-ranging view of the conflict that engulfed the world. Illustrated with 350 photographs and maps of the conflict in Europe, North Africa and the Pacific, it explains the progress of the fighting, and the impact of new weapons and tactics on the war's ultimate outcome.

Seymour Charles, 2016-06-23 Unlike some other reproductions of classic texts (1) We have not used OCR (Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

C-66 Weston Emery,2017-07-12 This is the story of 512 men who worked for a common goal during a period of 155 days. Few of them were together during all those days, but all of them belonged to the same group. Many were no longer there when the job was done. Some gave their lives early - Some were taken prisoner - Some were hospitalized - Some gave their lives later - Some were with the group for 155 days. This brief record of their service in World War II is dedicated to all of them. This is a remarkable record of one unit of an armored division during the last five months of the the war in Europe. It is carefully researched from official documents of the National Archives, and is laced with letters written home. This saga has been compiled by one of the enlisted men who never missed a day of duty and whose first hand view point as a company commander's combat radioman gives us a broad inside view of the company.

"The Good War" Studs Terkel,2011-07-26 Winner of the Pulitzer Prize: "The richest and most powerful single document of the American experience in World War II" (The Boston Globe). "The Good War" is a testament not only to the experience of war but to the extraordinary skill of Studs Terkel as an

interviewer and oral historian. From a pipe fitter's apprentice at Pearl Harbor to a crew member of the flight that dropped the atomic bomb on Nagasaki, his subjects are open and unrelenting in their analyses of themselves and their experiences, producing what People magazine has called "a splendid epic history" of WWII. With this volume Terkel expanded his scope to the global and the historical, and the result is a masterpiece of oral history. "Tremendously compelling, somehow dramatic and intimate at the same time, as if one has stumbled on private accounts in letters locked in attic trunks . . . In terms of plain human interest, Mr. Terkel may well have put together the most vivid collection of World War II sketches ever gathered between covers." –The New York Times Book Review "I promise you will remember your war years, if you were alive then, with extraordinary vividness as you go through Studs Terkel's book. Or, if you are too young to remember, this is the best place to get a sense of what people were feeling." –Chicago Tribune "A powerful book, repeatedly moving and profoundly disturbing." –People

A Brief History of the U.S. Army in World War II. Wayne M. Dzwonchyk, Center of Military History, 1992 World War II was the largest and most violent armed conflict in the history of mankind. However, the half century that now separates us from that conflict has exacted its toll on our collective

knowledge. While World War II continues to absorb the interest of military scholars and historians, as well as its veterans, a generation of Americans has grown to maturity largely unaware of the political, social, and military implications of a war that, more than any other, united us as people with a common purpose.
