Warfare in Medieval Brabant, 1356-1406 Sergio Boffa,2004 An account of the causes, combatants and course of events in the successive conflicts which troubled the duchy for half a century. The medieval duchy of Brabant was one of the most powerful principalities of the Low Countries. During the second half of the fourteenth century, it underwent a particularly dramatic period in its history: the House of Leuven was on the point of disappearance, the duchy was coveted by Philip the Bold of Burgundy, who was already dreaming of extending the Burgundian Empire and, by a network of alliances, Brabant was drawn into the Hundred Years' War. The author reviews the successive conflicts which troubled the duchy between 1356 and 1406; the different authorities which influenced the course of military operations (the duchess and the duke, their officers, and the Estates of Brabant); describes the combatants, in particular the nobility and the urban militias; considers the practical aspects of warfare; and analyses the military obligations and contracts which bound the men at arms to the duke. SERGIO BOFFA is currently researching in the department of Maps and Plans, Bibliotheque Royale de Belgique, Brussels.

Embassy to Tamerlane Clavijo,2004-10-21 'Clavijo was so keen and intelligent an observer and so lively a retailer of travel gossip that this is a very welcome addition to the series.' New Statesman Covering thousands of miles, Clavijo's epic journey began and ended in Cadiz taking in Rhodes, Constantinople, the Black Sea, and Central Asia. Guy Le Strange's extensive introduction gives excellent historical and political background for the account and the material is supplemented with seven maps and plans.

Burocracia y cancillería en la corte de Juan II de Castilla (1406-1454) Francisco de Paula Cañas Gálvez,2012 El libro que ahora se ofrece al lector forma parte de lo que en su día fue una parte significativa de la tesis doctoral de su autor, presentada en la Universidad Complutense de Madrid en noviembre de 2005, y que llevaba por título La burocracia regia durante el reinado de Juan II de Castilla: estudio prosopográfico e itinerario. Habiéndose publicado recientemente lo que de aquella tesis se dedicaba al itinerario de la corte¹, ahora sale de la imprenta el estudio del aparato burocrático regio y su análisis prosopográfico. Como es bien sabido, las gentes del Medievo nada supieron de la

burocracia, o mejor dicho, nada supieron de la palabra burocracia. Se trata de un vocablo resultante de la unión entre la etimología francesa bureau y de la griega cracia que permite aludir de manera especialmente precisa, entre otras acepciones, al conjunto de empleados públicos y de funciones y procesos relacionados con la ejecución administrativa de las decisiones políticas. Su uso en la lengua española se produce de una manera muy tardía. Hay que esperar, de hecho, a autores del siglo XIX, ya en su segunda mitad, tales como Benito Pérez Galdós, Emilio Castelar o Vicente de la Fuente, para encontrar manifestaciones de su utilización
