Navigation History, Application and Fun with the Sun James B. Read,2023-02-16 This book was created as a result of much frustration, while attempting to read and understand navigation HOW-TO books. While attempting to decipher the material, I would become lost, unable to comprehend what the author was describing and how I got there. Eventually I was able to create drawings which brought all the confusing details into focus. The result, everything finally made sense. You could think of this as a primer, once you have grasped my simplifications, you are equipped to comprehend the more detailed writings of the experts While working through the details it became clear that NAVIGATION HISTORY would not only be interesting and helpful, but would also tie everything together. I have been obsessed with the early Portuguese navigators and how their pilots managed obtain positions, ever

since I sat alone in the cockpit, out on the high seas. Inside this manuscript are revealed the secret methods, "STATE SECRETS", that they used to locate themselves, far beyond any reference from land. As an additional topic of interest, I have provided the reader with detailed instructions, that describe how to create a sundial, which mounts on a birdbath. This amazing device is not only able to keep accurate time, but also allows the builder to track and record the annual figure 8 ANALEEMA.

The Sound of the Hours Karen Campbell, 2019-07-11 'Moving, complex, romantic, and beautifully written, Karen Campbell's saga ... is a triumph' Allan Massie, Scotsman Divided by loyalties, brought together by war September, 1943. Tuscany, Italy. In the hilltop town of Barga, everyone holds their breath. Even the bells fall silent. Everything Vittoria Guidi knows and loves is at risk. German troops occupy the mountains around her home, as America's Buffalo Soldiers prepare to invade. As Vittoria's country is torn in two, so is her conscience. Should she side with her Scots-Italian father or her Fascist mother? Should she do what she is told – or what she believes in? Frank Chapel, a young, black American soldier fighting with the Buffalo soldiers for a country that refuses him the vote, is unlike anyone Vittoria has ever met. In the chaos, they find each other – but can their growing love overcome prejudice and war?

The Other Untouchables JN Greene, 2006-04-26 Jarvis and Simon were two previous adventures now combined into this book about their organization called the Untouchables. This group is dedicated to opposing crime but with a difference: it recognizes no laws. Named after the caste in India who perform dirty and dangerous jobs, the actions of the Untouchables are often illegal and lethal. Only one man, Mother Hen, knows the true identity of his agents, and, as outlaws, their only protection is their anonymity which they protect with disguises and false identities, enabling them to disappear after a mission like the ghosts they are called.

Trust Me April Joy Spring, 2018-11-07 A threatening text, an empty bottle of heparin, a sick dog, and a missing property all lead Christina and the police chief of Alva, Texas, to conclude that the person they have locked up in Dallas is working with someone, or another individual is threatening the Sanders family. As threats escalate toward not only Christina's family but also the residents of Alva, it becomes apparent that there are evil forces—human and spiritual—at work. When the first explosion rocks the town, the Sanders family and their friends are thrown into a life-and-death situation. As memories of the September 11 incident surface, fear grips the heart of the town, and the police chief feels compelled to call for outside help. During these trying times, Christina's faith is strained. She knows God wants her to be fearless and trusting, but the human side of her has difficulty letting go, as the lives of her loved ones hang in the balance. Little does she realize that God has a few surprises in store for her and her family.
