Beyond the Walled City Guadalupe Garcia,2016 Once one of the most important port cities in the New World, Havana was a model for the planning and construction of other colonial cities. This book tells the story of how Havana was conceived, built, and managed and explores the relationship between colonial empire and urbanization in the Americas. Guadalupe García shows how the policing of urban life and public space by imperial authorities from the sixteenth century onward was explicitly centered on politics of racial exclusion and social control. She illustrates the importance of colonial ideologies in the production of urban space and the centrality of race and racial exclusion as an organizing ideology of urban life in Havana. Beyond the Walled City connects colonial urban practices to contemporary debates on urbanization, the policing of public spaces, and the urban dislocation of black and ethnic populations across the region-- Provided by publisher.

*Cuba: What Everyone Needs to Know* Julia E Sweig,2009-06-06 Ever since Fidel Castro assumed power in Cuba in 1959, Americans have obsessed about the nation ninety miles south of the Florida Keys. America's fixation on the tropical socialist republic has only grown over the years, fueled in part by successive waves of Cuban immigration and Castro's larger-than-life persona. Cubans are now a major ethnic group in Florida, and the exile community is so powerful that every American president has kowtowed to it. But what do most Americans really know about Cuba itself? In *Cuba: What Everyone Needs to Know*, Julia Sweig, one of America's leading experts on Cuba and Latin America, presents a concise and remarkably accessible portrait of the small island nation's unique place on the world stage over the past fifty years. Yet it is authoritative as well. Following a scene-setting introduction that describes the dynamics unleashed since summer 2006 when Fidel Castro transferred provisional power to his brother Raul, the book looks backward toward Cuba's history since the Spanish American War before shifting to more recent times. Focusing equally on Cuba's role in world affairs and its own social and political transformations, Sweig divides the book chronologically into the pre-Fidel era, the period between the 1959 revolution and the fall of the Soviet Union, the post-Cold War era, and-finally-the looming post-Fidel era. Informative, pithy, and lucidly written, it will serve as the best compact reference on Cuba's internal politics, its often fraught relationship with the United States, and its shifting relationship with the global community.

*Cuba by Korda* Alberto Korda,2022-08-02 Cuba's greatest photographer captures the spirit of the Cuban Revolution—and of Cuba itself—in unforgettable images and text. Korda's photographs and breathtaking reminiscences capture some of the 20th-century's greatest moments with unprecedented intimacy as no other book ever could or will. In the first weeks of 1959, Korda joined the staff of the newly created daily newspaper of Cuba, *Revolución*. From that moment on, Korda documented the heady early days of revolutionary Cuba. When Fidel Castro visited the United States in April 1959, Korda went with him. When Castro visited the Soviet Union in 1963 and 1964, Korda was there, documenting intimate moments with Soviet leader Nikita Krushchev's family and appearing to show the end of the breach that had followed their country's divergent policies during the Cuban Missile Crisis of October 1962. But probably Korda's greatest moment came on March 5, 1960, during a funeral ceremony for the victims of the sabotaged French freighter *La Coubre*, a ship carrying arms purchased by the Cuban military. Fidel knew the attack to be the work of America's CIA. And it altered relations between the two countries forever after. Korda was less than a dozen steps from the platform where Fidel Castro was addressing the crowd of mourners. There were foreign observers present, including Jean-Paul Sartre and Simone de Beauvoir. Che stepped forward to look over the crowd. Korda shot him through his telephoto lens, even though he was near to him. The result would turn into nothing less than one of the most enduring images of our age, though the picture would not see light of day for another year. It was first published on April 15, 1961, just before the Bay of Pigs invasion, and would only become well known when Che's Italian publisher Gianfranco Feltrinelli printed thousands of posters of the image shortly after Che's death.

The History of Havana Dick Cluster,Rafael Hernández,2008-04-29 This is the first comprehensive history of the culturally diverse city, and the first to be co-authored by a Cuban and an American. Beginning with the founding of Havana in 1519, Cluster and Hernández explore the making of the city and its people through revolutions, art, economic development and the interplay of diverse societies. The authors bring together conflicting images of a city that melds cultures and influences to create an identity that is distinctly Cuban.

*Political Essay on the Island of Cuba* Alexander von Humboldt,2011-05-15 The research Alexander von Humboldt amassed during his five-year trek through the Americas in the early 19th century proved foundational to the fields of botany and geology. But his visit to Cuba yielded observations that extended far beyond the natural world. This title presents a physical and cultural study of the island nation.

**Urban Maps** Richard Brook,Nick Dunn,2016-12-05 This book concerns the city and the 'devices' that define the urban environment by their presence, representation or interpretation. The texts offer an interdisciplinary discourse and critique of the complex systems, artifacts, interventions and evidences that can inform our understanding of urban territories; on surfaces, in the margins or within voids. The diverse media of arts practices as well as commercial branding are used to explore narratives that reveal latent characteristics of urban situations that conventional architectural inquiry is unable to do. The subjects covered are presented within a wider framework of urban theory into which are embedded case study examples that outline the practices, processes and interpretations of each theme. The chapters provide a contemporary reading of urban socio-cultural conditions using 'mapping' as a lens to explore and communicate the social phenomena and lived experiences of the dynamic and temporal city. Mapping is developed as a form of critical instrumentality to expose, record and contribute to the understanding of the singular essences of space, place and networks by thematic, cognitive and experiential modes of investigation.

*The Occupation of Havana* Elena A. Schneider,2018-10-29 In 1762, British forces mobilized more than 230 ships and 26,000 soldiers, sailors, and enslaved Africans to attack Havana, one of the wealthiest and most populous ports in the Americas. They met fierce resistance. Spanish soldiers and local militias in Cuba, along with enslaved Africans who were promised freedom, held off the enemy for six suspenseful weeks. In the end, the British prevailed, but more lives were lost in the invasion and subsequent eleven-month British occupation of Havana than during the entire Seven Years' War in North America. The Occupation of Havana offers a nuanced and poignantly human account of the British capture and Spanish recovery of this coveted Caribbean city. The book explores both the interconnected histories of the British and Spanish empires and the crucial role played by free people of color and the enslaved in the creation and defense of Havana. Tragically, these men and women would watch their promise of freedom and greater rights vanish in the face of massive slave importation and increased sugar production upon Cuba's return to Spanish rule. By linking imperial negotiations with events in Cuba and their consequences, Elena Schneider sheds new light on the relationship between slavery and empire at the dawn of the Age of Revolutions.

**The Negro Motorist Green Book** Victor H. Green, The idea of The Green Book is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

*Havana* Mark Kurlansky,2018-03-06 A city of tropical heat, ramshackle beauty, and its very own cadence--a city that always surprises--Havana is brought to pulsing life by New York Times bestselling author Mark Kurlansky. Award-winning author Mark Kurlansky presents an insider's view of Havana: the elegant, tattered city he has come to know over more than thirty years. Part cultural history, part travelogue, with recipes, historic engravings, photographs, and Kurlansky's own pen-and-ink drawings throughout, Havana celebrates the city's singular music, literature, baseball, and food; its five centuries of outstanding, neglected architecture; and its extraordinary blend of cultures. Like all great cities, Havana has a rich history that informs the vibrant place it is today--from the native Taino to Columbus's landing, from Cuba's status as a U.S. protectorate to Batista's dictatorship and Castro's revolution, from Soviet presence to the welcoming of capitalist tourism. Havana is a place of extremes: a beautifully restored colonial city whose cobblestone streets pass through areas that have not been painted or repaired since long before the revolution. Kurlansky shows Havana through the eyes of Cuban writers, such as Alejo Carpentier and José Martí, and foreigners, including Graham Greene and Hemingway. He introduces us to Cuban baseball and its highly opinionated fans; the city's music scene, alive with the rhythm of son; its culinary legacy. Through Mark Kurlansky's multilayered and electrifying portrait, the long-elusive city of Havana comes stirring to life.
