Dr N Bhaskara Rao

Chronicles of a village boy in New Delhi Dr N Bhaskara Rao,2015-10-19 Chronicles of a village boy in New Delhi is a first person account of the transition that most youth are experiencing today: from one age to another, one place to another and one value system to another. The book elucidates what factors influence that process and unleash the potential in individuals (even those without a godfather!), with thoughts that inspire and direct destinies. Written in an unconventional style, the book has insights for the youth of today to understand their elders and be sensitive to generational transition without succumbing to gene factors and not falling prey to the lures of the emerging times. The chronicles subtly hint at the dilemma of today in public space, points at contradictions and suggests introspection for proactive initiatives. The book profiles ten different important public movements in the country with concern and perspective. The author being a pioneer in applied social research, the book is a treasure for social analysts.

**Inclusion, Disability and Culture** Santoshi Halder,Lori Czop Assaf,2017-05-08 This book provides a global and social examination of how disabilities are played out and experienced around the world. It presents auto-ethnographic perspectives on disability across cultures, societies, and countries by documenting individuals' personal narratives, thought processes and reflections. Chapter authors share cross-cultural perspectives within and across various countries, such as India, Australia, United States, Sri Lanka, United Kingdom, Croatia, Brazil, South Africa, and Qatar. Adopting a self-reflective stance following qualitative research methodology, the chapter authors discuss the current challenges in the field. Next, they deconstruct disability identities, explore the complexities of communication with differently abled persons, examine inclusive policies, practices and interventions and present insights from caregivers. The book concludes with critical reflections and a look to the future of global diversity and inclusion.

**Governing the Urban in China and India** Xuefei Ren,2020-07-07 An in-depth look at the distinctly different ways that China and India govern their cities and how this impacts their residents Urbanization is rapidly overtaking China and India, the two most populous countries in the world. One-sixth of humanity now lives in either a Chinese or Indian city. This transformation has unleashed enormous pressures on land use, housing, and the environment. Despite the stakes, the workings of urban governance in China and India remain obscure and poorly understood. In this book, Xuefei Ren explores how China and India govern their cities and how their different styles of governance produce inequality and exclusion. Drawing upon historical-comparative analyses and extensive fieldwork (in Beijing, Guangzhou, Wukan, Delhi, Mumbai, and Kolkata), Ren investigates the ways that Chinese and Indian cities manage land acquisition, slum clearance, and air pollution. She discovers that the two countries address these issues through radically different approaches. In China, urban governance centers on territorial institutions, such as hukou and the cadre evaluation system. In India, urban governance centers on associational politics, encompassing contingent alliances formed among state actors, the private sector, and civil society groups. Ren traces the origins of territorial and associational forms of governance to late imperial China and precolonial India. She then shows how these forms have evolved to shape urban growth and residents' struggles today. As the number of urban residents in China and India reaches beyond a billion, Governing the Urban in China and India makes clear that the development of cities in these two nations will

have profound consequences well beyond their borders.

In-depth insights into the genetic and regulatory mechanisms of plant male sterility have been presented. This includes discussion on a variety of molecular players that induce male sterility and rescue male fertility in the hybrid plants. To enhance this book’s appeal, more emphasis has been given on the modern emerging approaches such as construction of heterotic pools that could boost hybrid breeding for enhanced crop performance amid climate change and growing population worldwide. **Challenges to Civil Rights Guarantees in India** A.G. Noorani,South Asia Human Rights Documentation Centre,2011-10-13 The civil rights of Indian citizens are guaranteed both in the Indian Constitution and through the State's international commitments. Despite these guarantees, the civil rights framework encounters numerous challenges from the State—problematic counter-terrorism laws, continuation of the death penalty, misuse of arrest and preventive detention powers, lack of implementation, and impunity. Through nine incisive essays on both traditional and emerging issues, this volume examines the prevailing imbalance between individual rights and State power. Many laws designed to protect the State do little more than protect State power at the expense of her citizens, directly flouting the Constitution, international law, and democratic principles. The authors critically analyse most of these laws, examining their justifications, background debates, and evolution, along with how they violate constitutional and international law. Taking into account relevant and contemporary comparative case law and developments in international law, this book makes a strong case for bold legal reforms and suggests various measures for improvement.
