Who Was Claude Monet? Ann Waldron,Who HQ,2009-07-23 Claude Monet is considered one of the most influential artists of all time. He is a founder of the French Impressionist art movement, and today his paintings sell for millions of dollars. While Monet was alive, however, his work was often criticized and he struggled financially. With over one hundred black-and-white illustrations, this book unveils a true portrait of the artist!

Claude Monet Virginia Spate,1992 Monet is incontestably one of the greatest Impressionists, as well as being the most popular. Yet hitherto books on this great figure have been partial, concentrating either on aesthetic or on social aspects of his work without attempting a synthesis. Now Virginia Spate restores plenitude of meaning to Monet's paintings, examining the various ways in which they can be read; the tension between image and reality which energizes them; and the mysterious interactions between the work itself, its exhibition, promotion and sale, and its reception both in public and in private. Based on a complete study of the artist's work - made possible as never before by recently published catalogues of his oeuvre - his surviving letters (nearly 3,000 in all) and contemporary documentary material, this is the fullest account available of a complex and influential man whose style changed and evolved considerably during his long career. Monet is considered as an intelligent and cultured being, a friend to writers such as Zola, Mallarmé and Octave Mirbeau, fully informed as to the cultural and intellectual tendencies of his time. His often neglected figure paintings, always of family or friends, are analyzed alongside his landscapes, which ranged from timeless river scenes to steam-filled railway stations. Changes in his output in response to shifts in demand are linked to the new system of art dealers and to his financial situation. The France of Monet's youth and maturity is covered in depth, especially the traumatic legacy of the Franco-Prussian war and the Paris Commune; and his famous garden at Giverny is shown to be both a personal Utopia and a vital part of his creative processes. The dialectic of the real world and its representation in art is explored in detail as manifested in his splendid canvases - faithfully reproduced in over 130 colour plates. This definitive treatment of a hugely important artist makes an indispensable contribution to the art history of Impressionism and the roots of modernism.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Claude Monet Nathalia Brodskaya,2011-07-01 For Claude Monet the designation 'impressionist' always remained a source of pride. In spite of all the things critics have written about his work, Monet continued to be a true impressionist to the end of his very long life. He was so by deep conviction, and for his Impressionism he may have sacrificed many other opportunities that his enormous talent held out to him. Monet did not paint classical compositions with figures, and he did not become a portraitist, although his professional training included those skills. He chose a single genre for himself, landscape painting, and in that he achieved a degree of perfection none of his contemporaries managed to attain. Yet the little boy began by drawing caricatures. Boudin advised Monet to stop doing caricatures and to take up landscapes instead. The sea, the sky, animals, people, and trees are beautiful in the exact state in which nature created them - surrounded by air and light. Indeed, it was Boudin who passed on to Monet his conviction of the importance of working in the open air, which Monet would in turn transmit to his impressionist friends. Monet did not want to enrol at the Ecole des Beaux-Arts. He chose to attend a private school, L'Académie Suisse, established by an ex-model on the Quai d'Orfèvres near the Pont Saint-Michel. One could draw and paint from a live model there for a modest fee. This was where Monet met the future impressionist Camille Pissarro. Later in Gleyre's studio, Monet met Auguste Renoir, Alfred Sisley, and Frédéric Bazille. Monet considered it very important that Boudin be introduced to his new friends. He also told his friends of another painter he had found in Normandy. This was the remarkable Dutchman Jongkind. His landscapes were saturated with colour, and their sincerity, at times even their naïveté, was combined with subtle observation of the Normandy shore's variable nature. At this time Monet's landscapes were not yet characterized by great richness of colour. Rather, they recalled the tonalities of paintings by the Barbizon artists, and Boudin's seascapes. He composed a range of colour based on yellow-brown or blue-grey. At the Third Impressionist Exhibition in 1877 Monet presented a series of paintings for the first time: seven views of the Saint-Lazare train station. He selected them from among twelve he had painted at the station. This motif in Monet's work is in line not only with Manet's Chemin de fer (The Railway) and with his own landscapes featuring trains and stations at Argenteuil, but also with a trend that surfaced after the railways first began to appear. In 1883, Monet had bought a house in the village of Giverny, near the little town of Vernon. At Giverny, series painting became one of his chief working procedures. Meadows became his permanent workplace. When a journalist, who had come from Vétheuil to interview Monet, asked him where his studio was, the painter answered, "My studio! I've never had a studio, and I can't see why one would lock oneself up in a room. To draw, yes - to paint, no". Then, broadly gesturing towards the Seine, the hills, and the silhouette of the little town, he declared, "There's my real studio." Monet began to go to London in the last decade of the nineteenth century. He began all his London paintings working directly from nature, but completed many of them afterwards, at Giverny. The series formed an indivisible whole, and the painter had to work on all his canvases at one time. A friend of Monet's, the writer Octave Mirbeau, wrote that he had accomplished a miracle. With the help of colours he had succeeded in recreating on the canvas something almost impossible to capture: he was reproducing sunlight, enriching it with an infinite number of reflections. Alone among the impressionists, Claude Monet took an almost scientific study of the possibilities of colour to its limits; it is unlikely that one could have gone any further in that direction.

Mad Enchantment Ross King,2017-09-12 From bestselling author Ross King, a brilliant portrait of the legendary artist and the story of his most memorable achievement. Claude Monet is perhaps the world's most beloved artist, and among all his creations, the paintings of the water lilies in his garden at Giverny are most famous. Monet intended the water lilies to provide an asylum of peaceful meditation. Yet, as Ross King reveals in his magisterial chronicle of both artist and masterpiece, these beautiful canvases belie the intense frustration Monet experienced in trying to capture the fugitive effects of light, water, and color. They also reflect the terrible personal torments Monet suffered in the last dozen years of his life. Mad Enchantment tells the full story behind the creation of the Water Lilies, as the horrors of World War I came ever closer to Paris and Giverny and a new generation of younger artists, led by Henri Matisse and Pablo Picasso, were challenging the achievements of Impressionism. By early 1914, French newspapers were reporting that Monet, by then seventy-three, had retired his brushes. He had lost his beloved wife, Alice, and his eldest son, Jean. His famously acute vision--what Paul Cézanne called "the most prodigious eye in the history of painting"--was threatened by cataracts. And yet, despite ill health, self-doubt, and advancing age, Monet began painting again on a more ambitious scale than ever before. Linking great artistic achievement to the personal and historical dramas unfolding around it, Ross King presents the most intimate and revealing portrait of an iconic figure in world culture.

Claude Monet Ann Sumner,2019-12-16 Claude Monet's tranquil water-lily paintings and rural landscape scenes are among some of the most treasured artworks of the 19th and 20th centuries. Hailed as the 'Prince of Impressionism' for his pioneering role in the French artistic movement, Monet is widely recognised for his free brushstroke and experimentation with colour and natural light. In this beautifully illustrated book, Ann Sumner explores the life of this prodigious painter and the subjects that obsessed him: the cliffs of the Normandy coastline, the palazzos of Venice, the railway stations of Paris, the great edifice of Rouen Cathedral, and his beloved garden at Giverny. Showcasing a selection of his best-loved and lesser-known paintings alongside fascinating biographic detail, this guide serves as a perfect introduction to Monet and the evolution of his iconic style. ABOUT THE SERIES: The Great Artists series by Arcturus Publishing introduces some of the most significant artists of the past 150 years, looking at their lives, techniques and inspirations, as well as presenting a selection of their best work.

Claude Monet Nina Kalitina,2019-12-09 For Monet, the act of creation was always a painful struggle. His obsession with capturing the effects of lighting in nature was much more intense than that of his contemporaries. In his words: “Skills come and go ... art is always the same: a transposition of nature that requires as much determination as sensibility. I strive and struggle against the sun ... I might as well paint it with gold and precious stones.” A beautiful display of Impressionist work, Great Masters Monet explores the extraordinary paintings of one of the Masters of the 19th century. Monet’s rapid brushstroke style in landscapes and scenes from everyday life illustrates his overall fascination with light and colour.

Monet (World of Art) James H. Rubin,2020-04-14 From a world authority on impressionism and nineteenth-century French art comes this new addition to the World of Art series on the art and life of Claude Monet. One of the most famous and admired painters of all time, Claude Monet (1840–1926) was the architect of impressionism—a revolution that gave birth to modern art. His technique of painting outside at the seashore or in city streets was as radically new as his subject matter: the landscapes and middle-class pastimes of a newly industrialized Paris. Working with unprecedented immediacy and authenticity, Monet claimed that his work was both natural and true, and therefore, entirely novel. In Monet, James H. Rubin, one of the world’s foremost specialists in nineteenth-century French art, traces Monet’s development, from his early work as a caricaturist to the late paintings of water lilies and his garden at Giverny. Rubin explores the cultural currents that helped shape Monet’s work, including the utopian thought that gave rise to his politics, his interest in Japanese prints and gardening, and his relationship with earlier French landscape painters and contemporaries such as E´douard Manet and Pierre-Auguste Renoir. Featuring more than 150 color illustrations of his key works, Rubin establishes Monet as the inspiration for generations of avant-garde artists and a true patriarch of modern art.
